MULTICOLOR HEADLAMP
7 638 900 448 214

The Energizer MULTICOLOR HYBRID HEADLAMP is the best tool professionals can expect to work with. This Waterproof, Dustproof, High CRI Multi-colored Headlamp is another innovative headlamp solution from Energizer.

Featuring bright, **durable and energy efficient LED technology** (12 X Brighter than Standard LED), users get a bright, lightweight, hands-free solution with ample run time capability. It is a perfect light for work and outdoor activities in any weather conditions. **High CRI LED** provides the user with clear, high-definition colour clarity allowing you to see colours in the dark. With the advanced dimming feature, users can control the intensity of light from 100% to 10%. The low battery indicator, located in the front of the light, will flash when battery is low, warning consumers that it is almost time to change the batteries. Powered with either the **Rechargeable Lithium-Ion battery or 4AAA Energizer batteries**, it has a comfortable, adjustable head strap with 2 silicone layers to fix on any helmet, with an anti-glare design, and pivoting head to direct light exactly as needed. This headlamp is another way Energizer® continues to deliver innovative lighting solutions to professionals. Thanks to the batteries sitting at the back, the weight is perfectly balanced on your head to avoid neck pain.

Features

Benefits

	Hybrid Power. Onboard with L-ion battery + cartridge for primary battery	Never run out of power with Lithium Ion. It can be recharged hundreds of times and will save you money and waste. Cartridges allow you to be ready if you need more time, as a complementary solution. USB C allows fast charging. Colour indicators will inform about remaining power (Green >50%; Yellow >25% ; Redflash <10%) USB A allows you to use the battery out as power bank.
	Robust torch with 2 m drop test resistance and a Rechargeable battery, 3 m with primary battery	No worries. Your products will always be usable if dropped.
HIGH CRI	90+ CRI LED 5000 Kelvins 650 Lumens	The color rendering delivered by the premium LED is close to natural color (12 x more than standard LED). It will ease your work in the dark, allowing you to see the colours and relief perfectly. The color is more comfortable for your eyes especially when working hands free and for close work.
7 MODES 	WHITE - RED & GREEN LED	An outstanding homogeneous halo will light a very large beam and give great surrounding light to move around safely. Max beam distance is about 100 m. You will appreciate the great colour rendering with High CRI LED. The red color will allow you to read in the dark while not disturbing others. The Green color will allow you to read instructions in the dark without tiring your eyes. You will see better than with White color and be recognizable to your colleagues.
	Several power modes: High - Medium - Low - Strobe - Dimming	They will allow you to adjust the intensity to your needs and save power to optimize your run time and comfort. Flashing mode will allow you to communicate with colleagues (arrived, issue..).
IP67	Waterproof (IP67) and Dustproof	Allows you to use your headlight in any weather or environmental conditions. Can last 1 hour in up to 1 m of water. Resistant to dust.
	Made for Professionals with anti-grease material, battery power on the back, silicone layers on the head band + helmet attachments	Professionals will enjoy the design of this headlight. Built with professionals in mind, this headlight will perfectly fit either on any head or on all helmets. Built with large, comfortable and anti-perspirant material, the strap has 2 silicone layers allowing a perfect fit on any helmet. 4 attachment accessories also allow for a perfect fit. Heavy headlight users will appreciate having batteries on the back. It balances the weight perfectly, reducing neck issues.
