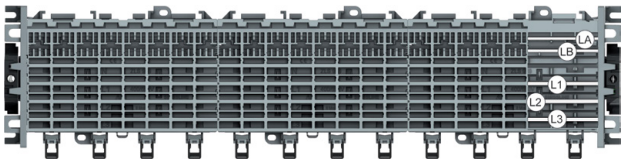
SMISSLINE TP plug-in system

Starter pack Touch proof 3LN – 125 A system

Starter Pack 3LN: L1, L2, L3, N inclusive socket end piece

For all starter pack the order of the 6 and 8 module sockets is like this:



Sequence(from Left to right):
All 8pole modules(Minus One) – All 6 pole modules – One 8 pole module

On some small busbar configurations there is only one 8 pole module present.
There we apply this sequence:
All 8pole modules – All 6 pole modules

SMISSLINE TP plug-in system

Socket

ZLS908

ZLS906

Socket bases ZLS906, ZLS908

The SMISSLINE socket system is a totally new kind of assembly and connection technology for the construction of distributions. Besides the classic method of snapping the devices onto 35-mm mounting rails, the new family of devices can be directly attached to the socket bases with integrated busbars. The time-consuming process of connecting up the supply is thereby no longer needed. In addition, in the event of rearrangement or expansion, the replacement of devices in existing systems is made significantly easier.

The socket sections and the wide range of accessories make it possible to plan with the capability for expansion and to construct distribution systems of any desired size in a short period of time.

6- and 8-module sockets are installed either by screwing them onto any flat surface or by snapping them onto a 35 mm DIN mounting rail. Lateral movement or detachment of the sockets again is possible before final fixing.

In order to determine the required socket length, the space necessary for

- the devices required
- the incoming terminal block and
- any reserve spaces needed must be determined.

Snap mounting

Pull down the slide with a screwdriver until it latches (socket can be moved).
Press on front of slid:
Fixed position
(Sockets fixed)

The key features

- System of any desired length (even number of poles)
- Integrated busbars
- Simple device change
- Long-term planning and problem free extension possible
- Significant time savings during assembly and connection

Socket base

Description/ application	Bbn 761227	Order details		Price 1 piece	Weight 1 piece	Pack unit
	EAN	Type code	Order code		kg	pc.
8-module socket Length 144 mm (includes base and cover)	1413965	ZLS908	2CCA183030R0001		0.092	10

Busbars for the sockets and additional socket ZLS200

The busbars of size 10 x 3 mm can be loaded with currents up to 125 A. They are plated for perfect contact with the devices plug-in contacts. The maximum available busbar length is

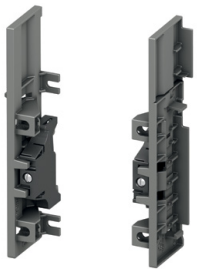
SMISSLINE TP plug-in system

Busbars, Socket end piece – 125 A system

ZLS20x

1979 mm. The same busbar type is used, regardless whether it is fitted in the socket (L1, L2, L3, N) or in the additional socket (N, PE). The busbars are inserted in to the socket from the front.

Auxiliary busbars for the socket ZLS202



The 5 x 2 mm auxiliary busbars are intended for a common power supply of auxiliary switches and signal contacts. They are also plated and their max. delivery length is 1979 mm.
Like the main busbars, the auxiliary busbars are inserted in holders LA and LB from the front. Of course, only on auxiliary busbar can be fitted.

Busbars for the sockets

40 A auxiliary busbar plated, 5 x 2 mm, for LA and LB – Delivery length 1979 mm	0015719	ZLS202	2CCF002773R0001		0.240	10

Socket end piece ZLS920

To prevent displacement of sockets and busbars (particulary when installed vertically) end pieces can be fitted at the start and finish of each row of sockets. These simultaneously ensure electrically protected covering of the busbar end faces and mechanical fixing of the sockets oh the mounting rail.

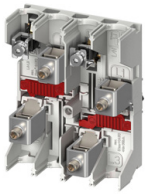
Incoming terminal component ZLS250-253; 954, 955

The incoming terminal component, with an installation width of 36 mm is available as a single-pole component for the line conductors L1, L2, L3 and as neutral. The terminals act directly on the busbars and thereby fix the incoming terminal component. The incoming terminal component, L1, L2, L3 and N can be combined to meet specific needs. A maximum cable cross-section of 95 mm² can be connected to the incoming terminal component.



Incoming terminal component 10 mm² to 95 mm² max. 1 wire

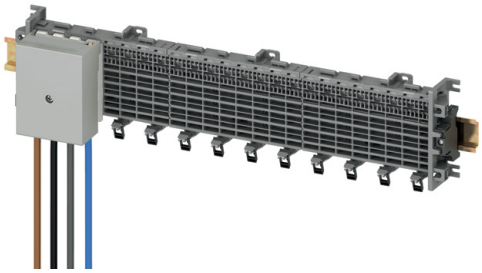
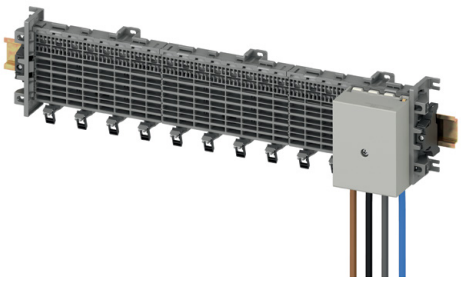
SMISSLINE TP plug-in system

Incoming terminal block and components – 125 A system

Left Version ZLS924 --L

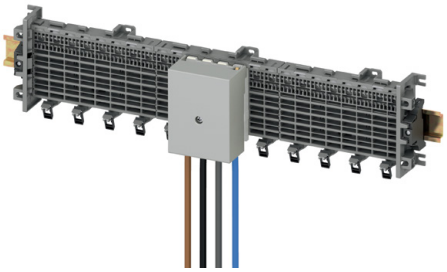


Right Version ZLS924 --R



Terminals of the left and right version of the Incoming block are turned.
Because of this there is no cable cross by connecting two SISSLINE rows (see picture)

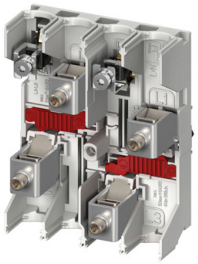
General



The incoming terminal block is used to connect cables directly to the busbars. The terminals act directly on the busbars and therefore fix the incoming terminal block. Removable terminal tops permit the connection of continous conductrors (risers) white horizontal or vertical cable entry is also possible.
Instead of using the incoming terminal block, the power supply can also be realized via a device (e.g. residual current operated circuit breaker, miniature circuit breaker or switch disconnector).

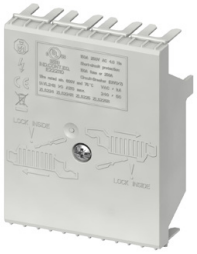
Power supply left or right, maximum 125 A.

Power supply in centre, maximum 160 A.
A maximum of 125 A is permitted on either side. A total of 160 A shall not be exceeded.



Incoming terminal blocks ZLS924

A standard incoming terminal block whose cover provides protection against accidental contact. Construction height 50 mm. The base plate can be fitted with a maximum of 4 main terminals L1, L2, L3 and N for the busbars, and 2 auxiliary terminals LA and LB for the auxiliary busbars.



SMISSLINE TP plug-in system

Terminals for additional socket – 125 A system

ZLS928

ZLS926

Additional socket

The additional socket can easily be fitted onto the socket base to accomodate the external N and/or PE busbars. This enables neutral connections to be made where single-pole miniature circuit breakers are used with unswitched neutral. Neutral terminals are clipped onto the additional socket and can be used as detachable neutral connections. One N busbar and/or one PE busbar can be fitted. Each socket base can be equipped with an additional socket. Because it contains an integrated 35 mm DIN-rail snap-on feature, the external N or PE busbars can be fitted anywhere in the distribution panel, even separate from the system. The additional sockets can be covered to prevent accidental contact with live parts.

Busbar insulator ZLS938

The dark grey busbar insulator electrically isolates the separated busbar ends from each other (e.g. when using several RCD protected groups) and also identifies the isolation point from outside. It conforms with the device profile and it requires 1 module space.

Busbar insulator

dark grey, for isolation and spacing of separate busbar sections, 18 mm	1418205	ZLS938	2CCA205611R0001		0.001	1

Busbar cover ZLS100

If component modules or spare modules are not required, the busbar cover ensures electrically protected covering of the main and auxiliary busbars. The cover (4 modules) can be cut anywhere.

Busbar cover

electrically protected covering of main and auxiliary busbars. The 4 modules cover can be divided. Suitable to accept extension adapter ZLS 101 4 x 18 mm – bag containing 5 items	0015603	ZLS100	2CCF002762R0001		0.095	1

Extension adapter ZLS101

The extension adapter, single or several side by side, can be plugged into the busbar cover via the built-in holding device. This enables conventional DIN devices with 45 mm cap size to be snapped onto the SMISSLINE socket. By plugging in several extension adapters one on top of the other, heights can be adjusted in multiples of 7 mm

Add-on adapter

18 mm wide, can be plugged on busbar cover ZLS100. To mount conventional DIN devices with 45 m cap size. – bag containing 10 items	0015610	ZLS101	2CCF002763R0001		0.002	10

SMISSLINE TP plug-in system

DIN-rail adapters 32 A and 63 A

Multipole DIN adapter can plugged together with single adapters and the connection piece E210SPV.

Adapters can be used on the 125A or on the 250A busbar system.

DIN adapter 32A

DIN adapter 63A

Example DIN adapter

32 A and 63 A DIN-rail adapters

Planning for the incorporation of feeder block and spare places should be taken into account.
The total lengths given above were calculated taking socket spacings and tolerances into account.
For this reason, the indicated busbar length is not necessarily a multiple of 18 mm (1 Module).

SMISSLINE TP plug-in system

Technical data according to IEC/EN 61439-6

Power Bar System 250 A

Busbar system touch proof:
Use only for wall mounted application (horizontal or vertical). When installed correctly the requirements of EN/IEC 61439-2 are met.

Number of poles	30 to 110 3p+N / 2 additional bars PE+N
Rated operational voltage (U_e)	690 VAC, 440 VDC (415 V for LA, LB busbars)
Rated insulation voltage (U_i) Main circuit	690 VAC, 440 VDC
Rated insulation voltage (U_i) Auxiliry circuit	415 VAC
IP Code	IP20B
Mounting position	horizontal or vertical
Overvoltage category	IV
Pollution degree	3 (690 V a.c.) 2 (1000 V d.c.)
Rated impulse voltage (U_{imp})	8 kV mainbusbars; 6 KV auxillary busbars
Rated current of the assembly (I_{nA})	Main circuit: 250 A (side feeding), Auxiliary circuit: 40 A
Rated current of a circuit (I_{nc})	Main circuit: max 250 A, Auxiliary circuit: max 40 A
Rated short-time withstand current (I_{cw})	Main circuit: 15 kA / 100 ms, Auxiliary circuit: 4 kA / 50 ms
Rated peak withstand current (I_{pk})	Main circuit: 30 kA, Auxiliary circuit: 6 kA
Rated frequency (f)	50/60 Hz
Rated conditional short-circuit current (I_{cc})	see table below
Ambient air temperature	max. 60°C
Environmental conditions (damp heat) acc. to IEC/EN 60068-2-30	1 cycle with 55 °C/90…96 % and 25 °C/95…100 %
Size of CU bars 3P+N+PE	3×25 mm (75 mm²)
Size of CU auxiliary bars La Lb	2×5 mm (10 mm²)
Resistance and reactance values Busbar ZLSP1250	R 0.325mΩ/m X 0.295mΩ/m

250A System Rated Voltage (U_e) Main busbar (L1, L2, L3, N)	**Rated conditional short-circuit current (I_{cc})**	**Short circuit protection device (SCPD)**

SMISSLINE TP plug-in system

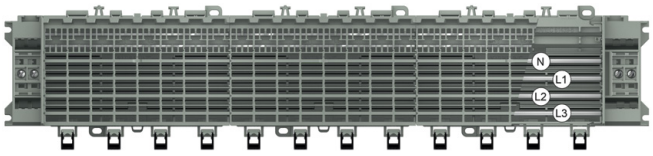
Starter pack Touch proof 3L
Power Bar System 250 A

Starter pack Touch proof 3L Busbar system 250 A

For all starter pack the order of the 6 and 8 module sockets is like this:



Sequence(from Left to right):
All 8pole modules(Minus One) – All 6 pole modules – One 8 pole module

On some small busbar configurations there is only one 8 pole module present.
There we apply this sequence:
All 8pole modules – All 6 pole modules

SMISSLINE TP plug-in system

Additional socket

Power Bar System 250 A

Additional socket

The additional socket can easily be fitted onto the socket base to accommodate the external N and/or PE busbars. This enables neutral connections to be made where single-pole miniature circuit breakers are used with unswitched neutral. Neutral terminals are clipped onto the additional socket and can be used as detachable neutral connections. One N busbar and/or one PE busbar can be fitted. Each socket base can be equipped with an additional socket.

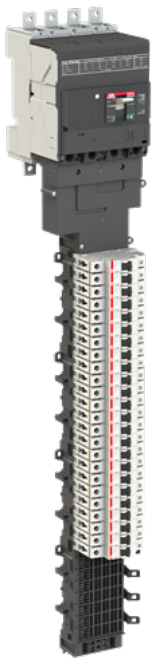
Planning for the incorporation of feeder block and spare places should be taken into account.
The total lengths given above were calculated taking socket spacings and tolerances into account.
For this reason, the indicated busbar length is not necessarily a multiple of 18 mm (1 Module).



SMISSLINE TP plug-in system

Busbar system 250 A

Direct feed to plug-in circuit-breaker Tmax XT4

The direct feed starter pack solution allows a direct connection from the 250A Power Bar System to the Installation for plug-in circuit-breaker Tmax XT4 Moulded Case Circuit Breaker. Lower part for plug-in for Tmax XT4, 3 pole (1SDA068196R1) or 4 pole (1SDA066283R1) is needed.
For fixed XT4 version a conversion kit for moving part plug-in is needed additional. 3pole (1SDA066282R1) and 4 pole (1SDA066283R1).
The solution is built for a vertical design. The additional heat sink part is helpful to reduce the heat on the system.

Direct Feed 250A

Busbar system 250 A

Direct feed Accessories

At the first 12 module positions close to the XT4 a derating of 0,76 shall be applied.
For the other modules the derating is according the data from the technical catalogue for MCB, RCD, RCBOs. The specific deratings for devices for influence of adjacent poles and ambient temperature must be still carefully attended in any case.

SMISSLINE TP plug-in system

Busbar system 250A

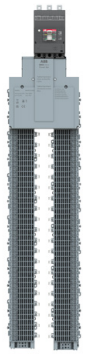
Pan Assembly solution

The Pan Assembly design provides a solution for directly connecting two 250A SMISSLINE TP Power Bar Systems to a pluggable Tmax XT4 MCCB, thereby reducing labour time. The two 250A SMISSLINE TP Power Bar Systems are installed vertically for optimum use of space. The Tmax XT4 MCCB can be fitted above or below the Smissline arrangement, depending on whether the incoming cables are fed from the top or the bottom of the enclosure.
The complete system is IP20 touch proof and is tested according to IEC/EN 61439-6.

Step 1
Select the required Power Bar System 250A starter pack. There is a wide selection of starter packs available, ranging from 30 up to 110 modules (ZLSP950….) in 3L and 3LN variations. The starter packs come with the busbars already fitted. You can also build up your 250A Smissline system individually, using the 6 and 8 module main sockets (ZLSP908/906) and the different lengths of available 250A busbar.
Additional sockets can be selected as well, if external N and/or PE busbars are needed.

Step 2
Select the Tmax XT4 MCCB to Smissline system incoming connection kit (ZLSP940…), depending on top or bottom feed.

Step 3
Select the Plug-in Tmax XT4 Moulded Case Circuit Breaker. A 3pole (1SDA068196R1) or 4pole (1SDA068198R1) plug-in base is also required.



Step 4
Application with additional socket (ZLSP940-3LN-N top 2CCG001562R0001) you need to order parts as well for the incoming additional socket:1piece ZLSP935-8NPE 2CCG000042R0001 and 1piece ZLSP935-8NPE-R 2CCG000046R0001

The height difference between XT4 and SMISSLINE is 60mm. This means SMISSLINE must be mounted 60mm higher.

SMISSLINE TP plug-in system

One system with many options

SMISSLINE TP protective devices with plug-in technology – the individual way in switchgear technology
Five modern protective devices in the same design are simply plugged onto a busbar system. The complex feed-in and connection work is already done. In addition to this time and cost savings, it is crucial to be able to quickly and easily replace equipment. Third-party devices can be integrated into the busbar system by using adapters. The system was developed for commercial and industrial switchgear technology. Installation and wiring times can be greatly reduced by using the directly attachable system.

Together with the ABB STRIEBEL & JOHN switchgear system, optimum space utilization, easy changes and expansion of the switch cabinet and its installations can be achieved thanks to horizontal or vertical installation options. The individual components are coordinated with each other, such as the length of the plug-in socket and the modular components of the switch cabinets. Of course, mixed installation options of conventional modular devices can also easily be realized, such as pro M Compact. The configured ABB STRIEBEL & JOHN expansion products make this possible.

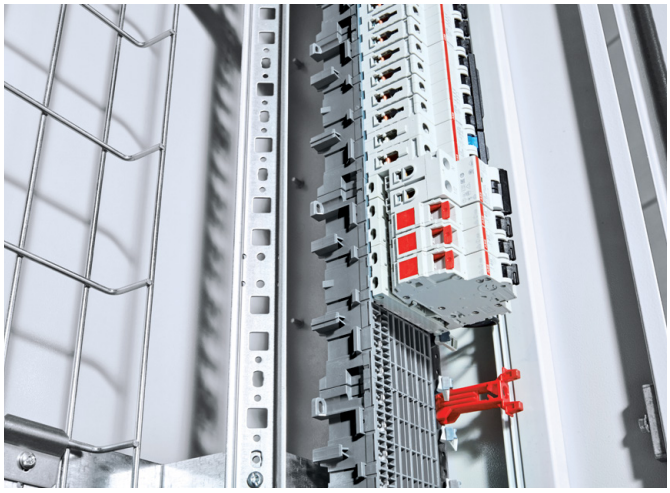
A powerful 250 A system is now available with the SMISSLINE TP Power Bar system. The busbars have a rated amperage of 250 A and therefore allow end feed of 250 A, which significantly expands the system’s range of application.

SMISSLINE TP and ABB STRIEBEL & JOHN – the cabinet system at a glance:
- Flexible and modular
- Freedom in concept and arrangement
- Time saved during planning and execution
- Quick adaptation when expanding
- Allows for the load-free connection and disconnection of devices and components under voltage without the need for additional personal protective equipment to guard against electrical hazards
- Coordinated product components
- SMISSLINE TP modules can be combined with other ABB STRIEIBEL & JOHN distribution panels and modules

Small cause, large effect
As the world's first pluggable socket system, SMISSLINE TP allows devices and components to be snapped on and off, load-free and under voltage, without having to take additional personal protective measures. It opens up to a completely new prospects when it comes to installation, operation and flexibility.

SMISSLINE TP plug-in system

One system with many options



—
01
The outlet wiring is done directly on the installed devices. The N and PE terminals are assigned to the devices accordingly. The outlet cables are affixed in a mesh cable tray neatly and clearly arranged.

—
02

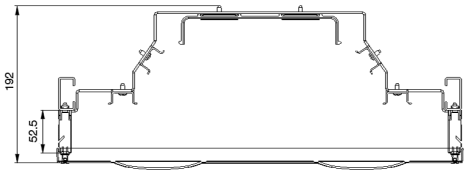
SMISSLINE TP plug-in system



CombiLine modules view

Horizontal modules are suitable for mounting on WR or EDF profiles. From cabinet depth of 215 mm. The WR or EDF mounting frame must be ordered separately.

Vertical modules are suitable for mounting in cabinets from a depth of 275 mm. The mounting frame must be ordered separately. Cable laying grid is included for cable fixing. With DIN rail for PE/N disconnect terminals.

Front view

Front view

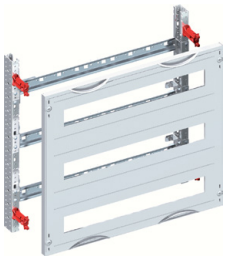
SMISSLINE TP 125 A interior expansion with CombiLine

Options for assembly in an enclosure

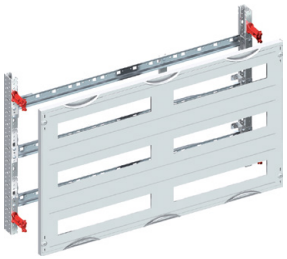
For a horizontal device arrangement, the DIN rail can be set in conjunction with mounting adapters. The Busbar systems cannot be through-connected from one panel to the next. The DIN rail is mounted to a 2-stage bracket (in front upon delivery). The front position is for the plug-in socket assembly. The SMISSLINE TP devices will directly be mounted. The back position is for mounting the socket bases for devices with DIN-rail adapters.

For a vertical device arrangement, the existing cover holders are replaced with cover holders ED137P4 with spacers ED135P4 in conjunction with mounting adapters. In addition, a cover raising frame is required, so that there is more space under the cover. All devices using mounting adapters are to be arranged under a separate cover. Cable lying grids are installed for modules with a vertical device arrangement in order to attach the lines. The DIN rails are designed to be equipped with the SMISSLINE TP socket base rows. It is also possible to connect the SMISSLINE TP additional socket (N/PE terminals).

