

Energizer Tactical Light 700 Torch

The Energizer TAC 700 delivers high performance in a durable, dependable, and compact body. The rear push button, strobe mode, and durable aircraft grade aluminum were designed to work on various situations. In addition, the light output and 4 different modes (High, Medium, Low, Emergency Strobe), make it perfect for any outdoors and indoors usage, including work and DIY projects. Stay prepared in emergency situations with this light's strike bezel head. Its removable clip works in both orientations which provides the versatility to clip and use the way works best for you.
