DG M TN CI ... (FM): Modular surge arrester with integrated backup fuses for single-phase 230 V TN systems

- Prewired complete unit for single-phase 230 V TN systems consisting of a base part and plug-in protection modules with integrated backup fuses
- Energy coordination within the Red/Line family
- High discharge capacity due to powerful zinc oxide varistors
- High reliability due to "Thermo Dynamic Control" SPD monitoring device
- Operating state/fault indication of every protective path
- Multifunctional terminals for connecting conductors and busbars
- Easy replacement of protection modules without tools due to module locking system with module release button