Horizontal device arrangement



Vertical device arrangement



Important: It is recommended to provide at least a 150 mm high terminal or wiring space on the cable entry side.

SMISSLINE TP plug-in system

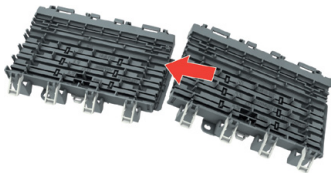
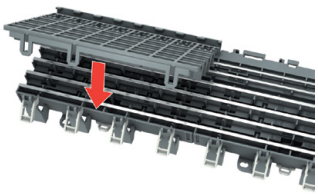
Comparison of starting package with plug-in socket in individual parts

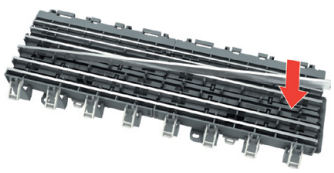
Solution of plug-in socket starting package

The plug-in socket and busbars are already assembled. Different lengths are available. The assignment of the appropriate ABB STRIEBEL & JOHN modules to the starting packages is described on the following pages – planning aid for SMISSLINE TP plug-in socket.

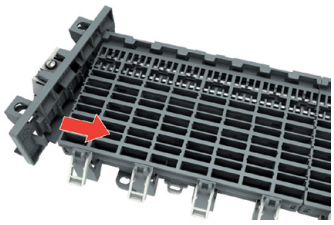


The detailed solutions of the plug-in socket and starting package are evident in the technical catalog SMISSLINE TP or the catalog low-voltage material of ABB-Stotz Kontakt and ABB STRIEBEL & JOHN.





Solution of plug-in socket in individual parts



You can assemble plug-in sockets, busbars and socket end pieces on your own from the individual components. Plug-in sockets with 8 units (144 mm) and 6 units (108 mm) can be selected and assembled in any number up to 110 PLE.

The busbars can be ordered in the length of 1979 mm and shortened accordingly. It is also possible to order busbars from ABB already cut to length.

Information about planning

When positioning incoming terminal blocks under cover joints, lower feed-in blocks ZLS228 or ZLS229 are to be used.

Vertical modules cannot be mounted directly on central support rails and horizontal cross members.

* For version with N (4-pole)

Information about planning

When positioning incoming terminal blocks under cover joints, lower feed-in blocks ZLS228 or ZLS229 are to be used.

Vertical modules cannot be mounted directly on central support rails and horizontal cross members.

SMISSLINE TP plug-in system

Busch-art linear®
Thinking about tomorrow.

Busch-art linear® forms the perfect balance between design and nature, between an industrial product and ecological imperatives.
Our new range of wiring accessories includes mechanical and electronic switches that can be integrated into ABB's smart home systems, ABB-free@home® and ABB i-bus® KNX, in a unique and sustainable design.

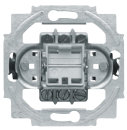
Rocker Switch Mechanism [1] [2]
DP, 1gang 1way

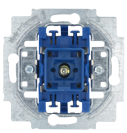


For switching high loads.
Rated voltage: 250 V~
Rated current: 16 AX
Suitable for: LEDi / CFLi
Rated power: 200 W
Protection class (Device): IP 20
IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2000/2 US-101-500	2CKA001012A2193	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] Also for switching SCHUKO® socket outlets.

Rocker Switch Mechanism [1] [2]
3-pole, 1gang 1way switch



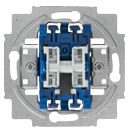
Rated voltage: 400 V~
Rated current: 16 AX
Suitable for: LEDi / CFLi
Rated power: 200 W
Protection class (Device): IP 20
IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2000/3 US	2CKA001011A0816	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] With screw-type terminals. Non-illuminable.

Rocker Switch Mechanism [1]

With neon lamp.
Rated voltage: 250 V~
Rated current: 10 AX
Suitable for: LEDi / CFLi
Rated power: 100 W
Protection class (Device): IP 20
IEC 60669-1



Colour	Type	Order code	Pack/Qty.
	1gang 2way [2]

Push-switch mechanism [1]
SP, with normally open contact (operating current)

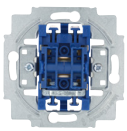
With 2 independent signalling contacts.
Rated voltage: 250 V~
Inputs: 1
Outputs: 1
Rated current: 10 A
Protection class (Device): IP 20
IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2020 US-201	2CKA001413A0483	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Push-switch mechanism [1] [2] [3]
SP, with normally open contact (operating current)

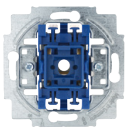


With illumination.
With N terminal.
Rated voltage: 250 V~
Rated current: 10 A
Protection class (Device): IP 20
IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2020 USGL-500	2CKA001413A1106	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.
[3] For relay and touch dimmer applications.

Push-switch mechanism [1]



With one input terminal and 2 actuating covers.
Rated voltage: 250 V~
Inputs: 1
Outputs: 2x Normally open contact
Rated current: 10 A
Protection class (Device): IP 20
IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2020 US-205-500	2CKA001413A1105	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Push-switch mechanism [1]
SP, 1gang 2way

Can be wired for normally open contacts (stand-by current) or normally closed contacts (operating current).
With N terminal.
Rated voltage: 250 V~
Rated current: 10 A
Protection class (Device): IP 20

Busch-art linear®

Rocker switches / push switches

Friends of Hue smart switch insert.
Wall-mounted transmitter, 2 / 4 channel.

For smart switch rockers 6735 BT-8xx and 6736 FoH-8xx. Smarter light switches for wireless remote control of Philips Hue lamps. For switching and dimming of Philips Hue lamps. For saving, calling up and dimming of a maximum of 2 individual light scenes. Without battery and maintenance-free due to >Energy harvesting<. Requires Philips Hue Bridge (2nd generation square construction type) and Philips Hue app (Version 3.2 or higher). Maximum safety of function by means of Zigbee-Mesh technology. Combinable with the Busch-Jaeger switch ranges: carat®,carat® flat, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent®, Busch-axcent® pur and future® linear. Can be mounted freely in the room with the enclosed adhesive tape and fixing plate. Including fixing plate for mounting on smooth walls or on switch boxes.

Colour	Type	Order code	Pack/Qty.
	6716/01 U-500	2CKA006710A0014	1

Bluetooth Low Energy (BLE) smart switch insert.
Wall transmitter, 2 / 4 channel.

For smart switch rockers 6735 BT-8xx and 6736 FoH-8xx.
- Smart switch for wireless remote control of radio components.
- Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.
- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Depending on the ecosystem, the wireless range is automatically extended via mains-powered BT mesh devices (repeater function).
- Encrypted transmission with AES-128 (CBC mode) and sequence counter.
- Contains NFC configuration interface according to NFC Forum Type 2 Tag (ISO/IEC 14443 Part 2 + 3).
- Therefore particularly simple commissioning of BLE radio components from Casambi.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

Busch-art linear®

Dimmers

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
Flush-mounted, LED, 2-100 W

With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
Via mode switch adjustable between leading edge control and trailing edge control.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 250 W/VA (non-LED loads).
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	6523 U-102-500	2CKA006512A0335	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
Turn/push button 230 V 2...400 V·A

Very small installation depth: < 20 mm.
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (leading edge control) Nominal power: 2 - 400 W/VA (trailing edge control)

Busch-art linear®

Dimmers

Busch-rotary dimmer [1] [2] [3] [4] flush mounted, 1-10V

With rotary control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control gears
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 700 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	2112 U-101-500	2CKA006599A2873	1/10

[1] Non-illuminable.
[2] Use cover plates 2115 J-.../2115-.../6540-... .
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Making-current limiters have to be provided in case of too high making currents.

Busch-rotary dimmer [1]
Flush-mounted, DALI, tunable white

For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116 U	2CKA006599A3025	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-rotary dimmer [1] Flush-mounted, DALI, with internal power supply, tunable white

For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116/11 U	2CKA006599A3026	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

[1]) Surface painted.

Relay insert flex, 1gang [1])

3 wire connection (neutral conductor required).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... .
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz. Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical. Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps. Rated power: 2300 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 2300 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64811 U-500	2CKA006800A3042	1/10

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Relay insert flex, 2gang [1])

3 wire connection (neutral conductor required).
For switching lighting systems.
For switching two independent load circuits.
For controlling light and ventilation systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... . For Busch-Watchdog 180 flex sensors 6476x-...
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz. Inputs: 2
Outputs: 2x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps. Rated power: 1840 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 1150 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Busch-art linear®

Movement sensors

Busch-Comfort switch® Control Element Movement sensor

Movement detector push-button switch combination. For switching lighting systems that depend on brightness and movement. With select lens, prevents detection of smaller animal. Push switch function possible at all times. With notice LED when manual operation is necessary. Extension of the detection range by main unit/extension unit combination. Control element: 2 controllers for setting the brightness switching threshold and switch-off delay. Additional activation/deactivation option via push-button input on the flush-mounted insert. Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off. Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off. Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off. With continuous light/continuous Off function. Adjusting elements on rear side. Surveillance density: 9 sectors with 28 switching segments.
Switch off delay: 1 to 10 min., adjustable.
Compatible with all ABB flexTronics inserts.
For relay insert flex, 1gang, 64811 U-500
For relay insert flex, 2gang, 64821 U-500.
For e-contact insert flex, 1gang, 64814 U-500.
For LED touch dimmer insert flex, 1gang, 64851 U-500.
For extension insert flex, 64891 U-500.
Display elements: LED for status display.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Brightness limit value: 5 Lux - daytime operation
Hight above the wall: 21 mm.
The range specifications refer only to an ambient temperature of 21°C. Please order the respective flush-mounted insert separately.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.

Busch-Watchdog 180 flex, comfort sensor wireless [1]) [2]) with select-lens

Movement detector sensor with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. ./. Compatible with all free@home flex inserts. Adjusting elements on rear side. Extension of the detection range by means of master/slave combination. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode. Surveillance density: 14 sectors with 56 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. For relay insert flex, 1gang, 64811 U. For e-contact insert flex, 1gang, 64814 U. For series relay insert flex, 2gang, 64821 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Mounting height: 22 mm. Protection class (Device): IP 20

Busch-Watchdog 180 flex, comfort sensor [1]) [2]) with multi-lens

Movement detector sensor with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Push switch function possible at all times. For detection down to the floor. For detection in stairwells. With 4 detection levels. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flex inserts. Adjusting elements on rear side. Multi-lens: suitable also for mounting heights of 2.20 m. Extension of the detection range by means of master/slave combination. With continuous light/continuous Off function. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode. Surveillance density: 54 sectors with 224 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. For relay insert flex, 1gang, 64811 U. For e-contact insert flex, 1gang, 64814 U. For series relay insert flex, 2gang, 64821 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Mounting height: 31 mm.
Protection class (Device): IP 20

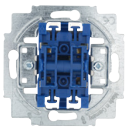
Key Switch Insert [1] [2] [3] breaking circuit, 1-pole



For profile semi-cylindrical lock.
In switched-on and switched-off status the key can be pulled out in the central position, respectively.
Delivered without cylindrical lock.
Rated voltage: 250 V~. Rated current: 10 AX
Suitable for: LEDi / CFLi. Rated power: 100 W
Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1

Colour	Type	Order code	Pack/Qty.
	2733 USL-101	2CKA001101A0914	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		
delivery form:	Adapter plate APBS to be ordered separate.		

[1] For installation on British Standard wallboxes please use adapter plate APBS (6599-0-2813). (Depth of box 60 mm.)
[2] Use the cylindrical lock according to the enclosed drawing.
[3] See profile semi-cylindrical lock.

Blind switch insert [1] [2] SP, switch

With interlock.
Rated voltage: 250 V~
Rated current: 10 AX
Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1

Busch-art linear®

Blind control / timers

Blind compact timer

Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Without extension unit input. Running time: 3 min. N-busbar connection is required. For manual and time-controlled switching of blinds and roller blinds. Memory function for the simple storage of switching times. The controlled devices can be manually operated at any time. Simple setting via display with with segment display and background illumination. Factory pre-set switching times, individual adaptations are possible. 2 switching times per day can be freely adjusted for each day of the week. Automatic switchover from summer time to winter time (switch-off function). Switching times and programs are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/ automatic/vacation modes. See the associated cover plates 6435-xx. Programming possible only with control element attached and energized. Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz
Outputs: 2x Normally open contact
Rated current: 3 A, cos ϕ 0.5. Rated power: 690 VA
Temperature range (Device): 0 °C to 45 °C

Colour	Type	Order code	Pack/Qty.
	6422 U-500	2CKA006410A0410	1/10

Busch-Short-time timer insert [1]) countdown timer

For time-programmed switching of electrical consumers.
With control cover, without cover plate.
Minimum timer time: 1 second.
Maximum timer time: 9:59:59 hours.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Outputs: 1x Normally open contact
Rated current: 10 A, cos ϕ 1

Busch-art linear®

Cover plate

Data-connection box, RJ 45, cat. 6a iso, shielded [1] 1gang

With down-leading outlet and LSA self-cutting clamps.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Up to 500 MHz on all pairs of wires.
Suitable for 10-Gigabit Ethernet.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Flex cable entries from all sides without buckles.
Earthing of housing via 6,3 mm blade terminal at the back possible.
Re-embedded proofed.
Suitable for Mix-and-Match operation.
Suitable for RJ 11, RJ 12 und RJ 45.
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Without claws.
Mounting depth: 31 mm.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0218/11-101	2CKA000230A0409	1/10

For 2 modular jack inserts.
For systems: CommScope (AVAYA / AT&T / Lucent Technologies), GigaSPEED, PowerSUM, 360 GS 10E bis MGS 600-BK, M1 BH-xx, MPS 100E-xx.
With R&M adapter R310694 suitable for R&M connection modules R305111, R305112, R305113 and R305114.
Pitch dimensions: (WxH) approx. 16.9 x 17.9 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
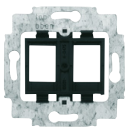
	1810-500	2CKA001753A9974	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

Mounting plate [1] [2] with red insert



For 2 modular jack inserts.
Suitable for Art. Nos. 0210, 0211 and 0219-101.
For systems: AMP / tyco Electronics, BTR, EFB, Krone, Panduit, Quante, Radiall, Setec, Dr.-Ing. Sieger, Telena, Thomas & Betts
For Telegärtner AMJ/UMJ connection modules/ couplings.
For 2 fiber optic modules of the following types: 3M-Volition, Krone, mvk.
Pitch dimensions: (WxH) approx. 14.8 x 19.4 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
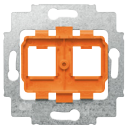
	1812-500	2CKA001753A9972	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

Mounting plate [1] [2] with black insert



For MTRJ or 2 modular jack inserts.
For systems: Ackermann, AMP / tyco Electronics (Slim Line (SL) -SM 2gang/switches: 110Connect Jacks, Toolless Jacks / Standard 110Connect Jacks), Brand-Rex, CombiNet, EFB Electronic, Telena.
For 2 fiber optic modules of the following types: AMP / tyco Electronics MTRJ.
Pitch dimensions: (WxH) approx. 14.8 x 20.4 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
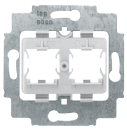
	1814-500	2CKA001753A9973	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

Mounting plate [1] [2] with orange base



For 2 modular jack inserts.
For system: LexCom 150 and LexCom 250.
Pitch dimensions: (WxH) approx. 15.4 x 15.4 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
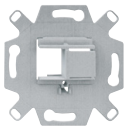
	1819	2CKA001753A8056	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

Mounting plate [1] [2] with grey base



For 2 modular jack inserts.
For system: Panduit MiniCom (Cu. z.B. TX6 10 Gig Shielded Jack modules and fiber optic modules.
Pitch dimensions: (WxH) approx. 15.9 x 18.7 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	1820	2CKA001753A8057	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.

Flush-mounted assembly adapter

For the accommodation of one or two universal modules 0219.
For flush-mounted installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/12	2CKA000230A0395	1/10

Channel assembly adapter

For the accommodation of one or two universal modules 0219.
For channel and under-floor installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/13	2CKA000230A0396	1/10

Busch-art linear®

Cover plate

Universal module, RJ 45, cat. 6a iso, shielded [1]) 1gang

For installation in installation adapter 0219/12 or 0219/13.
Also suited for mounting into cover plate 2561-xxx, 2564-02-xxx and bases 1812, 1866 EB, and 1867 EB.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Cat. 6A according to ISO/IEC 11801: 2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Bend-radius optimised cable feed (30°).
Earthing of housing via 6,3 mm blade terminal at the back possible.
Re-embedded proofed.
Suitable for Mix-and-Match operation.
For 8-pole plug RJ 45 only.
Housing made from diecast zinc.
With integrated dust-protection cap (can be removed if necessary).
With insulation displacement connection
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219-101	2CKA000230A0413	1/10

[1]) With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

Modular-Jack insert 6-pole Cat. 3 (AMP-No. 216000-2)

For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in.
For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0210	2CKA000225A0078	10

Modular-Jack insert 8-pole Cat. 3 (AMP-No. 216005-4)

For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in.
For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0211	2CKA000225A0086	10

Socket insert Safety Shutter Earthing Pin

With screwless terminals. Shuttered. Suitable for the countries like Poland, Czech Republic. DP (2 P + E).

Busch-Radio DAB+ [1])

DAB+ and RDS stereo radio alarm clock for flush-mounted installation.
With high-resolution colour display for showing additional information.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With individual alarm and snooze function.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Control/Signal outputs: 2, Loudspeaker output, impedance 4 Ohm
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	8215 U-101-500	2CKA008200A0276	1/10

[1]) No claw. Screw-fixing via keyholes.

Busch-art linear®

Cover plate

USB power adapter insert, flush-mounted [1] [2] with USB-A & USB-C interface

For supply and support of mobile devices via USB-cable.
With USB type A and USB type C female connector.
To support two devices at the same time.
Supports automatic negotiating of optimum charging parameters for the shortest charging times.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the additional quick-charge protocols: USB-PD and quick-charge 3.0 & 4.0.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Outputs: 2x USB charging interface
Suitable for: Only USB-A bus occupied:
Rated current: 3000 mA
Output voltage: 5 V-
Suitable for: Only USB-C bus occupied:
Rated power: 18 W
Suitable for: USB-A and USB-C bus occupied. Total:
Rated current: 3250 mA
Output voltage: 5 V-
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 43 mm
Mounting depth: 32 mm

[1] No claw. Screw-fixing via keyholes.
[2] No data transfer.

65 W power adapter insert, flush-mounted [1] [2] with USB-C interface

For power and charge of mobile devices via USB-C cable.
With USB type C female connector.
Supports high power and automatic negotiating of optimum charging parameters for the shortest charging times.
Support of charging protocols: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the Qualcomm quick charge protocols: QC 2.0, 3.0, 4.0 and 5.
Support of USB PD (power delivery): 3.1 incl. PPS (programmable power supply).
Support of manufacturer specific protocolls: Samsung AFC and Huawei FCP (with 20 W).
With electronic short-circuit protection.
With electronic overload protection.
Fitting cover plate: 6479-...-500.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Power loss: < 75 mW
Outputs: 1x USB-C charging interface
Rated power: 65 W
Output voltage: 5 V, 9 V, 12 V, 15 V, 20.0 V DC
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 44 mm
Mounting depth: 32 mm

[1] No claw. Screw-fixing via keyholes.
[2] No data transfer.

HDMI connection unit [1] with screw-type terminals and strain relief

Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link high-definition digital audio and video data from e.g. SAT-receiver, DVD-/Blue-Ray-player to plasma-type, LCD- or-LED-TVs/screens.
HDMI-type A, 3D-compatible.
Fully HD ready (1920 x 1080 pixel).
For 20-wire HDMI-cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems.
For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended.
Without cover plate.
Without claws.
Protection class (Device): IP 20
Mounting depth: 34 mm

Notes

carat®
Everyday indulgence.

Extraordinary and distinct design, of the highest quality. Each piece becomes a unique object of any interior. It attracts attention and that is the point. Solid frames made from bronze, polished steel or glossy glass, show immediately their real value and an exquisite owner's taste. The aesthetics, together with innovative functions make every day luxurious.

01 black matt / porcelain anthracite
02 ivory white / bronze
03 studio white / glass black
04 anthracite / stainless steel
05 studio white / chrome
06 ivory white / gold
07 studio white / white glass

Materials
UV-resistant, free of PVC and halogen.
Frame: genuine materials.

Friends of Hue smart switch complete set. Wall transmitter, 2/4 channels.

Consitsting of Friends of Hue smart switch insert 6716 U-500. Comprising 2gang rocker 6736 FoH-8xx for Friends of Hue smart switch. Consisting of 1gang future® linear cover frames. Comprising fixing plate and intermediate ring. Smarter light switches for wireless remote control of Philips Hue lamps For switching and dimming of Philips Hue lamps. For saving, calling up and dimming of a maximum of 2 individual light scenes. Without battery and maintenance-free due to >Energy harvesting<. Can be mounted freely in the room with the enclosed adhesive tape and fixing plate. Requires Philips Hue Bridge (2nd generation square construction type) and Philips Hue app (Version 3.2 or higher). Maximum safety of function by means of Zigbee-Mesh technology. Combinable with the Busch-Jaeger switch ranges: carat®,carat® flat, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent®, Busch-axcent® pur and future® linear. Can be mounted freely in the room with the enclosed adhesive tape and fixing plate. Including fixing plate for mounting on smooth walls or on switch boxes.

carat®

Rocker switches / push switches

Bluetooth Low Energy (BLE) smart switch complete set. Wall transmitter, 2/4 channels.

