Article information

New generation of wall cabinets, which gives the installer 100% flexibility during installation. The assembly process of the rack, is done during the installation of hardware into the cabinet. All the coverplates (side, top&bottom + frontdoor), can be installed on the final end of the job.

By ordering the back frame & cover parts separately, you can await to order coverplates and frontdoor until the color are decided.

- For 19" wall housing, adjustable in depth: 400, 450, 500, 550 & 600mm
- 100% Protection against installation error. Left/right side plates and Top/Bottom plates are equal
- Steel front door. Possibilities to hinge left or right.
- Adjustable door hinge to secure correct leveling of the door.
- Secured sidewalls. Can only be dismantled from front side behind the front door.
- 190x90mm Cable entrance in top and bottom.
- Mounting holes for fan-units in top/bottom
- Protection degree IP20
- El-galvanized steel plates for higher quality class
- Side- top & bottomplates, El-galv. Powder coating light grey, black or white
- Quarter turn Lock with key. Can be exchanged to RUKO/ASSA with 699989 turning handles
