

Technical Data Sheet

Product name: Internal/External Interface Box

Application

- Optical Telecommunication System, LAN, Optical fiber Communication System
- Optical fiber testing machine /test equipment
- CATV Networks, Fiber optical transducer
- Optical fiber broadband access network, FTTH access network

Features

- Compact Dimension
- Used indoor or outdoor with good water-tight performance
- be safe design with lock
- Wide cable range with diameter from 11mm to 16mm

Main Parameter

| | |
|-------------------------------|--|
| Dimension | 165*115*30mm |
| Material | FR ABS |
| Port Number | 1 port in and 4 ports out |
| Max fiber capacity | 4 fibers |
| Max diameter for input cable | 16mm |
| Max diameter for output cable | 4.5mm |
| IP Rating | IP55 |
| Weight | 0.22Kg |
| Package | Packed with inner carton or plastic bag individually |
| Operating Temperature | -40°C~60°C |