Consisting of BLE smart switch insert 6716 UBT, 2gang rocker 6736 FoH-8xx for smart switches, 1gang future® linear cover frame, fixing plate and intermediate ring.
Smarter light switch for wireless remote control of BLE radio devices. Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.
- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

Dimmers

Busch-rotary dimmer [1]) [2]) [3]) [4]) [5]) [6]) [7]) [8]) [9])
Flush-mounted, LED, 2-100 W

With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
Via mode switch adjustable between leading edge control and trailing edge control.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 250 W/VA (non-LED loads).
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

[4] Making-current limiters have to be provided in case of too high making currents.

Busch-rotary dimmer [1]
Flush-mounted, DALI, tunable white

For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116 U	2CKA006599A3025	1

ABB flexTronics inserts

Relay insert flex, 1gang [1])

3 wire connection (neutral conductor required).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... .
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz. Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical. Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps. Rated power: 2300 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 2300 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64811 U-500	2CKA006800A3042	1/10

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Relay insert flex, 2gang [1])

3 wire connection (neutral conductor required).
For switching lighting systems.
For switching two independent load circuits.
For controlling light and ventilation systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... . For Busch-Watchdog 180 flex sensors 6476x-...
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz. Inputs: 2
Outputs: 2x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps. Rated power: 1840 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 1150 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64821 U-500	2CKA006800A3045	1

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

e-contact insert flex, 1gang [1]) [2])

2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 3 - 240 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 10 - 240 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 3 - 240 VA
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64814 U-500	2CKA006800A3048	1

[1]) Use only dimmable high-voltage LEDs.
[2]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

ABB flexTronics inserts

LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6]
FM, LED, 3-240 VA

2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
Touch dimmer for switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum brightness.
With light-level memory and minimum brightness memory.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without control cover.
For control element flex, 1gang, 64711.
For control element flex, 2gang, 64721.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Rated power: 3-240 VA (LEDi)
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x dimming channel
Suitable for: 230 V LEDi, typical (leading edge control)
Rated power: 3 - 100 VA
Suitable for:230 V LEDi, typical (trailing edge control)
Rated power: 3 - 240 W
Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer.
Rated power: 10 - 240 VA
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

ABB flexTronics comfort switch sensor

Extension insert flex [1]

3 wire connection (neutral conductor required).
For the extension of the Busch-Comfort switch or presence detector installations. For group control of flex inserts via extension unit communication.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with all flex inserts.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz. Control/Signal outputs: 1, electronic output, potential-bound. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64891 U-500	2CKA006800A3051	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Comfort switch flex sensor [1] [2]

Movement detector push-button switch combination. For switching lighting systems that depend on brightness and movement. With select lens, prevents detection of smaller animal. Push switch function possible at all times. With notice LED when manual operation is necessary. Extension of the detection range by main unit/extension unit combination. Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Additional activation/deactivation option via push-button input on the flush-mounted insert.
Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off.
Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off. Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off. With continuous light/continuous Off function. Adjusting elements on rear side. Surveillance density: 9 sectors with 28 switching segments. Switch off delay: 1 to 10 min., adjustable. Compatible with all ABB flexTronics inserts. For relay insert flex, 1gang, 64811 U-500. For relay insert flex, 2gang, 64821 U-500. For e-contact insert flex, 1gang, 64814 U-500. For LED touch dimmer insert flex, 1gang, 64851 U-500. For extension insert flex, 64891 U-500.
Display elements: LED for status display.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 5 m, lateral: 3 m, at mounting height: 1.1 m. Detection angle: 170°.
Brightness limit value: 5 Lux - daytime operation
Operation mounting height: 0.8 m - 1.2 m
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 63 mm x 63 mm x 28 mm
Above the wall: 21 mm.

carat®

ABB flexTronics movement detector sensors

Busch-Watchdog 180 flex, basic sensor [1] [2] with select-lens

Movement detector sensor with with measurement of ambient light.
For automatic switching of devices dependent on motion and brightness.
Compatible with all free@home flex inserts.
Adjusting elements on rear side.
Extension of the detection range by means of master/slave combination. Additional activation/deactivation option via push-button input on the flush-mounted insert. With detection display in test mode.
Surveillance density: 14 sectors with 56 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable.
For relay insert flex, 1gang, 64811 U.
For e-contact insert flex, 1gang, 64814 U.
For series relay insert flex, 2gang, 64821 U.
For LED touch dimmer insert flex, 1gang, 64851 U.
For extension insert flex, 64891 U.
Mounting height: 22 mm.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 12 m, lateral: 12 m, Mounting height: 1.1 m
Detection angle: 180 °
Brightness limit value: 5 Lux - 500 Lux Up to daytime operation
Mounting height: 0.8 m - 1.2 m

Blind compact timer

Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off.
Without extension unit input.
Running time: 3 min. N-busbar connection is required.
For manual and time-controlled switching of blinds and roller blinds. Memory function for the simple storage of switching times. The controlled devices can be manually operated at any time. Simple setting via display with with segment display and background illumination.
Factory pre-set switching times, individual adaptations are possible. 2 switching times per day can be freely adjusted for each day of the week.
Automatic switchover from summer time to winter time (switch-off function). Switching times and programs are safely stored in the event of a mains power failure.
Power reserve for time and date > 10 years.
Simple toggling between manual/automatic/vacation modes. See the associated cover plates 6435-xx.
Programming possible only with control element attached and energized. Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz
Outputs: 2x Normally open contact
Rated current: 3 A, cos ϕ 0.5. Rated power: 690 VA
Temperature range (Device): 0 °C to 45 °C

neon indicator:	not applicable		

[1]) Suitable for cover plate 1803-02-xxx.

Data-connection box, RJ 45, cat. 6a iso, shielded [1]) 1gang

With down-leading outlet and LSA self-cutting clamps.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Up to 500 MHz on all pairs of wires.
Suitable for 10-Gigabit Ethernet.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Flex cable entries from all sides without buckles.
Earthing of housing via 6,3 mm blade terminal at the back possible.
Re-embedded proofed.
Suitable for Mix-and-Match operation.
Suitable for RJ 11, RJ 12 und RJ 45.
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Without claws.
Mounting depth: 31 mm.
Protection class (Device): IP 20

Flush-mounted assembly adapter

For the accommodation of one or two universal modules 0219.
For flush-mounted installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/12	2CKA000230A0395	1/10

Channel assembly adapter

For the accommodation of one or two universal modules 0219.
For channel and under-floor installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/13	2CKA000230A0396	1/10

Universal module, RJ 45, cat. 6a iso, shielded [1] 1gang

For installation in installation adapter 0219/12 or 0219/13.
Also suited for mounting into cover plate 2561-xxx, 2564-02-xxx and bases 1812, 1866 EB, and 1867 EB.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Cat. 6A according to ISO/IEC 11801: 2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Bend-radius optimised cable feed (30°).
Earthing of housing via 6,3 mm blade terminal at the back possible.
Re-embedded proofed.
Suitable for Mix-and-Match operation.
For 8-pole plug RJ 45 only.
Housing made from diecast zinc.
With integrated dust-protection cap (can be removed if necessary).
With insulation displacement connection
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219-101	2CKA000230A0413	1/10

Multimedia / communication adapters

Busch-Radio DAB+ [1])

DAB+ and RDS stereo radio alarm clock for flush-mounted installation.
With high-resolution colour display for showing additional information.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With individual alarm and snooze function.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Control/Signal outputs: 2, Loudspeaker output, impedance 4 Ohm
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.

DIN A 4 labelling sheet [1] plastic foil

Suitable for all to be labeled Busch-Jaeger devices.
For laser printer.
The text of the foil is printed via the Busch-Jeager labeling service.
Dimensions: (L x W x D): 297 mm

Colour	Type	Order code	Pack/Qty.
translucent	**1799/02**	2CKA001799A0959	1
transparent	**1799/03**	2CKA001799A0960	1

[1] 1 piece = 1 sheet.

RC suppressor

For protection against the damage or destruction of electronic devices due to overvoltages.
For wiring network-interconnected inductivities (e.g.. relay, protection, fluorescent lamps, transformers, etc.).
Eliminates functional disturbances on electronic devices, e.g. automatic circuit reclosure (clocking) of a movement detector.
Dimensions: diameter 25 mm, length 35 mm, length of the connecting cable approx. 100 mm.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz

Colour	Type	Order code	Pack/Qty.
	6899	2CKA006899A0231	10

Mounting set carat® flat [1] [2]

For flat flush-mounted installation, stonework
Suitable for cover frame carat®.
Set consists of a flush-mounted box for brickwork 3040.
With plastering moulding tool and positioning device.
With integrated RFID-chip for easy detection.
With vertically adjustable rotary ring.
With Torx/slotted screws.
With variable basement depth.
Mounting boxes are combinable directly.
With flex knockouts for cables or pipes.
The boxes need to be plastered.
Hole size : 82 mm
Protection class (Device): IP 20

Friends of Hue smart switch insert Wall-mounted transmitter, 2 / 4 channel

For smart switch rockers 6735 BT-8xx and 6736 FoH-8xx. Smarter light switches for wireless remote control of Philips Hue lamps. For switching and dimming of Philips Hue lamps. For saving, calling up and dimming of a maximum of 2 individual light scenes. Without battery and maintenance-free due to >Energy harvesting<. Requires Philips Hue Bridge (2nd generation square construction type) and Philips Hue app (Version 3.2 or higher). Maximum safety of function by means of Zigbee-Mesh technology. Combinable with the Busch-Jaeger switch ranges: carat®,carat® flat, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent®, Busch-axcent® pur and future® linear. Can be mounted freely in the room with the enclosed adhesive tape and fixing plate. Including fixing plate for mounting on smooth walls or on switch boxes.

	6716 U-500	2CKA006710A0014	1

Busch-dynasty®

Rocker switches / push switches

Bluetooth Low Energy (BLE) smart switch insert. Wall transmitter, 2 / 4 channel

For smart switch rockers 6735 BT-8xx and 6736 FoH-8xx.
- Smart switch for wireless remote control of radio components.
- Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.
- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Depending on the ecosystem, the wireless range is automatically extended via mains-powered BT mesh devices (repeater function).
- Encrypted transmission with AES-128 (CBC mode) and sequence counter.
- Contains NFC configuration interface according to NFC Forum Type 2 Tag (ISO/IEC 14443 Part 2 + 3).
- Therefore particularly simple commissioning of BLE radio components from Casambi.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

Colour	Type	Order code	Pack/Qty.
BT smart switch insert (SF)	**6716 UBT**	2CKA006710A0015	1

Smart Switch, WL NEW

Smarter light-/blind switch for wireless control of Busch-flexTronics® wireless and Busch-free@home® devices.
Wall-mounted transmitter, 2/4 channels.
Operation in ABB-flexTronics® wireless with up to 32 devices (room control).
Integration in ABB-free@home® wireless with System Access Point up to 150 devices.
At least one ABB-flexTronics® wireless device or an ABB-free@home® wireless device which serves as proxy device is required.
Programming with the ABB-free@home® Next App.
Smartphone with NFC required.
Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generat-ed when switching (energy harvesting).
Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.
Including fixing plate for mounting on smooth walls or on switch boxes.
Combinable with the Busch-Jaeger switch ranges carat®,
Busch-dynasty®, pure stainless steel, solo®, Busch-axcent®
and future® linear.

Busch-dynasty®
Dimmers

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9] Flush-mounted, LED, 2-100 W

With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
Via mode switch adjustable between leading edge control and trailing edge control.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 250 W/VA (non-LED loads).
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	6523 U-102-500	2CKA006512A0335	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Busch-rotary dimmer [1] [2] [3] [4] flush mounted, 1-10V

With rotary control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control gears
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 700 W/VA

	2112 U-101-500	2CKA006599A2873	1/10

[1] Non-illuminable.
[2] Use cover plates 2115 J-.../2115-.../6540-... .
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Making-current limiters have to be provided in case of too high making currents.

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9] UP, LED, 2-400 W

Very small installation depth: < 20 mm.
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (leading edge control) Nominal power: 2 - 400 W/VA (trailing edge control)

Colour	Type	Order code	Pack/Qty.
	6523 UR-104-500	2CKA006512A0354	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Busch-rotary dimmer [1] Flush-mounted, DALI, tunable white

For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA. Not suitable for combining with other DALI sensors or central units of other manufacturers. For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate. Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116 U	2CKA006599A3025	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-dynasty®
Dimmers

Busch-rotary dimmer [1]) Flush-mounted, DALI, with internal power supply, tunable white

For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K. With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=. Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units: 37 in case of one active power-potentiometer in case of three active power-potentiometer in parallel connection: 111. Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices. Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116/11 U	2CKA006599A3026	1

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-rotary dimmer [1]) flush mounted, DALI

For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
An additional DALI power supply is needed, e.g. by Tridonic, Philips, Helvar or 2117/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.

Busch-dynasty®
Dimmers

LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6]
FM, LED, 3-240 VA

2-wire connection (neutral conductor not required). Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Touch dimmer for switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum brightness. With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Rated power: 3-240 VA (LEDi). Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Inputs: 1. Outputs: 1x dimming channel. Suitable for: 230 V LEDi, typical (leading edge control). Rated power: 3 - 100 VA. Suitable for: 230 V LEDi, typical (trailing edge control). Rated power: 3 - 240 W. Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA.Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.

Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Buscah-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Control element, 1 gang flex

Tapping control element, 1gang. Compatible with all free@home flex inserts. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.

Colour	Type	Order code	Pack/Qty.
	64711-500	2CKA006400A0099	1

Control element, 1 gang, flex wireless

Tapping control element, 1gang. For the manual and automatic control of roller blinds, blinds, awnings, lighting and electric loads. Compatible with all free@ home flex inserts. Remote operation via the Bluetooth and smartphone/tablet app. Programming via Bluetooth with the ABB-free@home® app or via the web interface of the System Access Point. Timer with Astro function. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.

ABB flexTronics inserts

Relay insert flex, 1gang [1)]

3 wire connection (neutral conductor required).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... . For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz
Inputs: 1. Outputs: 1x Normally open contact, potential-bound. Suitable for: 230 V- LEDi, typical. Rated power: 300 VA. Suitable for: 230 V incandescent lamps/230 V halogen lamps. Rated power: 2300 W
Suitable for: Low voltage halogen lamps that are operated via transformers. Rated power: 2300 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64811 U-500	2CKA006800A3042	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Relay insert flex, 2gang [1)]

3 wire connection (neutral conductor required).
For switching lighting systems. For switching two independent load circuits. For controlling light and ventilation systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Comfort switch flex control element 64765-... . For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U. Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Inputs: 2
Outputs: 2x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical. Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps.
Rated power: 1840 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 1150 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Busch-dynasty®

ABB flexTronics comfort switch sensor

Extension insert flex [1]

3 wire connection (neutral conductor required).
For the extension of the Busch-Comfort switch or presence detector installations. For group control of flex inserts via extension unit communication. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with all flex inserts.
Rated voltage: 230 V~, +10 % / -10 %, Rated frequency: 50 Hz
Control/Signal outputs: 1, electronic output, potential-bound
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64891 U-500	2CKA006800A3051	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Comfort switch flex sensor [1] [2]

Movement detector push-button switch combination. For switching lighting systems that depend on brightness and movement. With select lens, prevents detection of smaller animal. Push switch function possible at all times. With notice LED when manual operation is necessary. Extension of the detection range by main unit/extension unit combination. Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Additional activation/deactivation option via push-button input on the flush-mounted insert.
Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off.
Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off. Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off. With continuous light/continuous Off function. Adjusting elements on rear side. Surveillance density: 9 sectors with 28 switching segments. Switch off delay: 1 to 10 min., adjustable. Compatible with all ABB flexTronics inserts. For relay insert flex, 1gang, 64811 U-500
For relay insert flex, 2gang, 64821 U-500.
For e-contact insert flex, 1gang, 64814 U-500.
For LED touch dimmer insert flex, 1gang, 64851 U-500.
For extension insert flex, 64891 U-500.
Display elements: LED for status display.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 5 m, lateral: 3 m, at mounting height: 1.1 m. Detection angle: 170°. Brightness limit value: 5 Lux - daytime operation. Operation mounting height: 0.8 m - 1.2 m. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 63 mm x 63 mm x 28 mm
Above the wall: 21 mm.

ABB flexTronics movement detector sensors

Busch-Watchdog 180 flex, basic sensor [1] [2] with select-lens

Movement detector sensor with with measurement of ambient light. For automatic switching of devices dependent on motion and brightness.
Compatible with all free@home flex inserts.
Adjusting elements on rear side. Extension of the detection range by means of master/slave combination.
Additional activation/deactivation option via push-button input on the flush-mounted insert. With detection display in test mode. Surveillance density: 14 sectors with 56 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. For relay insert flex, 1gang, 64811 U.
For e-contact insert flex, 1gang, 64814 U.
For series relay insert flex, 2gang, 64821 U.
For LED touch dimmer insert flex, 1gang, 64851 U.
For extension insert flex, 64891 U. Mounting height: 22 mm.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 12 m, lateral: 12 m, Mounting height: 1.1 m. Detection angle: 180 °
Brightness limit value: 5 Lux - 500 Lux Up to daytime operation. Mounting height: 0.8 m - 1.2 m
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 63 mm x 63 mm x 35 mm

Busch-dynasty®

ABB flexTronics movement detector sensors

Busch-Watchdog 180 flex, comfort sensor wireless [1] [2] with select-lens

Movement detector sensor with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Push switch function possible at all times. ./. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With time-controlled basic illumination function. With time-controlled night anti-glare function. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flex inserts. Works with free@home. Remote operation via the Bluetooth and smartphone/tablet app. Programming via Bluetooth with the ABB-free@home® app or via the web interface of the System Access Point. Extension of the detection range by means of master/slave combination. Timer with Astro function. Automatic switchover from summer time to winter time (switch-off function). With continuous light/continuous Off function. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode. Surveillance density: 14 sectors with 56 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. For relay insert flex, 1gang, 64811 U. For e-contact insert flex, 1gang, 64814 U. For series relay insert flex, 2gang, 64821 U. For LED touch dimmer insert flex, 1gang, 64851 U.

Busch-Watchdog 180 flex, comfort sensor [1] [2] with multi-lens

Movement detector sensor with with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Push switch function possible at all times. For detection down to the floor. For detection in stairwells. With 4 detection levels. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flex inserts. Adjusting elements on rear side. Multi-lens: suitable also for mounting heights of 2.20 m. Extension of the detection range by means of master/slave combination. Additional activation/deactivation option via push-button input on the flush-mounted insert. With continuous light/continuous Off function. With detection display in test mode. Surveillance density: 54 sectors with 224 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. For relay insert flex, 1gang, 64811 U. For e-contact insert flex, 1gang, 64814 U. For series relay insert flex, 2gang, 64821 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Mounting height: 31 mm. Control element: 2 controllers for setting the brightness switching threshold and switch-off delay. Detection range: frontal: 8 m, lateral: 7 m, Mounting height: 1.1 m. Detection range 2: frontal: 8 m, lateral: 8 m, Mounting height: 2.2 m Detection angle: 180 °. Brightness limit value: 5 Lux - 500 Lux Up to daytime operation. Mounting height: 0.8 m - 1.2 m alternative: 2.2 m. Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 45 mm

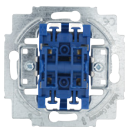
Blind control / timers

Key Switch Insert [1] [2] [3] breaking circuit, 1-pole

For profile semi-cylindrical lock.
In switched-on and switched-off status the key can be pulled out in the central position, respectively.
Delivered without cylindrical lock.
Rated voltage: 250 V~. Rated current: 10 AX
Suitable for: LEDi / CFLi. Rated power: 100 W
Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1



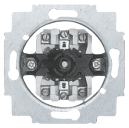
Colour	Type	Order code	Pack/Qty.
	2733 USL-101	2CKA001101A0914	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		
delivery form:	Adapter plate APBS to be ordered separate.		

[1] For installation on British Standard wallboxes please use adapter plate APBS (6599-0-2813). (Depth of box 60 mm.)
[2] Use the cylindrical lock according to the enclosed drawing.
[3] See profile semi-cylindrical lock.

Busch-dynasty®

Blind control / timers

Blind switch insert [1] [2] SP, switch



With interlock.
Rated voltage: 250 V~
Rated current: 10 AX
Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1

Busch-dynasty®

Blind control / timers

Blind compact timer

Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Without extension unit input. Running time: 3 min. N-busbar connection is required. For manual and time-controlled switching of blinds and roller blinds. Memory function for the simple storage of switching times. The controlled devices can be manually operated at any time. Simple setting via display with with segment display and background illumination. Factory pre-set switching times, individual adaptations are possible. 2 switching times per day can be freely adjusted for each day of the week. Automatic switchover from summer time to winter time (switch-off function). Switching times and programs are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. See the associated cover plates 6435-xx. Programming possible only with control element attached and energized. Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5. Rated power: 690 VA Temperature range (Device): 0 °C to 45 °C

[2] Connecting terminals approved in accordance with VDE 0620-1 as connectors.
[3] No data transfer.

