

Nexans art.nr.: 10021005

El.nr.: 1036892

GTIN: 7045210030273

Alu-tape for selvbegrensende varmekabler

STANDARDER

Produkt Nexans specification

The tape is used to attach the cable, and ensures that the heat is distributed from the cable to the object that shall be heated.

Dimensions:

Width: 50 mm

Length: 50 m

Features:

Good adhesion
Mechanical resistance
Moisture resistant
High thermal conductivity
Ageing-resistant

Technical data

Backing material: Aluminium foil
Type of adhesive: Acrylic
Temperature Resistance MIN: -40 °C
Temperature Resistance MAX: 160 °C
Surface finish: reflective
