Declaration of REACH Compliance

Product Type: Wireless Inspection Camera

Models: CFWF50A2, CFWF50P

Ferret Tools declares that, to its knowledge as of the date of this document, the products listed above conform to the requirements of the EU REACH Regulation EC 1907/2006. The Member States Committee (MSC) of the European Chemicals Agency (ECHA) has decided to include lead in the Substances of Very High Concern (SVHC) Candidate List. To the best of our knowledge we have determined there is no substance in the most recently published SVHC list present in the CFWF50A2 and CFWF50P products. As of the January 17, 2022 update, a total of 223 substances are included on the SVHC Candidate List.

In addition, to the best of our knowledge we have determined that there are no substances described in REACH ANNEX XVII present in the products mentioned above..

Because the CFWF50A2 and CFWF50P products are complex products, an assessment is performed of individual components as directed by the European Court of Justice. ECHA notification is not required for our products because they do not exceed a volume of one ton per year, nor are humans or the environment exposed to the substances during normal or reasonably foreseeable conditions of use.

This declaration is based on Ferret Tools understanding of the requirement of the REACH Regulation and knowledge of the material that go into its products. Ferret Tools bases its knowledge on information provided by third-party suppliers and makes no representation or warranty as to the accuracy of such information. Ferret Tools continues to take steps to obtain accurate information from suppliers but has not conducted descriptive testing or chemical analysis on incoming materials to verify material composition.