Busch-dynasty®

Blind control / timers

USB socket outlet earthing pin, 2gang [1] [2] [3] shuttered

For connecting electric loads.
DP (2 P + E)
With screwless terminals.
For supply and support of mobile devices via USB-cable.
With 1x USB type A and 1x USB type C outputs.
Simultaneous charging via USB connection and use of the pin earth socket outlet.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of loading protocol on the USB-C connection: USB-PD till 3 A, Apple MFI till 2.4 A and BC 1.2 with 1.5 A.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 230 V AC
Rated frequency: 50 Hz / 60 Hz
Power dissipation: < 75 mW
Rated current: 16 A
Outputs: 2x USB charging interface
Output voltage: 5 V DC
Rated power: 15 W
Suitable for: In case one output is used:
USB-A port: Max. current 2.4 A.
USB-C port: Max. current 3 A*
*3 A requires approved charging cables.
Protection class (Device): IP 20, SELV
Temperature range (Device): 5 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 58 mm
Mounting depth: 39.5 mm

Blind insert, 1 gang, 2 way flex

3 wire connection (neutral conductor required). For the control of roller shutters, blind and awning motors with mechanical or electronic limit switch shut-off. Group formation via extension input possible. Operation also via conventional push buttons (2020 US non-illuminated/2021/6 UK) possible. Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL.

Colour	Type	Order code	Pack/Qty.
	64831 U-500	2CKA006400A0096	1

Extension insert flex

3 wire connection (neutral conductor required). For the extension of the Busch-Comfort switch or presence detector installations. For group control of flex inserts via extension unit communication. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with all flex inserts.

Colour	Type	Order code	Pack/Qty.
	64891 U-500	2CKA006800A3051	1

Control element, 1 gang flex

Tapping control element, 1gang. Compatible with all free@home flex inserts. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.

Colour	Type	Order code	Pack/Qty.
	64711-500	2CKA006400A0099	1

Control element, 1 gang, flex wireless

Tapping control element, 1gang. For the manual and automatic control of roller blinds, blinds, awnings, lighting and electric loads. Compatible with all free@home flex inserts. Remote operation via the Bluetooth and smartphone/tablet app. Programming via Bluetooth with the ABB-free@home® app or via the web interface of the System Access Point. Timer with Astro function. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.

Busch-dynasty®
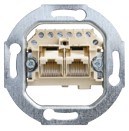
Data communication

Universal data connection unit, cat. 3 [1]) 1gang



With down-leading outlet.
For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3.
Design according to IEC 60 603-7-2:2007.
Screw contacts
With claw.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
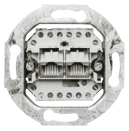
	0213-500	2CKA000230A1549	10/100

[1]) Suitable for cover plate 1803-xxx.

Universal data connection box with down-leading outlet [1]) 2gang internally parallel connected



With down-leading outlet.
For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3.
Design according to IEC 60 603-7-2:2007.
Screw contacts
With claw.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0214	2CKA000230A0235	10/100
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		

[1]) Suitable for cover plate 1803-02-xxx.

Universal data connection box with down-leading outlet [1]) 2 x outlets, 8/8-pole

With down-leading outlet.
For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3.
Design according to IEC 60 603-7-2:2007.
Screw contacts
With claw.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0215	2CKA000230A0243	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		

[1]) Suitable for cover plate 1803-02-xxx.

Data-connection box, RJ 45, cat. 6a iso, shielded [1]) 1gang

With down-leading outlet and LSA self-cutting clamps.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Up to 500 MHz on all pairs of wires.
Suitable for 10-Gigabit Ethernet.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Flex cable entries from all sides without buckles.
Earthing of housing via 6,3 mm blade terminal at the back possible.
Re-embedded proofed.
Suitable for Mix-and-Match operation.
Suitable for RJ 11, RJ 12 und RJ 45.
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Without claws.
Mounting depth: 31 mm.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0218/11-101	2CKA000230A0409	1/10

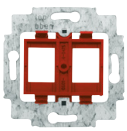
Mounting plate [1]) [2]) with green insert



For 2 modular jack inserts.
For systems: CommScope (AVAYA / AT&T / Lucent Technologies), GigaSPEED, PowerSUM, 360 GS 10E bis MGS 600-BK, M1 BH-xx, MPS 100E-xx.
With R&M adapter R310694 suitable for R&M connection modules R305111, R305112, R305113 and R305114.
Pitch dimensions: (WxH) approx. 16.9 x 17.9 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	1810-500	2CKA001753A9974	10/100

[1]) Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2]) For further information, please refer on the Internet.

Mounting plate [1]) [2]) with red insert

For 2 modular jack inserts.
Suitable for Art. Nos. 0210, 0211 and 0219-101.
For systems: AMP / tyco Electronics, BTR, EFB, Krone, Panduit, Quante, Radiall, Setec, Dr.-Ing. Sieger, Telena, Thomas & Betts
For Telegärtner AMJ/UMJ connection modules/ couplings.
For 2 fiber optic modules of the following types: 3M-Volition, Krone, mvk.
Pitch dimensions: (WxH) approx. 14.8 x 19.4 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	1812-500	2CKA001753A9972	10/100

Flush-mounted assembly adapter

For the accommodation of one or two universal modules 0219.
For flush-mounted installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/12	2CKA000230A0395	1/10

Channel assembly adapter

For the accommodation of one or two universal modules 0219.
For channel and under-floor installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/13	2CKA000230A0396	1/10

Universal module, RJ 45, cat. 6a iso, shielded [1] 1gang

For installation in installation adapter 0219/12 or 0219/13.
Also suited for mounting into cover plate 2561-xxx, 2564-02-xxx and bases 1812, 1866 EB, and 1867 EB.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Cat. 6A according to ISO/IEC 11801: 2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Bend-radius optimised cable feed (30°).
Earthing of housing via 6,3 mm blade terminal at the back possible.
Re-embedded proofed.
Suitable for Mix-and-Match operation.
For 8-pole plug RJ 45 only.
Housing made from diecast zinc.
With integrated dust-protection cap (can be removed if necessary).
With insulation displacement connection
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219-101	2CKA000230A0413	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

Busch-dynasty®

Multimedia / communication adapters

Busch-Radio DAB+ [1])

DAB+ and RDS stereo radio alarm clock for flush-mounted installation. With high-resolution colour display for showing additional information.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation. 8 radio stations storable.
With time and date display. With individual alarm and snooze function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Control/Signal outputs: 2, Loudspeaker output, impedance 4 Ohm
Rated power: 2 W (RMS)

Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	8215 U-101-500	2CKA008200A0276	1/10

[1]) No claw. Screw-fixing via keyholes.

Busch-Radio BTconnect DAB+ [1])
with Bluetooth interface for music replay.

DAB+ and RDS stereo radio alarm clock for flush-mounted installation. With high-resolution colour display for showing additional information. With Bluetooth interface for music replay of mobile devices.
Connection of external Bluetooth loudspeakers possible.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation. 8 radio stations storable.
With time and date display. With individual alarm and snooze function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Bluetooth specification: 4.2.
Bluetooth profiles supported: A2DP
Number of stored Bluetooth connections: max. 8
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 2 W (RMS)

Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Bluetooth

Colour	Type	Order code	Pack/Qty.

USB power adapter insert, flush-mounted [1]) [2])
With USB-A & USB-C interface

For supply and support of mobile devices via USB-cable.
With USB type A and USB type C female connector.
To support two devices at the same time.
Supports automatic negotiating of optimum charging parameters for the shortest charging times.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the additional quick-charge protocols: USB-PD and quick-charge 3.0 & 4.0.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Outputs: 2x USB charging interface
Suitable for: Only USB-A bus occupied:
Rated current: 3000 mA
Output voltage: 5 V-
Suitable for: Only USB-C bus occupied:
Rated power: 18 W

Suitable for: USB-A and USB-C bus occupied. Total:
Rated current: 3250 mA
Output voltage: 5 V-
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 43 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	6475 U-500	2CKA006400A0399	1

[1]) No claw. Screw-fixing via keyholes.
[2]) No data transfer.

Busch-dynasty®

Multimedia / communication adapters

65 W power adapter insert, flush-mounted [1] [2] with USB-C interface

NEW

For power and charge of mobile devices via USB-C cable.
With USB type C female connector. Supports high power and automatic negotiating of optimum charging parameters for the shortest charging times.
Support of charging protocols: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the Qualcomm quick charge protocols: QC 2.0, 3.0, 4.0 and 5.
Support of USB PD (power delivery): 3.1 incl. PPS (programmable power supply).
Support of manufacturer specific protocolls: Samsung AFC and Huawei FCP (with 20 W).
With electronic short-circuit protection.
With electronic overload protection.
Fitting cover plate: 6479-...-500.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Power loss: < 75 mW
Outputs: 1x USB-C charging interface
Rated power: 65 W
Output voltage: 5 V, 9 V, 12 V, 15 V, 20.0 V DC
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 44 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	6479 U-500	2CKA006400A0437	1

[1] No claw. Screw-fixing via keyholes.
[2] No data transfer.

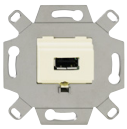
HDMI connection unit [1] with screw-type terminals and strain relief

Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link high-definition digital audio and video data from e.g. SAT-receiver, DVD-/Blue-Ray-player to plasma-type, LCD- or-LED-TVs/screens.
HDMI-type A, 3D-compatible.
Fully HD ready (1920 x 1080 pixel).
For 20-wire HDMI-cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems.
For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended.
Without cover plate.
Without claws.
Protection class (Device): IP 20
Mounting depth: 34 mm

Colour	Type	Order code	Pack/Qty.
white	**0261/31-500**	2CKA000230A0430	1
grey	**0261/33-500**	2CKA000230A0432	1
alpine white	**0261/32-500**	2CKA000230A0431	1

[1] Please follow the recommendations of the cable and device producers for the max. HDMI cable lengths.

VGA connection unit [1] with screw-type terminals and strain relief



Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link analogue video data between PCs and laptops to monitors or digital projectors etc.
VGA-type: D-type, 15-pole.
Fully HD ready (1920 x 1080 pixel).
For 15-wire VGA-cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems.
For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended.
Without cover plate.
Without claws.
Protection class (Device): IP 20
Mounting depth: 34 mm

Colour	Type	Order code	Pack/Qty.
white	**0261/21-500**	2CKA000230A0424	1

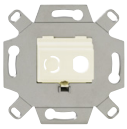
alpine white	**0261/22-500**	2CKA000230A0425	1

[1] Please follow the recommendations of the cable and device producers for the max. VGA cable lengths.

USB connection unit [1] with screw-type terminals and strain relief



Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link mobile devices like e.g. printer, scanner, USB-sticks or digital cameras etc.
USB-type A, USB 2.0 compatible.
For 5-wire USB- cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems.
For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended.
Without cover plate.
Without claws.
Protection class (Device): IP 20
Mounting depth: 34 mm

Colour	Type	Order code	Pack/Qty.
white	**0261/11-500**	2CKA000230A0418	1

LED light

Info light unit [1] [2]

Size of information field 43 x 43 mm.
Long service life of the lighting element (LEDs).
Homogeneous backlighting of the information field.
Colour temperature 6,500 K (cold white)
Power consumption: < 0.5 W
Rated voltage: 230 V~
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	2062 U	2CKA001511A0115	1/10

[1] Use relay inserts when switching through movement sensors or comfort switches.
[2] For switching the LED flush mounted insert use switches without orientation light only.

Cover plate [1] [2]

As cover for flush-mounted info light.
For insert 2062 U.
Size of information field 43 x 43 mm.

Busch-dynasty®

KNX control elements

Control element, 1/2gang [1] [2] multi-function/colour concept

For ABB i-bus® KNX 6120/12-101, 6120/13.
With labelling field.
Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green.
Push switch function: switching / dimming / blind / sending values / scenes etc.
Transparent labelling sheet with standard symbols included in delivery.
Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.).
Control element: rocker switch left/right
Display elements: Two LED per rocker via separate communication object for status (Red/ Green/ OFF) or orientation light.
Protection class (Device): IP 20
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 63 mm x 63 mm

Colour	Type	Order code	Pack/Qty.
anthracite	**6125/02-81-500**	2CKA006115A0216	1

Busch-Watchdog 180 flush-mounted standard sensor [1]

For ABB i-bus® KNX 6120/12-101, 6120/13.
Movement detector with up to 4 channels.
Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.).
Detection range: frontal: 6 m, lateral: 6 m
Detection angle: 180 °
Brightness limit value: 5 Lux - 150 Lux
Mounting height: 1.1 m
Protection class (Device): IP 20
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 63 mm x 63 mm x 18 mm
Position for installation: vertical

pure stainless steel
Lasts a lifetime.

Fascinatingly bold straight lines in a time proof material. It is pure stainless steel. Fingerprints? It is impossible, thanks to the unique finishing. An accord of aesthetics, functions and durability. Absolute quality. Pure stainless steel is simply permanent.

01 Switch/push-switch
02 2gang-1way/2way switch
03 Busch-Blind control switch
04 Busch-Comfort switch
05 20A double pole switch with marking and indicator
Colour: stainless steel

Materials
The series is surface-coated in a special manufacturing process. This means that fingerprints or other greasy spots are reduced to a minimum (anti-fingerprint).

ANTI FINGERPRINT

pure stainless steel

Rocker switches / push switches

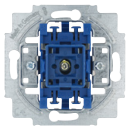
Rocker Switch Mechanism [1])

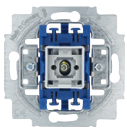


With neon lamp.
Rated voltage: 250 V~. Rated current: 10 AX
Suitable for: LEDi / CFLi
Rated power: 100 W
Protection class (Device): IP 20. IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	1gang 2way [2])		
	2000/6 USGL-500	2CKA001012A2194	10/100
	2gang 1way		
	2000/5 USGL	2CKA001012A1135	10

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2]) Replacement lamps 8360, 8362, and 8363 and LED inserts.

Rocker Switch Mechanism, control [1]) [2]) [3])

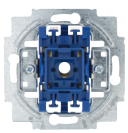


With neon lamp.
Rated voltage: 250 V~. Rated current: 10 AX
Suitable for: LEDi / CFLi
Rated power: 100 W
Protection class (Device): IP 20. IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	1gang 2way with N-terminal		
	2000/6 USK-500	2CKA001022A0659	10/100
	DP, 1gang 1way		
	2000/2 UK	2CKA001022A0656	10

[1]) With 1 mA neon lamp.
[2]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[3]) Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

Rocker Switch Mechanism, control [1]) [2]) [3])
Switch-off and two-way circuit with N-clamp 16 A

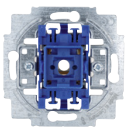


With neon lamp.
Rated voltage: 250 V~. Rated current: 16 AX
Suitable for: LEDi / CFLi
Rated power: 200 W
Protection class (Device): IP 20. IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2400/6 USK-500	2CKA001022A0661	10

[1]) With 1 mA neon lamp.
[2]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[3]) Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

Push-switch mechanism [1])
SP, with normally open contact (operating current)

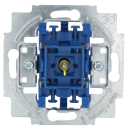


With N terminal.
Rated voltage: 250 V~
Rated current: 10 A
Protection class (Device): IP 20. IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2020 US-500	2CKA001413A0574	10/100

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Push-switch mechanism [1])
SP, with normally open contact (operating current)

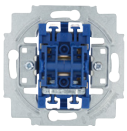


With 2 independent signalling contacts.
Rated voltage: 250 V~
Inputs: 1.
Outputs: 1
Rated current: 10 A
Protection class (Device): IP 20
IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2020 US-201	2CKA001413A0483	10

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Push-switch mechanism [1]) [2]) [3])
SP, with normally open contact (operating current)

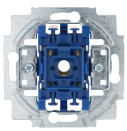


With illumination.
With N terminal.
Rated voltage: 250 V~
Rated current: 10 A
Protection class (Device): IP 20
IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2020 USGL-500	2CKA001413A1106	10/100

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2]) Replacement lamps 8360, 8362, and 8363 and LED inserts.
[3]) For relay and touch dimmer applications.

Push-switch mechanism [1])



With one input terminal and 2 actuating covers.
Rated voltage: 250 V~
Inputs: 1.
Outputs: 2x Normally open contact
Rated current: 10 A
Protection class (Device): IP 20
IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2020 US-205-500	2CKA001413A1105	10/100

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Push-switch mechanism [1]) SP, 1gang 2way

Can be wired for normally open contacts (stand-by current) or normally closed contacts (operating current).
With N terminal.
Rated voltage: 250 V~.
Rated current: 10 A
Protection class (Device): IP 20
IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2020 US-206-500	2CKA001413A1104	10/100

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

pure stainless steel

Rocker switches / push switches

Rocker

For flush-mounted switch 1g1w, 1g2w, intermediate, push switch.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1786-866-500**	2CKA001751A3077	10/100

Rocker

For flush-mounted switch 2g 1w, 2g push switch.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1785-866-500**	2CKA001751A3087	10/100

Rocker

As a cover for flush-mounted control 2gang switch.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1785 K-866**	2CKA001751A3132	10

Rocker with small transparent lens

As cover for flush-mounted 1gang 1way, 1gang 2way switch, intermediate switch, push-button and control switch 1gang 2way.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1789 N-866**	2CKA001751A3152	10/100

Rocker with small red spherical cap

As cover for flush-mounted 1gang 1way, 1gang 2way switch, intermediate switch, push-button and control switch 1gang 2way.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1789-866**	2CKA001751A2957	10/100

Switch rocker with marking with small transparent lens

With >Plug< icon.
As cover for flush-mounted switch 1g1w DP and 3pole with neon lens and marking "I O"
As cover for flush-mounted 1gang 1way, 1gang 2way switch, intermediate switch, push-button and control switch 1gang 2way. Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1789 ST-866**	2CKA001751A3162	10/100

Switch rocker with marking light

With >Light< icon.
For flush-mounted switch 1g1w, 1g2w, intermediate, push switch. Material stainless steel.
Anti fingerprint. Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**2520 LI-866**	2CKA001751A3191	10/100

Switch rocker with marking key

With >Key< icon.
For flush-mounted push switch.
Material stainless steel. Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**2520 TR-866**	2CKA001751A3200	10/100

Switch rocker with marking bell

With >Bell< icon.
For flush-mounted push switch.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**2520 KI-866**	2CKA001751A3181	10/100

Switch rocker with marking with small transparent lens

With >Light< icon.
As cover for flush-mounted 1gang 1way, 1gang 2way switch, intermediate switch, push-button and control switch 1gang 2way.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1789 LI-866**	2CKA001751A2958	10

pure stainless steel

Rocker switches / push switches

Switch rocker with marking with small transparent lens

With >Bell< icon.
For flush-mounted push switch.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1789 KI-866**	2CKA001751A2959	10

Switch rocker with marking with small transparent lens

With >Key< icon.
For flush-mounted push switch.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1789 TR-866**	2CKA001751A2960	10

Switch rocker with marking with small red spherical cap

With imprint >0< and >I<.
As cover for 2-pole or 3-pole flush-mounted on-off switch and 2-pole control on-off switch.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1788-866**	2CKA001751A2961	10

Rocker [1] [2] with labelling field

With pilot lamp for uniform illumination of the labelling field.
For flush-mounted switch 1g1w, 1g2w, intermediate, push switch.
Size of labelling field: 59.7 x 11.7 mm.
Surface painted.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1764 NLI-866**	2CKA001731A1953	10

[1] For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.
[2] Illumination using neon lamp 8353 or incandescent lamp 8344-1 and LED inserts.

Rocker [1] [2] with labelling field

With >Bell< icon.
With pilot lamp for uniform illumination of the labelling field.
For flush-mounted push switch.
Size of labelling field: 59.7 x 11.7 mm.
Surface painted.

Smart Switch, WL NEW

Smarter light-/blind switch for wireless control of Busch-flexTronics® wireless and Busch-free@home® devices.
Wall-mounted transmitter, 2/4 channels.
Operation in ABB-flexTronics® wireless with up to 32 devices (room control).
Integration in ABB-free@home® wireless with System Access Point up to 150 devices.
At least one ABB-flexTronics® wireless device or an ABB-free@home® wireless device which serves as proxy device is required.
Programming with the ABB-free@home® Next App.
Smartphone with NFC required.
Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generat-ed when switching (energy harvesting).
Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.
Including fixing plate for mounting on smooth walls or on switch boxes.
Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.

Colour	Type	Order code	Pack/Qty.
	62721 U-WL-500	2CKA006710A0048	1

Dimmers

Friends of Hue smart switch insert
Wall-mounted transmitter, 2 / 4 channel

For smart switch rockers 6735 BT-8xx and 6736 FoH-8xx.
Smarter light switches for wireless remote control of Philips Hue lamps. For switching and dimming of Philips Hue lamps. For saving, calling up and dimming of a maximum of 2 individual light scenes. Without battery and maintenance-free due to >Energy harvesting<. Requires Philips Hue Bridge (2nd generation square construction type) and Philips Hue app (Version 3.2 or higher). Maximum safety of function by means of Zigbee-Mesh technology.
Combinable with the Busch-Jaeger switch ranges: carat®,carat® flat, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent®, Busch-axcent® pur and future® linear.
Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.
Including fixing plate for mounting on smooth walls or on switch boxes.

Bluetooth Low Energy (BLE) smart switch insert
Wall transmitter, 2 / 4 channel

For smart switch rockers 6735 BT-8xx and 6736 FoH-8xx.
- Smart switch for wireless remote control of radio components.
- Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.
- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Depending on the ecosystem, the wireless range is automatically extended via mains-powered BT mesh devices (repeater function).
- Encrypted transmission with AES-128 (CBC mode) and sequence counter.
- Contains NFC configuration interface according to NFC Forum Type 2 Tag (ISO/IEC 14443 Part 2 + 3).
- Therefore particularly simple commissioning of BLE radio components from Casambi.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

Dimmers

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
Flush-mounted, LED, 2-100 W

With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. Via mode switch adjustable between leading edge control and trailing edge control.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With adjustable minimum brightness.
Without cover plate. Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 250 W/VA (non-LED loads).
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	6523 U-102-500	2CKA006512A0335	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
UP, LED, 2-400 W

Very small installation depth: < 20 mm.
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (leading edge control) Nominal power: 2 - 400 W/VA (trailing edge control)

pure stainless steel
Dimmers

Busch-rotary dimmer [1])
Flush-mounted, DALI, tunable white

For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116 U	2CKA006599A3025	1

Busch-rotary dimmer [1]) Flush-mounted, DALI, with internal power supply, tunable white

For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz

[1]) In the case of conventional transformers, take ~20% transformer loss into account.
[2]) In case of electronic transformers, 5 % transformer losses.
[3]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4]) Recommendation: Please use loads and types of one producer.
[5]) The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6]) A liability on the part of Buscah-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

pure stainless steel

Dimmers

Control element, 1 gang flex

Tapping control element, 1gang. Compatible with all free@home flex inserts. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.

