MAGNET FOR STORAGE OR
HANDS-FREE USAGE

A new range of quality, professional-grade lights designed with performance, flexibility and durability to meet the tough standards and demands while on the job!

Energizer Pro Series lights have **powerful LED technology** that includes **High CRI** for high-definition colour clarity. The Energizer **Pro Series Hybrid Handheld Flashlight** provides the flexibility of hybrid power (Li-ion or standard AA batteries) to ensure you always have power and light when you need it! This series of lights are **durable, waterproof, and dustproof (IP67)** to withstand demanding conditions.

The anti-roll design provides a solid base for hands-free operation or storage and a large push button switch that is easy to use with gloves on. The comfortable non-slip grip handle makes it easy to carry. Plus, a pouch is included to attach to your belt while easily storing your light, batteries, cartridge & charging cable all in one place! This flashlight is equipped with **1 LED** which will provide a wide focus spot up to **500 lumens and up to 200 m** to create a clear and large surrounding effect to move around safely.

Pouch included

Features		Benefits
	Hybrid Power. Onboard with L-ion battery + cartridge for primary battery	Never run out of power with Lithium Ion. It can be recharged hundreds of times and will save you money and waste. Cartridges allow you to be ready if you need more time, as a complementary solution using AA alkaline or lithium batteries. USB C allows fast charging. Color indications will inform about remaining power (Green >50%; Yellow >25% ; Redflash <10%).
	Robust torch with 3 m drop test resistance and a Rechargeable battery, 5 m with primary battery	No worries. Your products will always be usable if dropped.
HIGH CRI	90+ CRI LED 5000 Kelvins 500 Lumens	The color rendering delivered by the premium LED is close to natural color (12 x more than standard LED). It will ease your work in the dark, allowing you to see the colors and relief perfectly. The color is more comfortable for your eyes.
4 MODES 	1 LED = long concentrated beam with medium-size surrounding halo	A bright homogeneous halo will light you up to 200 m. Its clear focus concentrated halo and great surrounding light will allow you to move around safely from place to place. You will appreciate the great color rendering with High CRI LED.
	Several power modes: High - Medium - Low - Flashing - Dimming	Will allow you to adjust the intensity to your need and save power to optimize your run time and comfort. Digital focus will adjust the field of vision. You can use it also for close-up and precision work. Flash mode will allow you to be detected by your colleagues if any issues occur.
IP67	Waterproof (IP67) and Dustproof	Allows you to use your flashlight in any weather or environmental conditions. Can last 1 hour in up to 1m of water. Resistant to dust.
	Made for Professionals with large button, anti-grease material, magnet and pouch	Craftsman / electricians will be able to use the Pro torch with gloves; the shape will perfectly fit your hand. Thanks to the 2 magnets, you will be able to attach it to any metal surface. A pouch will allow you to fix it on your belt and will have an extra folder to hold complementary battery cartridges.
