DG MOD ...: Varistor-based protection module for DEHNguard M ... and DEHNguard S ... surge arresters

- **High discharge capacity due to powerful zinc oxide varistors/spark gaps**
- **High reliability due to "Thermo Dynamic Control" SPD monitoring device**
- **Energy coordination within the Red/Line product family**
- **Operating state/fault indication by mark in the inspection window**
- **Easy replacement of protection modules without tools by module locking system with release button**
- **The plug-in protection module can be replaced without disconnection of the mains voltage und without removing the cover plate of the distribution board.**
- **Tested for vibration- and shock-proofness according to EN 60068-2**