Colour	Type	Order code	Pack/Qty.
	64711-500	2CKA006400A0099	1

Control element, 1 gang, flex wireless

Tapping control element, 1gang. For the manual and automatic control of roller blinds, blinds, awnings, lighting and electric loads. Compatible with all free@home flex inserts. Remote operation via the Bluetooth and smartphone/tablet app. Programming via Bluetooth with the ABB-free@home® app or via the web interface of the System Access Point. Timer with Astro function. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.

ABB flexTronics inserts

Relay insert flex, 1gang [1)]

3 wire connection (neutral conductor required).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... . For Busch-Watchdog 180 flex sensors 6476x-.... For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Inputs: 1. Outputs: 1x Normally open contact, potential-bound. Suitable for: 230 V- LEDi, typical.
Rated power: 300 VA. Suitable for: 230 V incandescent lamps/230 V halogen lamps. Rated power: 2300 W
Suitable for: Low voltage halogen lamps that are operated via transformers. Rated power: 2300 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64811 U-500	2CKA006800A3042	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Relay insert flex, 2gang [1)]

3 wire connection (neutral conductor required).
For switching lighting systems.
For switching two independent load circuits.
For controlling light and ventilation systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... .
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 2
Outputs: 2x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 1840 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 1150 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

pure stainless steel

ABB flexTronics inserts

e-contact insert flex, 1gang [1] [2]

2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 3 - 240 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 10 - 240 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 3 - 240 VA
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64814 U-500	2CKA006800A3048	1

[1] Use only dimmable high-voltage LEDs.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6] FM, LED, 3-240 VA

2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
Touch dimmer for switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum brightness.
With light-level memory and minimum brightness memory.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without control cover.
For control element flex, 1gang, 64711.
For control element flex, 2gang, 64721.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Rated power: 3-240 VA (LEDi)
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x dimming channel
Suitable for: 230 V LEDi, typical (leading edge control)
Rated power: 3 - 100 VA
Suitable for: 230 V LEDi, typical (trailing edge control)
Rated power: 3 - 240 W
Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer.
Rated power: 10 - 240 VA
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Comfort switch flex sensor [1] [2]

Movement detector push-button switch combination. For switching lighting systems that depend on brightness and movement. With select lens, prevents detection of smaller animal. Push switch function possible at all times. With notice LED when manual operation is necessary. Extension of the detection range by main unit/extension unit combination. Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Additional activation/deactivation option via push-button input on the flush-mounted insert.
Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off.
Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off. Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off. With continuous light/continuous Off function. Adjusting elements on rear side. Surveillance density: 9 sectors with 28 switching segments. Switch off delay: 1 to 10 min., adjustable. Compatible with all ABB flexTronics inserts. For relay insert flex, 1gang, 64811 U-500
For relay insert flex, 2gang, 64821 U-500.
For e-contact insert flex, 1gang, 64814 U-500.
For LED touch dimmer insert flex, 1gang, 64851 U-500.
For extension insert flex, 64891 U-500.
Display elements: LED for status display.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 5 m, lateral: 3 m, at mounting height: 1.1 m. Detection angle: 170°.
Brightness limit value: 5 Lux - daytime operation
Operation mounting height: 0.8 m - 1.2 m
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 63 mm x 63 mm x 28 mm
Above the wall: 21 mm.

stainless steel	**64765-866-500**	2CKA006800A2898	1

[1] The range specifications refer only to an ambient temperature of 21°C.
[2] Please order the respective flush-mounted insert separately.

ABB flexTronics movement detector sensors

Busch-Watchdog 180 flex, basic sensor [1] [2] [3] with select-lens

Movement detector sensor with with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Compatible with all free@home flex inserts. Adjusting elements on rear side. Extension of the detection range by means of master/slave combination. Additional activation/deactivation option via push-button input on the flush-mounted insert. With detection display in test mode. Surveillance density: 14 sectors with 56 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. For relay insert flex, 1gang, 64811 U. For e-contact insert flex, 1gang, 64814 U. For series relay insert flex, 2gang, 64821 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Mounting height: 22 mm. Control element: 2 controllers for setting the brightness switching threshold and switch-off delay. Detection range: frontal: 12 m, lateral: 12 m, Mounting height: 1.1 m Detection angle: 180 ° Brightness limit value: 5 Lux - 500 Lux Up to daytime operation Mounting height: 0.8 m - 1.2 m Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 35 mm

Colour	Type	Order code	Pack/Qty.
stainless steel	**64761-866-500**	2CKA006800A2936	1

[1] Please order the respective flush-mounted insert separately.
[2] The range specifications refer only to an ambient temperature of 21°C.
[3] Surface painted.

Busch-Watchdog 180 flex, comfort sensor [1] [2] [3] with select-lens

Movement detector sensor with with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Push switch function possible at all times. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flex inserts. Adjusting elements on rear side. Extension of the detection range by means of master/slave combination. Additional activation/deactivation option via push-button input on the flush-mounted insert. With continuous light/continuous Off function. With detection display in test mode. Surveillance density: 14 sectors with 56 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable.
For relay insert flex, 1gang, 64811 U.
For e-contact insert flex, 1gang, 64814 U.
For series relay insert flex, 2gang, 64821 U.
For LED touch dimmer insert flex, 1gang, 64851 U.
For extension insert flex, 64891 U.
Mounting height: 22 mm.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 12 m, lateral: 12 m, Mounting height: 1.1 m
Detection angle: 180 °
Brightness limit value: 5 Lux - 500 Lux Up to daytime operation
Mounting height: 0.8 m - 1.2 m
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 63 mm x 63 mm x 35 mm

ABB flexTronics movement detector sensors

Busch-Watchdog 180 flex, comfort sensor wireless [1] [2] with select-lens

Movement detector sensor with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Push switch function possible at all times. ./. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With time-controlled basic illumination function. With time-controlled night anti-glare function. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flex inserts. Works with free@home. Remote operation via the Bluetooth and smartphone/tablet app. Programming via Bluetooth with the ABB-free@home® app or via the web interface of the System Access Point. Extension of the detection range by means of master/slave combination. Timer with Astro function. Automatic switchover from summer time to winter time (switch-off function). With continuous light/continuous Off function. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode. Surveillance density: 14 sectors with 56 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. For relay insert flex, 1gang, 64811 U. For e-contact insert flex, 1gang, 64814 U. For series relay insert flex, 2gang, 64821 U. For LED touch dimmer insert flex, 1gang, 64851 U.

Busch-Watchdog 180 flex, comfort sensor [1] [2] [3] with multi-lens

Movement detector sensor with with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Push switch function possible at all times. For detection down to the floor. For detection in stairwells. With 4 detection levels. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flex inserts. Adjusting elements on rear side. Multi-lens: suitable also for mounting heights of 2.20 m. Extension of the detection range by means of master/slave combination. Additional activation/deactivation option via push-button input on the flush-mounted insert. With continuous light/continuous Off function. With detection display in test mode. Surveillance density: 54 sectors with 224 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. For relay insert flex, 1gang, 64811 U. For e-contact insert flex, 1gang, 64814 U. For series relay insert flex, 2gang, 64821 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Mounting height: 31 mm. Control element: 2 controllers for setting the brightness switching threshold and switch-off delay. Detection range: frontal: 8 m, lateral: 7 m, Mounting height: 1.1 m. Detection range 2: frontal: 8 m, lateral: 8 m, Mounting height: 2.2 m. Detection angle: 180 ° Brightness limit value: 5 Lux - 500 Lux Up to daytime operation. Mounting height: 0.8 m - 1.2 m alternative: 2.2 m Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 45 mm

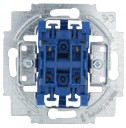
Key Switch Insert [1] [2] [3] breaking circuit, 1-pole

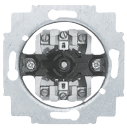


For profile semi-cylindrical lock. In switched-on and switched-off status the key can be pulled out in the central position, respectively. Delivered without cylindrical lock. Rated voltage: 250 V~
Rated current: 10 AX. Suitable for: LEDi / CFLi. Rated power: 100 W. Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1

Colour	Type	Order code	Pack/Qty.
	2733 USL-101	2CKA001101A0914	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		
delivery form:	Adapter plate APBS to be ordered separate.		

[1] For installation on British Standard wallboxes please use adapter plate APBS (6599-0-2813). (Depth of box 60 mm.)
[2] Use the cylindrical lock according to the enclosed drawing.
[3] See profile semi-cylindrical lock.

Blind switch insert [1] [2] SP, switch



With interlock.
Rated voltage: 250 V~
Rated current: 10 AX
Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1

Colour	Type	Order code	Pack/Qty.
	2000/4 US-500	2CKA001012A2197	10/100

Blind compact timer

Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off.
Without extension unit input.
Running time: 3 min
N-busbar connection is required.
For manual and time-controlled switching of blinds and roller blinds.
Memory function for the simple storage of switching times.
The controlled devices can be manually operated at any time.
Simple setting via display with with segment display and background illumination.
Factory pre-set switching times, individual adaptations are possible.
2 switching times per day can be freely adjusted for each day of the week.
Automatic switchover from summer time to winter time (switch-off function).
Switching times and programs are safely stored in the event of a mains power failure.
Power reserve for time and date > 10 years.
Simple toggling between manual/automatic/vacation modes.
See the associated cover plates 6435-xx.
Programming possible only with control element attached and energized.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Outputs: 2x Normally open contact
Rated current: 3 A, cos ϕ 0.5
Rated power: 690 VA
Temperature range (Device): 0 °C to 45 °C

Socket outlets

SCHUKO® USB socket outlet, 2gang [1] [2] [3] [4] shuttered

For connecting electric loads.
DP (2 P + E)
With screwless terminals.
For supply and support of mobile devices via USB-cable.
With 1x USB type A and 1x USB type C outputs.
Simultaneous charging via USB connection and use of the SCHUKO® socket outlet.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of loading protocol on the USB-C connection: USB-PD till 3 A, Apple MFI till 2.4 A and BC 1.2 with 1.5 A.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 230 V AC
Rated frequency: 50 Hz / 60 Hz
Power dissipation: < 75 mW
Rated current: 16 A
Outputs: 2x USB charging interface
Output voltage: 5 V DC
Rated power: 15 W
Suitable for: In case one output is used:
USB-A port: Max. current 2.4 A.
USB-C port: Max. current 3 A*
*3 A requires approved charging cables.
Protection class (Device): IP 20, SELV
Temperature range (Device): 5 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 58 mm
Mounting depth: 39.5 mm

stainless steel	**2195 EUC/10-866-500**		

Euro American socket outlet with earth, 16 A

1gang
With screw-type terminals.
Without claws.
Rated voltage: 250 V~
Rated current: 16 A

Colour	Type	Order code	Pack/Qty.
	delivery on request		
stainless steel	**2196 EUC-866-500**	CBA019A082S6010	

International socket outlet 13A [1]

1gang
With screw-type terminals.
Without claws.
Rated voltage: 250 V~
Rated current: 13 A

Colour	Type	Order code	Pack/Qty.
	delivery on request		
stainless steel	**2197 EUC-866-500**	CBA019A071S6010	

[1] Usage may be restricted in certain countries.

SCHUKO® socket outlet [1] [2] shuttered

With screw-type terminals.
DP (2 P + E)
Material stainless steel.
Anti fingerprint.
Rated voltage: 250 V~
Rated current: 16 A
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**2300 EUCB-866**	2CKA002013A5452	10/100

[1] Increased shock protection.
[2] With screw-type terminals

pure stainless steel

Socket outlets

SCHUKO® socket outlet steplight® [1] [2] With night orientation light

With separate connection cables for switch contact.
With LED. Shuttered. DP (2 P + E)
Surface painted.
Rated voltage: 250 V~
Rated current: 16 A
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**20 EUCBLI-866**	2CKA002013A5460	1

[1] Connecting terminals approved in accordance with VDE 0620-1 as connectors.
[2] Resistant to aggressive media, e.g. ammonia, benzine, oils, greases, alcohol, cleansing agents, in normal concentrations.

SCHUKO® socket outlet [1] with labelling field

DP (2 P + E). Size of labelling field: 60 x 9 mm.
Material stainless steel.
Anti fingerprint. Shuttered.
Rated voltage: 250 V~
Rated current: 16 A
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**20 EUCNB-866**	2CKA002013A5432	10

[1] For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.

FI-SCHUKOMAT, SCHUKO® socket outlet (RCD) [1] [2] [3] with earth leakage circuit breaker

Shuttered. DP cut off (P,N)
Without PE monitoring.
With output terminals for connecting and protecting downsream SCHUKO® socket outlets.
Rated fault current: 30 mA.
With fixing claws. Rated frequency: 45-60 Hz.
Surface painted. Rated voltage: 230 V~
Rated current: 16 A
Protection class (Device): IP 21
Temperature range (Device): -25 °C to 40 °C

Colour	Type	Order code	Pack/Qty.
stainless steel	**3120 EUCB-866**	2CKA003116A0669	1/10

[1] Connecting terminals approved in accordance with VDE 0620-1 as connectors.
[2] Protective measure according to VDE 0100; can be proven or checked using the Profitest 0100S testing device, for example.
[3] Increased shock protection .

Buschmat® FI - Insert [1] with earth leakage breaker with connecting conductor

Protection of downstream consumers.
Rated actuating current: 30 mA. Release time: ≤ 30 ms. Short-circuit strength: 3000 A (with 25 A GL fuse).
Current surge strength: 250 A (8/20) µs.
DP cut off (P,N)
Without claw fixation.
Rated frequency: 45-60 Hz.
Surface painted.
Rated voltage: 230 V~
Rated current: 16 A
Protection class (Device): IP 21
Temperature range (Device): -25 °C to 40 °C

Colour	Type	Order code	Pack/Qty.
stainless steel	**3151 UC-866**	2CKA003117A0011	1/10

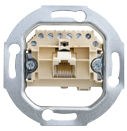
[1] Protective measure according to VDE 0100; can be proven or checked using the Profitest 0100S testing device, for example.

SCHUKO® socket outlet shuttered

With screwless terminals.
DP (2 P + E)
with hinged lid
Material stainless steel.
Anti fingerprint.
Rated voltage: 250 V~
Rated current: 16 A
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**20 EUKB-866**	2CKA002018A1521	10/100

USB socket outlet earthing pin, 2gang [1] [2] [3] shuttered



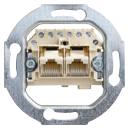
For connecting electric loads.
DP (2 P + E)
With screwless terminals.
For supply and support of mobile devices via USB-cable.
With 1x USB type A and 1x USB type C outputs.
Simultaneous charging via USB connection and use of the pin earth socket outlet.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of loading protocol on the USB-C connection: USB-PD till 3 A, Apple MFI till 2.4 A and BC 1.2 with 1.5 A.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 230 V AC
Rated frequency: 50 Hz / 60 Hz
Power dissipation: < 75 mW
Rated current: 16 A
Outputs: 2x USB charging interface
Output voltage: 5 V DC
Rated power: 15 W
Suitable for: In case one output is used:
USB-A port: Max. current 2.4 A.
USB-C port: Max. current 3 A*
*3 A requires approved charging cables.
Protection class (Device): IP 20, SELV
Temperature range (Device): 5 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 58 mm
Mounting depth: 39.5 mm

Colour	Type	Order code	Pack/Qty.
stainless steel	**20 MUCB2USBAC-866-500**	2CKA002017A1920	1/10

[1] Increased shock protection.
[2] No data transfer.
[3] Surface painted.

Universal data connection unit, cat. 3 [1] 1gang

With down-leading outlet.
For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3.
Design according to IEC 60 603-7-2:2007.
Screw contacts
With claw.
Protection class (Device): IP 20



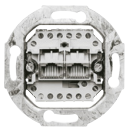
Colour	Type	Order code	Pack/Qty.
	0213-500	2CKA000230A1549	10/100

[1] Suitable for cover plate 1803-xxx.

pure stainless steel

Data communication

Universal data connection box with down-leading outlet [1]) 2gang internally parallel connected



With down-leading outlet.
For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3.
Design according to IEC 60 603-7-2:2007.
Screw contacts
With claw.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0214	2CKA000230A0235	10/100
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		

[1]) Suitable for cover plate 1803-02-xxx.

Universal data connection box with down-leading outlet [1]) 2 x outlets, 8/8-pole

With down-leading outlet.
For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3.
Design according to IEC 60 603-7-2:2007.
Screw contacts
With claw.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0215	2CKA000230A0243	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		

[1]) Suitable for cover plate 1803-02-xxx.

Data-connection box, RJ 45, cat. 6a iso, shielded [1]) 1gang

With down-leading outlet and LSA self-cutting clamps.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Up to 500 MHz on all pairs of wires.
Suitable for 10-Gigabit Ethernet.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Flex cable entries from all sides without buckles.
Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed.
Suitable for Mix-and-Match operation.
Suitable for RJ 11, RJ 12 und RJ 45.
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Without claws.
Mounting depth: 31 mm.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0218/11-101	2CKA000230A0409	1/10

[1]) Suitable for cover plate 1803-xxx.

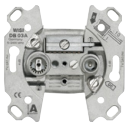
Universal data connection box 8(6)/ telephone unit 6F+N - connection box [1] 2 x 6-pole



With straight outlet, with screw contacts.
Universal data-connection boxes: RJ 11/12, ISDN capable Cat. 3 in acc. with IEC 603-7/German Standard DIN EN 60603-7,
Telecommunication outlet (telephone unit): for 1 telephone, 1 auxiliary device or 1 data transmission unit,
With claw.
Protection class (Device): IP 20

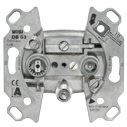
Colour	Type	Order code	Pack/Qty.
white	**UAE 8(6)TAE 6 F+N**	2CKA000230A0381	10/100

[1] Suitable for cover plate 2539-xxx, 1766-xxx and 1746-2xx-FN.

Satellite co-axial outlets 2 connectors/dead-end feeder

Broadband technology 5-2.400 MHz
For DVB-T, satellite and broad-band cable systems.
For analogue and digital transmission.
With claw.
Minimal installation depth, class A.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0230-101	2CKA000230A0250	10/100



Antenna socket insert Radio/TV 2 connectors/loop through type

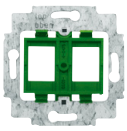
Broadband technology 5-2.400 MHz
For DVB-T, satellite and broad-band cable systems.
For analogue and digital transmission.
With claw.
Minimal installation depth, class A.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0231-101	2CKA000230A0268	10/100

Satellite co-axial outlets Radio/TV/SAT 3gang dead-end feeder

Broadband technology 47-2.150 MHz.
SAT connection designed as screwable F-male plug.
with remote feed via F-bush
For DVB-T and broadband-cable-systems.
For analogue and digital transmission.
With claw.
Minimal installation depth, class A.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0232-101-500	2CKA000230A0463	10/100

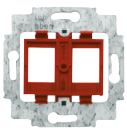


Terminating resistor 75 Ohm

Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0239	2CKA000230A0201	10/100

Mounting plate [1] [2] with green insert



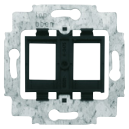
For 2 modular jack inserts.
For systems: CommScope (AVAYA / AT&T / Lucent Technologies), GigaSPEED, PowerSUM, 360 GS 10E bis MGS 600-BK, M1 BH-xx, MPS 100E-xx.
With R&M adapter R310694 suitable for R&M connection modules R305111, R305112, R305113 and R305114.
Pitch dimensions: (WxH) approx. 16.9 x 17.9 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	1810-500	2CKA001753A9974	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

Mounting plate [1] [2] with red insert

For 2 modular jack inserts.
Suitable for Art. Nos. 0210, 0211 and 0219-101.
For systems: AMP / tyco Electronics, BTR, EFB, Krone, Panduit, Quante, Radiall, Setec, Dr.-Ing. Sieger, Telena, Thomas & Betts
For Telegärtner AMJ/UMJ connection modules/ couplings.
For 2 fiber optic modules of the following types: 3M-Volition, Krone, mvk.
Pitch dimensions: (WxH) approx. 14.8 x 19.4 mm.
Without claws.
Protection class (Device): IP 20



Colour	Type	Order code	Pack/Qty.
	1812-500	2CKA001753A9972	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

pure stainless steel

Data communication

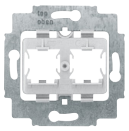
Mounting plate [1] [2] with black insert

For MTRJ or 2 modular jack inserts.
For systems: Ackermann, AMP / tyco Electronics (Slim Line (SL) -SM 2gang/switches: 110Connect Jacks, Toolless Jacks / Standard 110Connect Jacks), Brand-Rex, CombiNet, EFB Electronic, Telena.
For 2 fiber optic modules of the following types: AMP / tyco Electronics MTRJ.
Pitch dimensions: (WxH) approx. 14.8 x 20.4 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	1814-500	2CKA001753A9973	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

Mounting plate [1] [2] with orange base

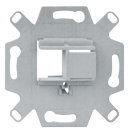


For 2 modular jack inserts.
For system: LexCom 150 and LexCom 250.
Pitch dimensions: (WxH) approx. 15.4 x 15.4 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	1819	2CKA001753A8056	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

Mounting plate [1] [2] with grey base



For 2 modular jack inserts.
For system: Panduit MiniCom (Cu. z.B. TX6 10 Gig Shielded Jack modules and fiber optic modules.
Pitch dimensions: (WxH) approx. 15.9 x 18.7 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	1820	2CKA001753A8057	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

Flush-mounted assembly adapter

For the accommodation of one or two universal modules 0219.
For flush-mounted installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/12	2CKA000230A0395	1/10

Channel assembly adapter

For the accommodation of one or two universal modules 0219.
For channel and under-floor installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/13	2CKA000230A0396	1/10

Universal module, RJ 45, cat. 6a iso, shielded [1] 1gang

For installation in installation adapter 0219/12 or 0219/13. Also suited for mounting into cover plate 2561-xxx, 2564-02-xxx and bases 1812, 1866 EB, and 1867 EB.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Cat. 6A according to ISO/IEC 11801: 2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Bend-radius optimised cable feed (30°). Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed.
Suitable for Mix-and-Match operation.
For 8-pole plug RJ 45 only. Housing made from diecast zinc. With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection. For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems. Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219-101	2CKA000230A0413	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

Modular-Jack insert 6-pole Cat. 3 (AMP-No. 216000-2)

For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in.
For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0210	2CKA000225A0078	10

pure stainless steel

Data communication

Modular-Jack insert 8-pole Cat. 3 (AMP-No. 216005-4)

For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in.
For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0211	2CKA000225A0086	10

Built-in jack

For potential balancing jack cover plate and installation in cover plates.
For devices of 19 mm diameter.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0471-0-0037	2CKA000471A0037	10

Potential balancing plug

Suitable for plug 2095 UC-212 and built-in jack 0471-0-0037 acc. to German Standard DIN 42801.
For potential balancing jack cover plate (connection up to 6 mm² crimped or soldered)
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0299-0-0032	2CKA000299A0032	10

Blank plate with metal mounting plate

Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1742-866**	2CKA001710A3751	10

Cover plate [1])

As cover for flex outlet, for cords up to 10.3 mm diameter.
With strain relief (without terminal block).
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1749-866**	2CKA001710A3752	10

[1]) Cover plate can also be used individually as cover for telephone connector boxes (VDo).

