Energizer Atex 2D Torch

Approved by global safety agencies, the Energizer Intrinsically Safe Atex LED torch is capable of working in the harshest conditions. Designed with industrial trades in mind, this high-performance light is certified with an IP67 waterproof rating and survives drop after drop from up to 1 meter. With the purpose of keeping the user safe, a lanyard loop make for easy access on the job, whilst the orange safety color provides instant recognition. LED technology delivers consistent illumination of up to 150 lumens for a long duration of 40 hours to keep you active for longer.