Cover plate [1])

As cover for universal data connection boxes.
Art.-No. 0213 (Cat 3/ISDN), 0216-101, 0218/11-101 (Cat 5e/6 data technology) and comparable types of the company Rutenbeck.
For WLAN access points 8186/31 and 8186/41.
Brand-Rex (WAEGV 8 EKR/EK).
BTR (universal data connecting unit design and IAE design). Telegärtner (AMJ 45, UMJ 45).
With down-leading outlet.
With labelling field.
Size of labelling field: 60 x 9 mm.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1803-866**	2CKA001710A3763	10/100

[1]) For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.

Cover plate [1]) 2gang

As cover for universal data connection boxes.
Art. No. 0214, 0215 (Cat 3), 0220/12-507, 0221/12-507, 0218, 0217 (Cat 5e/6 data technology) and comparable types of the company Rutenbeck. Brand-Rex (WAEGV 8/8 EKR/EK). AMP (NETCONNECT 5E).
BTR (E-DAT C6, E-DAT design, Universal data connecting unit design and IAE design).
cti (cti-wire 2.8 Cat.6). Telegärtner (AMJ 45, UMJ 45).
With down-leading outlet. With labelling field.
Size of labelling field: 60 x 9 mm.
Material stainless steel. Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1803-02-866**	2CKA001710A3764	10/100

[1]) For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.

Cover plate

For telephone connection unit.
For USB, VGA, HDMI inserts and communication adapter. USB power adapter insert 6475 U-500.
For loudspeaker connection box.
Suitable for part number 0248/0x-101.
For data modules.
Suitable for Art. No. 0219/12 and 0219/13.
For modular outlets with 90° RJ45 outlet from Telegärtner (type MJ and WE).
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1766-866**	2CKA001710A3765	10/100

Cover plate

As cover for telephone connector boxes (VDo).
Can be knocked out for single or double connection.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1745-866**	2CKA001710A3766	10

Cover plate [1])

For 1 modular jack.
Suitable for Art. Nos. 0210, 0211 and 0219-101.
Without claws.
Surface painted.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**2561-866**	2CKA001753A0404	10

[1]) Surface painted.

Cover plate with metal mounting plate

For 2 modular jack inserts.
Suitable for Art. No. 0210 and 0211.
Without claws. Surface painted.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**2561-02-866**	2CKA001753A0395	10

Cover plate

For telecommunication inserts with cover plate 50 x 50 mm.
With cover plate 50 x 50 mm, AMP, Brand-Rex, Rutenbeck, BTR, Telegärtner, etc. Surface painted.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1746/10-866**	2CKA001710A3768	10

Intermediate ring

For attaching cover plates from the Busch-balance® SI range.
Surface painted.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1747 BSI-866**	2CKA001710A4097	10

pure stainless steel

Data communication

Cover plate

With hinged lid. For telecommunication inserts with cover plate 50 x 50 mm.
With cover plate 50 x 50 mm, AMP, Brand-Rex, Rutenbeck, BTR, Telegärtner, etc.
Surface painted.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1746-866**	2CKA001710A3769	10

Intermediate ring with hinged lid [1] [2]

For accommodating cover plates from the Busch-Duro 2000® SI program and Reflex SI, e.g. socket outlets, equipotential, antenna, and ISDN socket outlets, etc.
Delivery without cover plate.
With sealing ring.
IP 44 only in conjunction with cover frames All Weather 44.
Surface painted.
Protection class (Device): IP 44

Colour	Type	Order code	Pack/Qty.
stainless steel	**2518-WD-866**	2CKA001719A0221	10

[1] Combinable with cover plate 1746-...-101. 1743-04-..., 1743/10-04-... or data inserts with covers 50 x 50 mm, e.g. from Ackermann, Rutenbeck, BTR, Telegärtner.
[2] Combinable only with covers for flush-mounted inserts

XLR centre plate

As cover for Neutrik plug connectors, type D series.
Without claws.
Surface painted.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**2553-866**	2CKA001724A4403	10

Equipotential socket outlet 2gang

Without claws.
For connecting wires up to 1 x 6 mm² and 4 x 2.5 mm².
IEC 60601-1:2005; DIN EN 60601 (VDE 0750-1): July 2007
Connection bolts German Standard DIN 42801.
Surface painted.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**2095 UC-866**	2CKA002495A0090	10

Cover plate with metal mounting plate

With screw-type terminal.
Fixed with central locknut.
As cover for pilot devices with a diameter of 22.5 mm
Without claws.
Surface painted.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**2533-866**	2CKA001724A4270	10

Cover plate [1] with metal mounting plate

For communication devices.
With labelling field 60.2 x 10.2 mm.
Without claws.
Surface painted.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1758-866**	2CKA001724A4272	10

pure stainless steel

Multimedia / communication adapters

Busch-Radio DAB+ [1])

DAB+ and RDS stereo radio alarm clock for flush-mounted installation.
With high-resolution colour display for showing additional information.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With individual alarm and snooze function.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Control/Signal outputs: 2, Loudspeaker output, impedance 4 Ohm
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	8215 U-101-500	2CKA008200A0276	1/10

[1]) No claw. Screw-fixing via keyholes.

Busch-Radio BTconnect DAB+ [1])
With Bluetooth interface for music replay

DAB+ and RDS stereo radio alarm clock for flush-mounted installation.
With high-resolution colour display for showing additional information.
With Bluetooth interface for music replay of mobile devices.
Connection of external Bluetooth loudspeakers possible.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With individual alarm and snooze function.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Bluetooth specification: 4.2.
Bluetooth profiles supported: A2DP
Number of stored Bluetooth connections: max. 8
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Bluetooth

Colour	Type	Order code	Pack/Qty.
	8217 U-101-500	2CKA008200A0279	1/10

[1]) No claw. Screw-fixing via keyholes.

pure stainless steel

Multimedia / communication adapters

Loudspeaker insert [1] 5 cm (2")

With flat plug connector.
With broadband characteristics.
Rated output: 2 W (RMS)
Incl. speaker connection cable.
Frequency response: 200 - 20,000 Hz
Impedance: 4 Ohm
Protection class (Device): IP 20, SELV
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	8223 U-500	2CKA008200A0183	1/10

[1] No claw. Screw-fixing via keyholes.

Flush Mounted Inserts Flush-mounted installation boxes and inserts

Multi media connector ins.

Colour	Type	Order code	Pack/Qty.
	8231 U	2CKA008200A0223	1/10

[1] No claw. Screw-fixing via keyholes.

USB power adapter insert, flush-mounted [1] [2] With USB-A & USB-C interface

For supply and support of mobile devices via USB-cable.
With USB type A and USB type C female connector.
To support two devices at the same time.
Supports automatic negotiating of optimum charging parameters for the shortest charging times.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the additional quick-charge protocols: USB-PD and quick-charge 3.0 & 4.0.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Outputs: 2x USB charging interface
Suitable for: Only USB-A bus occupied:
Rated current: 3000 mA
Output voltage: 5 V-
Suitable for: Only USB-C bus occupied:
Rated power: 18 W

Suitable for: USB-A and USB-C bus occupied. Total:
Rated current: 3250 mA
Output voltage: 5 V-
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 43 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	6475 U-500	2CKA006400A0399	1

[1] No claw. Screw-fixing via keyholes.
[2] No data transfer.

65 W power adapter insert, flush-mounted [1] [2] with USB-C interface

NEW

For power and charge of mobile devices via USB-C cable.
With USB type C female connector. Supports high power and automatic negotiating of optimum charging parameters for the shortest charging times.
Support of charging protocols: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the Qualcomm quick charge protocols: QC 2.0, 3.0, 4.0 and 5.
Support of USB PD (power delivery): 3.1 incl. PPS (programmable power supply).
Support of manufacturer specific protocolls: Samsung AFC and Huawei FCP (with 20 W).
With electronic short-circuit protection.
With electronic overload protection.
Fitting cover plate: 6479-...-500.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Power loss: < 75 mW
Outputs: 1x USB-C charging interface
Rated power: 65 W
Output voltage: 5 V, 9 V, 12 V, 15 V, 20.0 V DC
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 44 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	6479 U-500	2CKA006400A0437	1

[1] No claw. Screw-fixing via keyholes.
[2] No data transfer.

HDMI connection unit [1] with screw-type terminals and strain relief

Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link high-definition digital audio and video data from e.g. SAT-receiver, DVD-/Blue-Ray-player to plasma-type, LCD- or-LED-TVs/screens. HDMI-type A, 3D-compatible. Fully HD ready (1920 x 1080 pixel).
For 20-wire HDMI-cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems. For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended. Without cover plate.
Without claws. Protection class (Device): IP 20
Mounting depth: 34 mm

Colour	Type	Order code	Pack/Qty.
white	**0261/31-500**	2CKA000230A0430	1

alpine white	**0261/32-500**	2CKA000230A0431	1

[1] Please follow the recommendations of the cable and device producers for the max. HDMI cable lengths.

pure stainless steel

Multimedia / communication adapters

VGA connection unit [1]) with screw-type terminals and strain relief

Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link analogue video data between PCs and laptops to monitors or digital projectors etc. VGA-type: D-type, 15-pole. Fully HD ready (1920 x 1080 pixel).
For 15-wire VGA-cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems. For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended. Without cover plate.
Without claws. Protection class (Device): IP 20
Mounting depth: 34 mm

Colour	Type	Order code	Pack/Qty.

LED light

Info light unit [1] [2]

Size of information field 43 x 43 mm.
Long service life of the lighting element (LEDs).
Homogeneous backlighting of the information field.
Colour temperature 6,500 K (cold white)
Power consumption: < 0.5 W
Rated voltage: 230 V~
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	2062 U	2CKA001511A0115	1/10

[1] Use relay inserts when switching through movement sensors or comfort switches.
[2] For switching the LED flush mounted insert use switches without orientation light only.

Cover plate [1] [2]

As cover for flush-mounted info light.
For insert 2062 U.
Size of information field 43 x 43 mm.
Surface painted.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
stainless steel	**1716-866**	2CKA001731A1955	1

[1] Included with the cover are 46 different text labels and symbols.
[2] For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.

Cap for indication lamp

For indication lamps.

Self-adhesive, transparent for SCHUKO® socket outlets with hinged lid 20 EUK-xxx
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	2144 ST	2CKA001714A0298	10/1000

DIN A 4 labelling sheet [1]) plastic foil

Suitable for all to be labeled Busch-Jaeger devices.
For laser printer.
The text of the foil is printed via the Busch-Jeager labeling service.
Dimensions: (L x W x D): 297 mm

Colour	Type	Order code	Pack/Qty.
translucent	**1799/02**	2CKA001799A0959	1
transparent	**1799/03**	2CKA001799A0960	1

[1]) 1 piece = 1 sheet.

RC suppressor

For protection against the damage or destruction of electronic devices due to overvoltages.
For wiring network-interconnected inductivities (e.g.. relay, protection, fluorescent lamps, transformers, etc.).
Eliminates functional disturbances on electronic devices, e.g. automatic circuit reclosure (clocking) of a movement detector.
Dimensions: diameter 25 mm, length 35 mm, length of the connecting cable approx. 100 mm.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz

Colour	Type	Order code	Pack/Qty.
	6899	2CKA006899A0231	10

pure stainless steel
Cover frames

Cover frame [1]) 1gang frame

Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20
Dimensions: (L x W x D): 80 mm x 80 mm x 11 mm

Colour	Type	Order code	Pack/Qty.
stainless steel	**1721-866K-500**	2CKA001754A4500	10/100

[1]) Suitable for installation in trunking systems with 80 mm conduit.

Cover frame [1]) 2gang frame

For vertical or horizontal installation.
Material stainless steel.
Anti fingerprint.
Protection class (Device): IP 20
Dimensions: (L x W x D): 151 mm x 80 mm x 11 mm

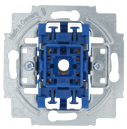
Rocker Switch Mechanism [1] Changeover/changeover circuit 16 A

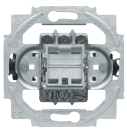


With screwless terminals.
Rated voltage: 250 V~
Rated current: 16 AX
Suitable for: LEDi / CFLi
Rated power: 200 W
Protection class (Device): IP 20. IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2400/6/6US-101-500	2CKA001022A0663	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Rocker Switch Mechanism [1] [2] DP, 1gang 1way

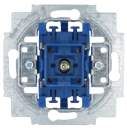


For switching high loads.
Rated voltage: 250 V~
Rated current: 16 AX
Suitable for: LEDi / CFLi
Rated power: 200 W
Protection class (Device): IP 20. IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2000/2 US-101-500	2CKA001012A2193	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] Also for switching SCHUKO® socket outlets.

Rocker Switch Mechanism [1] [2] 3-pole, 1gang 1way switch



Rated voltage: 400 V~
Rated current: 16 AX
Suitable for: LEDi / CFLi
Rated power: 200 W
Protection class (Device): IP 20
IEC 60669-1

Colour	Type	Order code	Pack/Qty.
	2000/3 US	2CKA001011A0816	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] With screw-type terminals. Non-illuminable.

Rocker Switch Mechanism [1]

With neon lamp.
Rated voltage: 250 V~
Rated current: 10 AX
Suitable for: LEDi / CFLi
Rated power: 100 W
Protection class (Device): IP 20
IEC 60669-1

Bluetooth Low Energy (BLE) smart switch complete set. Wall transmitter, 2/4 channels

Consisting of BLE smart switch insert 6716 UBT, 2gang rocker 6736 FoH-8xx for smart switches, 1gang future® linear cover frame, fixing plate and intermediate ring. Smarter light switch for wireless remote control of BLE radio devices. Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.

- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

Bluetooth Low Energy (BLE) smart switch insert.
Wall transmitter, 2 / 4 channel

For smart switch rockers 6735 BT-8xx and 6736 FoH-8xx.
- Smart switch for wireless remote control of radio components.
- Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.
- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Depending on the ecosystem, the wireless range is automatically extended via mains-powered BT mesh devices (repeater function).
- Encrypted transmission with AES-128 (CBC mode) and sequence counter.
- Contains NFC configuration interface according to NFC Forum Type 2 Tag (ISO/IEC 14443 Part 2 + 3).
- Therefore particularly simple commissioning of BLE radio components from Casambi.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

Dimmers

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
Flush-mounted, LED, 2-100 W

With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
Via mode switch adjustable between leading edge control and trailing edge control.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 250 W/VA (non-LED loads).
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	6523 U-102-500	2CKA006512A0335	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
UP, LED, 2-400 W

Very small installation depth: < 20 mm.
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (leading edge control) Nominal power: 2 - 400 W/VA (trailing edge control)

Dimmers

Busch-rotary dimmer [1])
Flush-mounted, DALI, tunable white

For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate. Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116 U	2CKA006599A3025	1

Dimmers

Control element, 1 gang, flex wireless

Tapping control element, 1gang. For the manual and automatic control of roller blinds, blinds, awnings, lighting and electric loads. Compatible with all free@ home flex inserts. Remote operation via the Bluetooth and smartphone/tablet app. Programming via Bluetooth with the ABB-free@home® app or via the web interface of the System Access Point. Timer with Astro function. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.

ABB flexTronics inserts

Relay insert flex, 1gang [1])

3 wire connection (neutral conductor required).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... .
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 2300 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 2300 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64811 U-500	2CKA006800A3042	1/10

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Relay insert flex, 2gang [1])

3 wire connection (neutral conductor required).
For switching lighting systems.
For switching two independent load circuits.
For controlling light and ventilation systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... .
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.

LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6]
FM, LED, 3-240 VA

2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Touch dimmer for switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum brightness. With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Rated power: 3-240 VA (LEDi)
Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Inputs: 1. Outputs: 1x dimming channel. Suitable for: 230 V LEDi, typical (leading edge control). Rated power: 3 - 100 VA. Suitable for: 230 V LEDi, typical (trailing edge control). Rated power: 3 - 240 W. Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1.

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

ABB flexTronics comfort switch sensor

Comfort switch flex sensor [1) 2)]

Movement detector push-button switch combination.
For switching lighting systems that depend on brightness and movement.
With select lens, prevents detection of smaller animal.
Push switch function possible at all times.
With notice LED when manual operation is necessary.
Extension of the detection range by main unit/ extension unit combination.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Additional activation/deactivation option via push-button input on the flush-mounted insert.
Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off.
Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off.
Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off.
With continuous light/continuous Off function.
Adjusting elements on rear side.
Surveillance density: 9 sectors with 28 switching segments.
Switch off delay: 1 to 10 min., adjustable.
Compatible with all ABB flexTronics inserts.
For relay insert flex, 1gang, 64811 U-500.
For relay insert flex, 2gang, 64821 U-500.
For e-contact insert flex, 1gang, 64814 U-500.
For LED touch dimmer insert flex, 1gang, 64851 U-500.
For extension insert flex, 64891 U-500.
Display elements: LED for status display.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 5 m, lateral: 3 m, at mounting height: 1.1 m.
Detection angle: 170°.
Brightness limit value: 5 Lux - daytime operation.
Operation mounting height: 0.8 m - 1.2 m.
Temperature range (Device): -5 °C to 45 °C.
Dimensions: (L x W x D): 63 mm x 63 mm x 28 mm.
Above the wall: 21 mm.

Busch-Watchdog 180 flex, basic sensor [1)] [2)] with select-lens

Movement detector sensor with with measurement of ambient light.
For automatic switching of devices dependent on motion and brightness.
Compatible with all free@home flex inserts.
Adjusting elements on rear side.
Extension of the detection range by means of master/ slave combination.
Additional activation/deactivation option via push-button input on the flush-mounted insert.
With detection display in test mode.
Surveillance density: 14 sectors with 56 switching segments.
Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable.
For relay insert flex, 1gang, 64811 U.
For e-contact insert flex, 1gang, 64814 U.
For series relay insert flex, 2gang, 64821 U.
For LED touch dimmer insert flex, 1gang, 64851 U.
For extension insert flex, 64891 U.
Mounting height: 22 mm.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 12 m, lateral: 12 m, Mounting height: 1.1 m. Detection angle: 180 °.
Brightness limit value: 5 Lux - 500 Lux Up to daytime operation.
Mounting height: 0.8 m - 1.2 m
Temperature range (Device): -5 °C to 45 °C.

Blind compact timer

Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Without extension unit input. Running time: 3 min
N-busbar connection is required.
For manual and time-controlled switching of blinds and roller blinds. Memory function for the simple storage of switching times. The controlled devices can be manually operated at any time. Simple setting via display with with segment display and background illumination.
Factory pre-set switching times, individual adaptations are possible. 2 switching times per day can be freely adjusted for each day of the week. Automatic switchover from summer time to winter time (switch-off function).
Switching times and programs are safely stored in the event of a mains power failure.
Power reserve for time and date > 10 years.
Simple toggling between manual/automatic/vacation modes. See the associated cover plates 6435-xx.
Programming possible only with control element attached and energized.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz. Outputs: 2x Normally open contact. Rated current: 3 A, cos ϕ 0.5. Rated power: 690 VA
Temperature range (Device): 0 °C to 45 °C

Data communication

Data-connection box, RJ 45, cat. 6a iso, shielded [1]) 1gang

With down-leading outlet and LSA self-cutting clamps.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Up to 500 MHz on all pairs of wires.
Suitable for 10-Gigabit Ethernet.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Flex cable entries from all sides without buckles.
Earthing of housing via 6,3 mm blade terminal at the back possible.
Re-embedded proofed.
Suitable for Mix-and-Match operation.
Suitable for RJ 11, RJ 12 und RJ 45.
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Without claws. Mounting depth: 31 mm.
Protection class (Device): IP 20

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

Flush-mounted assembly adapter

For the accommodation of one or two universal modules 0219.
For flush-mounted installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/12	2CKA000230A0395	1/10

Channel assembly adapter

For the accommodation of one or two universal modules 0219.
For channel and under-floor installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/13	2CKA000230A0396	1/10

Data communication

Universal module, RJ 45, cat. 6a iso, shielded [1]) 1gang

For installation in installation adapter 0219/12 or 0219/13.
Also suited for mounting into cover plate 2561-xxx, 2564-02-xxx and bases 1812, 1866 EB, and 1867 EB.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Cat. 6A according to ISO/IEC 11801: 2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Bend-radius optimised cable feed (30°).
Earthing of housing via 6,3 mm blade terminal at the back possible.
Re-embedded proofed.
Suitable for Mix-and-Match operation.
For 8-pole plug RJ 45 only.
Housing made from diecast zinc.
With integrated dust-protection cap (can be removed if necessary).
With insulation displacement connection
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219-101	2CKA000230A0413	1/10

[1]) With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

Modular-Jack insert 6-pole Cat. 3 (AMP-No. 216000-2)

For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in.
For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).
Protection class (Device): IP 20

Multimedia / communication adapters

Busch-Radio DAB+ [1])

DAB+ and RDS stereo radio alarm clock for flush-mounted installation.
With high-resolution colour display for showing additional information.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With individual alarm and snooze function.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Control/Signal outputs: 2, Loudspeaker output, impedance 4 Ohm
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	8215 U-101-500	2CKA008200A0276	1/10

[1]) No claw. Screw-fixing via keyholes.

Busch-Radio BTconnect DAB+ [1])
With Bluetooth interface for music replay

DAB+ and RDS stereo radio alarm clock for flush-mounted installation.
With high-resolution colour display for showing additional information.
With Bluetooth interface for music replay of mobile devices.
Connection of external Bluetooth loudspeakers possible.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With individual alarm and snooze function.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Bluetooth specification: 4.2.
Bluetooth profiles supported: A2DP
Number of stored Bluetooth connections: max. 8
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm

USB power adapter insert, flush-mounted [1] [2] With USB-A & USB-C interface

For supply and support of mobile devices via USB-cable.
With USB type A and USB type C female connector.
To support two devices at the same time.
Supports automatic negotiating of optimum charging parameters for the shortest charging times.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the additional quick-charge protocols: USB-PD and quick-charge 3.0 & 4.0.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Outputs: 2x USB charging interface
Suitable for: Only USB-A bus occupied:
Rated current: 3000 mA
Output voltage: 5 V-
Suitable for: Only USB-C bus occupied:
Rated power: 18 W
Suitable for: USB-A and USB-C bus occupied. Total:
Rated current: 3250 mA
Output voltage: 5 V-
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 43 mm
Mounting depth: 32 mm

65 W power adapter insert, flush-mounted [1] [2] with USB-C interface

NEW

For power and charge of mobile devices via USB-C cable.
With USB type C female connector. Supports high power and automatic negotiating of optimum charging parameters for the shortest charging times.
Support of charging protocols: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the Qualcomm quick charge protocols: QC 2.0, 3.0, 4.0 and 5.
Support of USB PD (power delivery): 3.1 incl. PPS (programmable power supply).
Support of manufacturer specific protocolls: Samsung AFC and Huawei FCP (with 20 W).
With electronic short-circuit protection.
With electronic overload protection.
Fitting cover plate: 6479-...-500.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Power loss: < 75 mW
Outputs: 1x USB-C charging interface
Rated power: 65 W
Output voltage: 5 V, 9 V, 12 V, 15 V, 20.0 V DC
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 44 mm
Mounting depth: 32 mm

LED light

Info light unit [1] [2]

Size of information field 43 x 43 mm.
Long service life of the lighting element (LEDs).
Homogeneous backlighting of the information field.
Colour temperature 6,500 K (cold white)
Power consumption: < 0.5 W
Rated voltage: 230 V~
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	2062 U	2CKA001511A0115	1/10

[1] Use relay inserts when switching through movement sensors or comfort switches.
[2] For switching the LED flush mounted insert use switches without orientation light only.

Cover plate [1] [2]

As cover for flush-mounted info light.
For insert 2062 U.
Size of information field 43 x 43 mm.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
ivory white	**1716-82**	2CKA001731A1922	1
studio white	**1716-84**	2CKA001731A1923	1

[1] Included with the cover are 46 different text labels and symbols.
[2] For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.
[3] Surface painted.

Cap for indication lamp

For indication lamps.
Protection class (Device): IP 20

	2144 KI	2CKA001714A0296	10/1000
	key		
	2144 TR	2CKA001714A0297	10/1000

Braille symbol socket outlet

Self-adhesive, transparent for SCHUKO® socket outlets with hinged lid 20 EUK-xxx
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	2144 ST	2CKA001714A0298	10/1000

DIN A 4 labelling sheet [1]) plastic foil

Suitable for all to be labeled Busch-Jaeger devices.
For laser printer.
The text of the foil is printed via the Busch-Jeager labeling service.
Dimensions: (L x W x D): 297 mm

Colour	Type	Order code	Pack/Qty.
translucent	**1799/02**	2CKA001799A0959	1
transparent	**1799/03**	2CKA001799A0960	1

[1]) 1 piece = 1 sheet.

RC suppressor

For protection against the damage or destruction of electronic devices due to overvoltages.
For wiring network-interconnected inductivities (e.g.. relay, protection, fluorescent lamps, transformers, etc.).
Eliminates functional disturbances on electronic devices, e.g. automatic circuit reclosure (clocking) of a movement detector.
Dimensions: diameter 25 mm, length 35 mm, length of the connecting cable approx. 100 mm.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz

Colour	Type	Order code	Pack/Qty.
	6899	2CKA006899A0231	10

solo®
Cover frames

Cover frame [1]) 1gang frame

For vertical or horizontal installation.
Protection class (Device): IP 20
Dimensions: (L x W x D): 87 mm x 87 mm x 11 mm

Colour	Type	Order code	Pack/Qty.
chrome	**1721-80-500**	2CKA001754A4535	10/100

Notes

Busch-axcent®
Individuality with an accent.

Express yourself. Enjoy freedom with bright colours and high gloss surfaces. Such choice brings joy. Each room can have accessories in a different colour, each room can have a different personality. Straight lines and bold edges perfectly correspond with the modern style of furnishing. Primary colours can be used as a colour-key for quick and efficient organisation of appliances and equipment.

Comprising Friends of Hue smart switch insert

Comprising 2gang rocker 6736 FoH-8xx for Friends of Hue smart switch. Consisting of 1gang future® linear cover frames. Comprising fixing plate and intermediate ring. Smarter light switches for wireless remote control of Philips Hue lamps For switching and dimming of Philips Hue lamps. For saving, calling up and dimming of a maximum of 2 individual light scenes. Without battery and maintenance-free due to >Energy harvesting<.
Can be mounted freely in the room with the enclosed adhesive tape and fixing plate. Requires Philips Hue Bridge (2nd generation square construction type) and Philips Hue app (Version 3.2 or higher). Maximum safety of function by means of Zigbee-Mesh technology.

Colour	Type	Order code	Pack/Qty.

Friends of Hue smart switch insert
Wall-mounted transmitter, 2 / 4 channel

For smart switch rockers 6735 BT-8xx and 6736 FoH-8xx. Smarter light switches for wireless remote control of Philips Hue lamps. For switching and dimming of Philips Hue lamps. For saving, calling up and dimming of a maximum of 2 individual light scenes. Without battery and maintenance-free due to >Energy harvesting<. Requires Philips Hue Bridge (2nd generation square construction type) and Philips Hue app (Version 3.2 or higher). Maximum safety of function by means of Zigbee-Mesh technology. Combinable with the Busch-Jaeger switch ranges: carat®,carat® flat, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent®, Busch-axcent® pur and future® linear. Can be mounted freely in the room with the enclosed adhesive tape and fixing plate. Including fixing plate for mounting on smooth walls or on switch boxes.

Colour	Type	Order code	Pack/Qty.

Bluetooth Low Energy (BLE) smart switch complete set. Wall transmitter, 2/4 channels

Consisting of BLE smart switch insert 6716 UBT, 2gang rocker 6736 FoH-8xx for smart switches, 1gang future® linear cover frame, fixing plate and intermediate ring. Smarter light switch for wireless remote control of BLE radio devices. Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.
- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

Busch-axcent®

Rocker switches / push switches

Bluetooth Low Energy (BLE) smart switch insert. Wall transmitter, 2 / 4 channel

For smart switch rockers 6735 BT-8xx and 6736 FoH-8xx.
- Smart switch for wireless remote control of radio components.
- Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.
- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Depending on the ecosystem, the wireless range is automatically extended via mains-powered BT mesh devices (repeater function).
- Encrypted transmission with AES-128 (CBC mode) and sequence counter.
- Contains NFC configuration interface according to NFC Forum Type 2 Tag (ISO/IEC 14443 Part 2 + 3).
- Therefore particularly simple commissioning of BLE radio components from Casambi.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

Smart Switch, WL NEW

Smarter light-/blind switch for wireless control of Busch-flexTronics® wireless and Busch-free@home® devices.
Wall-mounted transmitter, 2/4 channels.
Operation in ABB-flexTronics® wireless with up to 32 devices (room control).
Integration in ABB-free@home® wireless with System Access Point up to 150 devices.
At least one ABB-flexTronics® wireless device or an ABB-free@home® wireless device which serves as proxy device is required.
Programming with the ABB-free@home® Next App.
Smartphone with NFC required.
Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generat-ed when switching (energy harvesting).
Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.
Including fixing plate for mounting on smooth walls or on switch boxes.
Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.

Busch-axcent®
Dimmers

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
Flush-mounted, LED, 2-100 W

With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
Via mode switch adjustable between leading edge control and trailing edge control.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 250 W/VA (non-LED loads).
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	6523 U-102-500	2CKA006512A0335	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
UP, LED, 2-400 W

Very small installation depth: < 20 mm.
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (leading edge control) Nominal power: 2 - 400 W/VA (trailing edge control)

Busch-axcent®
Dimmers

Busch-rotary dimmer [1] [2] [3] [4] flush mounted, 1-10V

With rotary control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control gears
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 700 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	2112 U-101-500	2CKA006599A2873	1/10

[1] Non-illuminable.
[2] Use cover plates 2115 J-.../2115-.../6540-... .
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Making-current limiters have to be provided in case of too high making currents.

Busch-rotary dimmer [1]
Flush-mounted, DALI, tunable white

For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. Fool proved. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Max. current consumption: 15 mA. Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate. Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116 U	2CKA006599A3025	1

Busch-rotary dimmer [1] Flush-mounted, DALI, with internal power supply, tunable white

For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. With electronic short-circuit protection. With electronic overload protection. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA. Power consumption: < 2,5 W
Number of DALI-units: 37 in case of one active power-potentiometer in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116/11 U	2CKA006599A3026	1

Busch-axcent®

Dimmers

Busch-rotary dimmer [1]) Flush-mounted, DALI, with internal power supply, tunable white

Busch-rotary dimmer [1])
flush mounted, DALI
For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
An additional DALI power supply is needed, e.g. by Tridonic, Philips, Helvar or 2117/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Busch-axcent®

ABB flexTronics comfort switch sensor

Comfort switch flex sensor [1) 2)]

Movement detector push-button switch combination.
For switching lighting systems that depend on brightness and movement.
With select lens, prevents detection of smaller animal.
Push switch function possible at all times
With notice LED when manual operation is necessary.
Extension of the detection range by main unit/ extension unit combination.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Additional activation/deactivation option via push-button input on the flush-mounted insert.
Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off.
Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off.
Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off.
With continuous light/continuous Off function.
Adjusting elements on rear side.
Surveillance density: 9 sectors with 28 switching segments.
Switch off delay: 1 to 10 min., adjustable.
Compatible with all ABB flexTronics inserts.
For relay insert flex, 1gang, 64811 U-500.
For relay insert flex, 2gang, 64821 U-500.
For e-contact insert flex, 1gang, 64814 U-500.
For LED touch dimmer insert flex, 1gang, 64851 U-500.
For extension insert flex, 64891 U-500.
Display elements: LED for status display.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 5 m, lateral: 3 m, at mounting height: 1.1 m.
Detection angle: 170°.
Brightness limit value: 5 Lux - daytime operation.
Operation mounting height: 0.8 m - 1.2 m.
Temperature range (Device): -5 °C to 45 °C.
Dimensions: (L x W x D): 63 mm x 63 mm x 28 mm.
Above the wall: 21 mm.

Mounting height: 22 mm.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 12 m, lateral: 12 m, Mounting height: 1.1 m.
Detection angle: 180°.
Brightness limit value: 5 Lux - 500 Lux Up to daytime operation.
Mounting height: 0.8 m - 1.2 m.
Temperature range (Device): -5 °C to 45 °C.
Dimensions: (L x W x D): 63 mm x 63 mm x 35 mm

Busch-axcent®

ABB flexTronics movement detector sensors

Busch-Watchdog 180 flex, comfort sensor [1] [2] with select-lens

Movement detector sensor with with measurement of ambient light.
For automatic switching of devices dependent on motion and brightness.
Push switch function possible at all times.
In combination with dimmer insert flex: dimming function of lighting and selectable light value storage.
With enabling of pre-warning of switch-off for stairwell operation.
Compatible with all free@home flex inserts.
Adjusting elements on rear side.
Extension of the detection range by means of master/slave combination.
Additional activation/deactivation option via push-button input on the flush-mounted insert.
With continuous light/continuous Off function.
With detection display in test mode.
Surveillance density: 14 sectors with 56 switching segments.
Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable.
For relay insert flex, 1gang, 64811 U.
For e-contact insert flex, 1gang, 64814 U.
For series relay insert flex, 2gang, 64821 U.
For LED touch dimmer insert flex, 1gang, 64851 U.
For extension insert flex, 64891 U.
Mounting height: 22 mm.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 12 m, lateral: 12 m, Mounting height: 1.1 m
Detection angle: 180 °
Brightness limit value: 5 Lux - 500 Lux Up to daytime operation
Mounting height: 0.8 m - 1.2 m

Busch-axcent®

ABB flexTronics movement detector sensors

Busch-Watchdog 180 flex, comfort sensor [1] [2] with multi-lens

Movement detector sensor with with measurement of ambient light.
For automatic switching of devices dependent on motion and brightness.
Push switch function possible at all times.
For detection down to the floor.
For detection in stairwells.
With 4 detection levels.
In combination with dimmer insert flex: dimming function of lighting and selectable light value storage.
With enabling of pre-warning of switch-off for stairwell operation.
Compatible with all free@home flex inserts.
Adjusting elements on rear side.
Multi-lens: suitable also for mounting heights of 2.20 m.
Extension of the detection range by means of master/slave combination.
Additional activation/deactivation option via push-button input on the flush-mounted insert.
With continuous light/continuous Off function.
With detection display in test mode.
Surveillance density: 54 sectors with 224 switching segments.
Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable.
For relay insert flex, 1gang, 64811 U.
For e-contact insert flex, 1gang, 64814 U.
For series relay insert flex, 2gang, 64821 U.
For LED touch dimmer insert flex, 1gang, 64851 U.
For extension insert flex, 64891 U.
Mounting height: 31 mm.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 8 m, lateral: 7 m, Mounting height: 1.1 m
Detection range 2: frontal: 8 m, lateral: 8 m, Mounting height: 2.2 m
Detection angle: 180 °

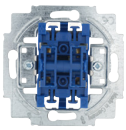
Busch-axcent®

Blind control / timers

Key Switch Insert [1] [2] [3] breaking circuit, 1-pole

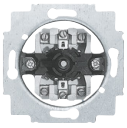


For profile semi-cylindrical lock.
In switched-on and switched-off status the key can be pulled out in the central position, respectively.
Delivered without cylindrical lock.
Rated voltage: 250 V~. Rated current: 10 AX
Suitable for: LEDi / CFLi. Rated power: 100 W
Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1

Colour	Type	Order code	Pack/Qty.
	2733 USL-101	2CKA001101A0914	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		
delivery form:	Adapter plate APBS to be ordered separate.		

[1] For installation on British Standard wallboxes please use adapter plate APBS (6599-0-2813). (Depth of box 60 mm.)
[2] Use the cylindrical lock according to the enclosed drawing.
[3] See profile semi-cylindrical lock.

Blind switch insert [1] [2] SP, switch



With interlock.
Rated voltage: 250 V~
Rated current: 10 AX
Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1

Colour	Type	Order code	Pack/Qty.

Blind compact timer

Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off.
Without extension unit input.
Running time: 3 min
N-busbar connection is required.
For manual and time-controlled switching of blinds and roller blinds.
Memory function for the simple storage of switching times.
The controlled devices can be manually operated at any time.
Simple setting via display with with segment display and background illumination.
Factory pre-set switching times, individual adaptations are possible.
2 switching times per day can be freely adjusted for each day of the week.
Automatic switchover from summer time to winter time (switch-off function).
Switching times and programs are safely stored in the event of a mains power failure.
Power reserve for time and date > 10 years.
Simple toggling between manual/automatic/vacation modes.
See the associated cover plates 6435-xx.
Programming possible only with control element attached and energized.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Outputs: 2x Normally open contact
Rated current: 3 A, cos ϕ 0.5
Rated power: 690 VA
Temperature range (Device): 0 °C to 45 °C

Busch-axcent®
Socket outlets

SCHUKO® USB socket outlet, 2gang [1] [2] [3] shuttered

For connecting electric loads.
DP (2 P + E)
With screwless terminals.
For supply and support of mobile devices via USB-cable.
With 1x USB type A and 1x USB type C outputs.
Simultaneous charging via USB connection and use of the SCHUKO® socket outlet.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of loading protocol on the USB-C connection: USB-PD till 3 A, Apple MFI till 2.4 A and BC 1.2 with 1.5 A.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 230 V AC
Rated frequency: 50 Hz / 60 Hz
Power dissipation: < 75 mW
Rated current: 16 A
Outputs: 2x USB charging interface
Output voltage: 5 V DC
Rated power: 15 W
Suitable for: In case one output is used:
USB-A port: Max. current 2.4 A.
USB-C port: Max. current 3 A*
*3 A requires approved charging cables.
Protection class (Device): IP 20, SELV
Temperature range (Device): 5 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 58 mm
Mounting depth: 39.5 mm

Busch-axcent®
Socket outlets

USB socket outlet earthing pin, 2gang [1] [2] [3] shuttered

For connecting electric loads.
DP (2 P + E)
With screwless terminals.
For supply and support of mobile devices via USB-cable.
With 1x USB type A and 1x USB type C outputs.
Simultaneous charging via USB connection and use of the pin earth socket outlet.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of loading protocol on the USB-C connection: USB-PD till 3 A, Apple MFI till 2.4 A and BC 1.2 with 1.5 A.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 230 V AC
Rated frequency: 50 Hz / 60 Hz
Power dissipation: < 75 mW
Rated current: 16 A
Outputs: 2x USB charging interface
Output voltage: 5 V DC
Rated power: 15 W
Suitable for: In case one output is used:
USB-A port: Max. current 2.4 A.
USB-C port: Max. current 3 A*
*3 A requires approved charging cables.
Protection class (Device): IP 20, SELV
Temperature range (Device): 5 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 58 mm
Mounting depth: 39.5 mm

	0215	2CKA000230A0243	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		

[1]) Suitable for cover plate 1803-02-xxx.

Data-connection box, RJ 45, cat. 6a iso, shielded [1]) 1gang

With down-leading outlet and LSA self-cutting clamps.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Up to 500 MHz on all pairs of wires.
Suitable for 10-Gigabit Ethernet.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Flex cable entries from all sides without buckles.
Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed.
Suitable for Mix-and-Match operation.
Suitable for RJ 11, RJ 12 und RJ 45.
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems. Without claws.
Mounting depth: 31 mm.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0218/11-101	2CKA000230A0409	1/10

Flush-mounted assembly adapter

For the accommodation of one or two universal modules 0219.
For flush-mounted installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/12	2CKA000230A0395	1/10

Channel assembly adapter

For the accommodation of one or two universal modules 0219. For channel and under-floor installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/13	2CKA000230A0396	1/10

Universal module, RJ 45, cat. 6a iso, shielded [1] 1gang

For installation in installation adapter 0219/12 or 0219/13. Also suited for mounting into cover plate 2561-xxx, 2564-02-xxx and bases 1812, 1866 EB, and 1867 EB.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Cat. 6A according to ISO/IEC 11801: 2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Bend-radius optimised cable feed (30°).
Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed.
Suitable for Mix-and-Match operation.
For 8-pole plug RJ 45 only.
Housing made from diecast zinc.
With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems. Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219-101	2CKA000230A0413	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

Modular-Jack insert 6-pole Cat. 3 (AMP-No. 216000-2)

For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in.
For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).

Multimedia / communication adapters

Busch-Radio DAB+ [1])

DAB+ and RDS stereo radio alarm clock for flush-mounted installation.
With high-resolution colour display for showing additional information.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With individual alarm and snooze function.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Control/Signal outputs: 2, Loudspeaker output, impedance 4 Ohm
Rated power: 2 W (RMS)

Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	8215 U-101-500	2CKA008200A0276	1/10

[1]) No claw. Screw-fixing via keyholes.

Multimedia / communication adapters

Busch-Radio BTconnect DAB+ [1])
With Bluetooth interface for music replay.

DAB+ and RDS stereo radio alarm clock for flush-mounted installation. With high-resolution colour display for showing additional information.
With Bluetooth interface for music replay of mobile devices. Connection of external Bluetooth loudspeakers possible.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With individual alarm and snooze function.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Bluetooth specification: 4.2.
Bluetooth profiles supported: A2DP
Number of stored Bluetooth connections: max. 8
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 2 W (RMS)

Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm

USB power adapter insert, flush-mounted [1]) [2])
With USB-A & USB-C interface

For supply and support of mobile devices via USB-cable.
With USB type A and USB type C female connector.
To support two devices at the same time.
Supports automatic negotiating of optimum charging parameters for the shortest charging times.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the additional quick-charge protocols: USB-PD and quick-charge 3.0 & 4.0.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Outputs: 2x USB charging interface
Suitable for: Only USB-A bus occupied:
Rated current: 3000 mA
Output voltage: 5 V-
Suitable for: Only USB-C bus occupied:
Rated power: 18 W

Suitable for: USB-A and USB-C bus occupied. Total:
Rated current: 3250 mA
Output voltage: 5 V-
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 43 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	6475 U-500	2CKA006400A0399	1

[1]) No claw. Screw-fixing via keyholes.
[2]) No data transfer.

65 W power adapter insert, flush-mounted [1]) [2])
with USB-C interface NEW

For power and charge of mobile devices via USB-C cable.
With USB type C female connector. Supports high power and automatic negotiating of optimum charging parameters for the shortest charging times.
Support of charging protocols: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the Qualcomm quick charge protocols: QC 2.0, 3.0, 4.0 and 5.
Support of USB PD (power delivery): 3.1 incl. PPS (programmable power supply).
Support of manufacturer specific protocolls: Samsung AFC and Huawei FCP (with 20 W).
With electronic short-circuit protection.
With electronic overload protection.
Fitting cover plate: 6479-...-500.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Power loss: < 75 mW
Outputs: 1x USB-C charging interface
Rated power: 65 W
Output voltage: 5 V, 9 V, 12 V, 15 V, 20.0 V DC
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 44 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	6479 U-500	2CKA006400A0437	1

[1]) No claw. Screw-fixing via keyholes.
[2]) No data transfer.

Busch-axcent®

Multimedia / communication adapters

HDMI connection unit [1] with screw-type terminals and strain relief

Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link high-definition digital audio and video data from e.g. SAT-receiver, DVD-/Blue-Ray-player to plasma-type, LCD- or-LED-TVs/screens.
HDMI-type A, 3D-compatible.
Fully HD ready (1920 x 1080 pixel).
For 20-wire HDMI-cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems.
For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended.
Without cover plate.
Without claws.
Protection class (Device): IP 20
Mounting depth: 34 mm

Colour	Type	Order code	Pack/Qty.
white	**0261/31-500**	2CKA000230A0430	1

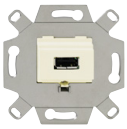
alpine white	**0261/32-500**	2CKA000230A0431	1

[1] Please follow the recommendations of the cable and device producers for the max. HDMI cable lengths.

VGA connection unit [1] with screw-type terminals and strain relief



Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link analogue video data between PCs and laptops to monitors or digital projectors etc.
VGA-type: D-type, 15-pole.
Fully HD ready (1920 x 1080 pixel).
For 15-wire VGA-cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems.
For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended.
Without cover plate.
Without claws.
Protection class (Device): IP 20
Mounting depth: 34 mm

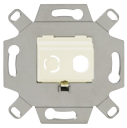
[1] Please follow the recommendations of the cable and device producers for the max. VGA cable lengths.

USB connection unit [1] with screw-type terminals and strain relief



Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link mobile devices like e.g. printer, scanner, USB-sticks or digital cameras etc.
USB-type A, USB 2.0 compatible.
For 5-wire USB- cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems.
For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended.
Without cover plate. Without claws.
Protection class (Device): IP 20
Mounting depth: 34 mm

Colour	Type	Order code	Pack/Qty.
white	**0261/11-500**	2CKA000230A0418	1

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2]) Servo valves of "closed or open when de-energized" design are required for the controller. E.g. article no. 6164/10-101.

Room Thermostat

NEW

Electronic room thermostat, open contact, fm
Normally open contact, non-isolated. Switch contact opens when the set temperature is reached. Without fixing claws. Separate terminal to activate eco mode to reduce the room temperature by 3K.
See respective cover plates 1794 R-xx. Class of temperature controller 1. Contribution to space heating energy efficiency 1,0%. Rated voltage: 230 V~. Power dissipation: ≤ 0,15 W. Rated current: 10 A. Temperature range (device): 5 °C - 30 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mm. Protection class device: IP 20. Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete. Servo-valves, "de-energised open", are necessary for connection to thermostat. e.g. Article No. 6164/10-102. Switching temperature difference: ± 0.5 K

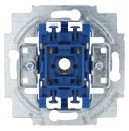
[1] With 1 mA neon lamp.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[3] Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

Rocker Switch Mechanism, control [1] [2] [3]
Switch-off and two-way circuit with N-clamp 16 A



With neon lamp.
Rated voltage: 250 V~
Rated current: 16 AX
Suitable for: LEDi / CFLi
Rated power: 200 W
Protection class (Device): IP 20. IEC 60669-1

Colour	Type	Order code	Pack/Qty.
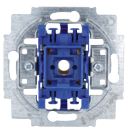
	2400/6 USK-500	2CKA001022A0661	10

[1] With 1 mA neon lamp.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[3] Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

Push-switch mechanism [1]
SP, with normally open contact (operating current)



With N terminal.
Rated voltage: 250 V~
Rated current: 10 A
Protection class (Device): IP 20
IEC 60669-1

	6716 U-500	2CKA006710A0014	1

Bluetooth Low Energy (BLE) smart switch complete set. Wall transmitter, 2/4 channels

Consisting of BLE smart switch insert 6716 UBT, 2gang rocker 6736 FoH-8xx for smart switches, 1gang future® linear cover frame, fixing plate and intermediate ring.
Smarter light switch for wireless remote control of BLE radio devices. Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.
- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

future® linear

Rocker switches / push switches

Bluetooth Low Energy (BLE) smart switch insert. Wall transmitter, 2 / 4 channel

For smart switch rockers 6735 BT-8xx and 6736 FoH-8xx.
- Smart switch for wireless remote control of radio components.
- Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.
- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Depending on the ecosystem, the wireless range is automatically extended via mains-powered BT mesh devices (repeater function).
- Encrypted transmission with AES-128 (CBC mode) and sequence counter.
- Contains NFC configuration interface according to NFC Forum Type 2 Tag (ISO/IEC 14443 Part 2 + 3).
- Therefore particularly simple commissioning of BLE radio components from Casambi.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

Dimmers

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
Flush-mounted, LED, 2-100 W

With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
Via mode switch adjustable between leading edge control and trailing edge control.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 250 W/VA (non-LED loads).
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
UP, LED, 2-400 W

Very small installation depth: < 20 mm.
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (leading edge control) Nominal power: 2 - 400 W/VA (trailing edge control)

Colour	Type	Order code	Pack/Qty.
	6523 UR-104-500	2CKA006512A0354	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.

future® linear
Dimmers

Busch-rotary dimmer [1] [2] [3] [4] flush mounted, 1-10V

With rotary control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control gears
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 700 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	2112 U-101-500	2CKA006599A2873	1/10

[1] Non-illuminable.
[2] Use cover plates 2115 J-.../2115-.../6540-... .
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Making-current limiters have to be provided in case of too high making currents.

Busch-rotary dimmer [1]
Flush-mounted, DALI, tunable white

For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116 U	2CKA006599A3025	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-rotary dimmer [1] Flush-mounted, DALI, with internal power supply, tunable white

For DALI broadcast service (via central telegram).
With integrated DALI power adaptor. For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K. With electronic short-circuit protection.
With electronic overload protection. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116/11 U	2CKA006599A3026	1

LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6] FM, LED, 3-240 VA

2-wire connection (neutral conductor not required).
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
Touch dimmer for switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum brightness.
With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without control cover.
For control element flex, 1gang, 64711.
For control element flex, 2gang, 64721.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Rated power: 3-240 VA (LEDi).
Rated voltage: 230 V~, +10 % / -10 %.
Rated frequency: 50 Hz.
Inputs: 1. Outputs: 1x dimming channel.
Suitable for: 230 V LEDi, typical (leading edge control).
Rated power: 3 - 100 VA.
Suitable for: 230 V LEDi, typical (trailing edge control).
Rated power: 3 - 240 W.
Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer.
Rated power: 10 - 240 VA.
Temperature range (Device): -5 °C to 45 °C.
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm.
Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1

Proximity switch

3 wire connection (neutral conductor required).
Relay insert with proximity sensor.
For contactless ON/OFF switching of electric loads, e.g. lights.
For switching incandescent lamps, 230 V tungsten halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are actuated via transformers.
Switches when detecting an approach at < approx. 5 cm.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V incandescent lamps, 230 V halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are operated via transformers.
Rated current: 10 AX
Rated power: 2300 W/VA
Temperature range (Device): -25 °C to 55 °CBritish Standard EN 60669-2-1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

e-contact insert flex, 1gang [1] [2]

2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 3 - 240 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 10 - 240 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 3 - 240 VA
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64814 U-500	2CKA006800A3048	1

[1] Use only dimmable high-voltage LEDs.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

future® linear

ABB flexTronics inserts

LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6] FM, LED, 3-240 VA

2-wire connection (neutral conductor not required).
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
Touch dimmer for switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum brightness.
With light-level memory and minimum brightness memory.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Rated power: 3-240 VA (LEDi).
Rated voltage: 230 V~, +10 % / -10 %.
Rated frequency: 50 Hz.
Inputs: 1.
Outputs: 1x dimming channel.
Suitable for: 230 V LEDi, typical (leading edge control).
Rated power: 3 - 100 VA.
Suitable for: 230 V LEDi, typical (trailing edge control).
Rated power: 3 - 240 W.
Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer.
Rated power: 10 - 240 VA.Temperature range (Device): -5 °C to 45 °C.
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm.
Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Extension insert flex [1]

3 wire connection (neutral conductor required).
For the extension of the Busch-Comfort switch or presence detector installations.
For group control of flex inserts via extension unit communication.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with all flex inserts.
Rated voltage: 230 V~, +10 % / -10 %.
Rated frequency: 50 Hz.
Control/Signal outputs: 1, electronic output, potential-bound.
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm.
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64891 U-500	2CKA006800A3051	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

future® linear

ABB flexTronics comfort switch sensor

Busch-Comfort switch flex sensor [1) 2)]

Movement detector push-button switch combination.
For switching lighting systems that depend on brightness and movement.
With select lens, prevents detection of smaller animal.
Push switch function possible at all times.
With notice LED when manual operation is necessary.
Extension of the detection range by main unit/ extension unit combination.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Additional activation/deactivation option via push-button input on the flush-mounted insert.
Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off.
Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off.
Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off.
With continuous light/continuous Off function.
Adjusting elements on rear side.
Surveillance density: 9 sectors with 28 switching segments.
Switch off delay: 1 to 10 min., adjustable.
Compatible with all ABB flexTronics inserts.
For relay insert flex, 1gang, 64811 U-500.
For relay insert flex, 2gang, 64821 U-500.
For e-contact insert flex, 1gang, 64814 U-500.
ForLED touch dimmer insert flex, 1gang, 64851 U-500.
For extension insert flex, 64891 U-500.
Display elements: LED for status display.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 5 m, lateral: 3 m, at mounting height: 1.1 m.
Detection angle: 170°.
Brightness limit value: 5 Lux - daytime operation
Operation mounting height: 0.8 m - 1.2 m.
Temperature range (Device): -5 °C to 45 °C.
Dimensions: (L x W x D): 63 mm x 63 mm x 28 mm.
Above the wall: 21 mm.

Busch-Comfort switch flex [1) 2)]
Complete set with comfort switch sensor and relay insert

Ready-to-install movement detector push-button switch combination (set packaging). Consisting of Busch-Comfort switch flex sensor, 64765-84-500.
Consisting of relay insert flex, 1gang, 64811 U-500.
Consisting of future® linear cover frames, 1gang 1721-184K-500.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Display elements: LED for status display.
Rated voltage: 230 V~, +10 % / -10 %.
Rated frequency: 50 Hz. Power dissipation: 0,3 W.
Outputs: 1x normally open contact, potential-bound.
Suitable for: 230 V- LEDi, typical.
Rated power: 300 VA.
Suitable for: 230 V incandescent lamps / 230 V halogen lamps.
Rated power: 2300 W.
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 2300 VA.
Rated current: 10 A.
Suitable for: Fluorescent lamps.
Rated output: 2300 VA
Rated current: 10 AX, cos ϕ0.9.
Detection range: frontal: 5 m, lateral: 3 m, at mounting height: 1.1 m.
Detection angle: 170°.
Brightness limit value: 5 Lux - daytime operation
Operation mounting height: 0.8 m - 1.2 m
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 85 mm x 85 mm x 46 mm
Mounting depth: 25 mm

ABB flexTronics movement detector sensors

Busch-Watchdog 180 flex, comfort sensor wireless [1] [2] with select-lens

Movement detector sensor with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Push switch function possible at all times. ./. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With time-controlled basic illumination function. With time-controlled night anti-glare function. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flex inserts. Works with free@home. Remote operation via the Bluetooth and smartphone/tablet app. Programming via Bluetooth with the ABB-free@home® app or via the web interface of the System Access Point. Extension of the detection range by means of master/slave combination. Timer with Astro function. Automatic switchover from summer time to winter time (switch-off function). With continuous light/continuous Off function. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode. Surveillance density: 14 sectors with 56 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. For relay insert flex, 1gang, 64811 U. For e-contact insert flex, 1gang, 64814 U. For series relay insert flex, 2gang, 64821 U. For LED touch dimmer insert flex, 1gang, 64851 U.

ABB flexTronics movement detector sensors

Busch-Watchdog 180 flex, comfort sensor wireless [1] [2] with multi-lens

Movement detector sensor with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Push switch function possible at all times. For detection down to the floor. For detection in stairwells. With 4 detection levels. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With time-controlled basic illumination function. With time-controlled night anti-glare function. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flex inserts. Remote operation via the Bluetooth and smartphone/tablet app. Multi-lens: suitable also for mounting heights of 2.20 m. Extension of the detection range by means of master/slave combination. Timer with Astro function. Automatic switchover from summer time to winter time (switch-off function). With continuous light/continuous Off function. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode.Surveillance density: 54 sectors with 224 switching segments.
Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable.
For relay insert flex, 1gang, 64811 U.
For e-contact insert flex, 1gang, 64814 U.
For series relay insert flex, 2gang, 64821 U.

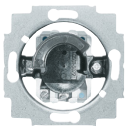
[3] Surface painted.

Busch-Watchdog 180 flex wireless [1] [2]Complete set with Comfort sensor multi-lens and relay insert



Ready-to-install movement detector for flush-mounted installation (set packaged).
Consisting of Busch-Watchdog 180 flex comfort sensor wireless with multi-lens 62764-84-WL-500.
Consisting of relay insert flex, 1gang, 64811 U-500.
Consisting of future® linear cover frames, 1gang 1721-184K-500.
Rated voltage: 230 V~
Rated frequency: 50 Hz.
Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical, rated power: 300 VA.
Suitable for: 230 V incandescent lamps/230 V halogen lamps, rated power: 2300 W.
Suitable for: Low voltage halogen lamps that are operated via transformers, rated power: 2300 VA.
Detection range: frontal: 8 m, lateral: 7 m, Mounting height: 1.1 m.
Detection range: frontal: 8 m, lateral: 8 m, Mounting height: 2.2 m.
Detection angle: 180 °.
Brightness limit value: 5 Lux - 500 Lux up to daytime operation.
Mounting height: 0.8 m - 1.2 m, alternative: 2.2 m.
Temperature range (Device): -5 °C to 45 °C.
Dimensions: (L x W x D): 80 mm x 80 mm x 57 mm.
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.

Blind compact timer

Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off.
Without extension unit input.
Running time: 3 min
N-busbar connection is required.
For manual and time-controlled switching of blinds and roller blinds.
Memory function for the simple storage of switching times.
The controlled devices can be manually operated at any time.
Simple setting via display with with segment display and background illumination.
Factory pre-set switching times, individual adaptations are possible.
2 switching times per day can be freely adjusted for each day of the week.
Automatic switchover from summer time to winter time (switch-off function).
Switching times and programs are safely stored in the event of a mains power failure.
Power reserve for time and date > 10 years.
Simple toggling between manual/automatic/vacation modes.
See the associated cover plates 6435-xx.
Programming possible only with control element attached and energized.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Outputs: 2x Normally open contact
Rated current: 3 A, cos ϕ 0.5
Rated power: 690 VA
Temperature range (Device): 0 °C to 45 °C

future® linear
Socket outlets

SCHUKO® USB socket outlet, 2gang [1] [2] [3] [4] shuttered

For connecting electric loads.
DP (2 P + E)
With screwless terminals.
For supply and support of mobile devices via USB-cable.
With 1x USB type A and 1x USB type C outputs.
Simultaneous charging via USB connection and use of the SCHUKO® socket outlet.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of loading protocol on the USB-C connection: USB-PD till 3 A, Apple MFI till 2.4 A and BC 1.2 with 1.5 A.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 230 V AC
Rated frequency: 50 Hz / 60 Hz
Power dissipation: < 75 mW
Rated current: 16 A
Outputs: 2x USB charging interface
Output voltage: 5 V DC
Rated power: 15 W
Suitable for: In case one output is used:
USB-A port: Max. current 2.4 A.
USB-C port: Max. current 3 A*
*3 A requires approved charging cables.
Protection class (Device): IP 20, SELV
Temperature range (Device): 5 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 58 mm
Mounting depth: 39.5 mm

[1]) Suitable for cover plate 1803-02-xxx.

Data-connection box, RJ 45, cat. 6a iso, shielded [1]) 1gang

With down-leading outlet and LSA self-cutting clamps.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Up to 500 MHz on all pairs of wires.
Suitable for 10-Gigabit Ethernet.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Flex cable entries from all sides without buckles.
Earthing of housing via 6,3 mm blade terminal at the back possible.
Re-embedded proofed.
Suitable for Mix-and-Match operation.
Suitable for RJ 11, RJ 12 und RJ 45.
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Without claws.
Mounting depth: 31 mm.
Protection class (Device): IP 20

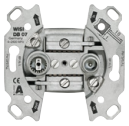
Universal data connection box 8(6)/ telephone unit 6F+N - connection box [1]) 2 x 6-pole

With straight outlet, with screw contacts,
Universal data-connection boxes: RJ 11/12,
ISDN capable Cat. 3 in acc. with IEC 603-7/German Standard DIN EN 60603-7,
Telecommunication outlet (telephone unit): for 1 telephone, 1 auxiliary device or 1 data transmission unit,
With claw. Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
white	**UAE 8(6)TAE 6 F+N**	2CKA000230A0381	10/100

[1]) Suitable for cover plate 2539-xxx, 1766-xxx and 1746-2xx-FN.



Satellite co-axial outlets 2 connectors/dead-end feeder

Broadband technology 5-2.400 MHz
For DVB-T, satellite and broad-band cable systems.
For analogue and digital transmission.
With claw.
Minimal installation depth, class A.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0230-101	2CKA000230A0250	10/100

Antenna socket insert Radio/TV 2 connectors/loop through type

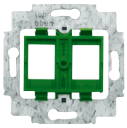
Broadband technology 5-2.400 MHz
For DVB-T, satellite and broad-band cable systems.
For analogue and digital transmission.
With claw.
Minimal installation depth, class A.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0231-101	2CKA000230A0268	10/100

Satellite co-axial outlets Radio/TV/SAT 3gang dead-end feeder

Broadband technology 47-2.150 MHz.
SAT connection designed as screwable F-male plug.
with remote feed via F-bush
For DVB-T and broadband-cable-systems.
For analogue and digital transmission.
With claw.
Minimal installation depth, class A.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0232-101-500	2CKA000230A0463	10/100



Terminating resistor 75 Ohm

Flush-mounted assembly adapter

For the accommodation of one or two universal modules 0219.
For flush-mounted installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/12	2CKA000230A0395	1/10

Channel assembly adapter

For the accommodation of one or two universal modules 0219. For channel and under-floor installation.
Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219/13	2CKA000230A0396	1/10

Universal module, RJ 45, cat. 6a iso, shielded [1] 1gang

For installation in installation adapter 0219/12 or 0219/13. Also suited for mounting into cover plate 2561-xxx, 2564-02-xxx and bases 1812, 1866 EB, and 1867 EB.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Cat. 6A according to ISO/IEC 11801: 2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Bend-radius optimised cable feed (30°). Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed.
Suitable for Mix-and-Match operation.
For 8-pole plug RJ 45 only.
Housing made from diecast zinc.
With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems. Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0219-101	2CKA000230A0413	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

Modular-Jack insert 6-pole Cat. 3 (AMP-No. 216000-2)

For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in.
For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).

Busch-Radio DAB+ [1]

DAB+ and RDS stereo radio alarm clock for flush-mounted installation.
With high-resolution colour display for showing additional information.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With individual alarm and snooze function.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Control/Signal outputs: 2, Loudspeaker output, impedance 4 Ohm
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	8215 U-101-500	2CKA008200A0276	1/10

[1] No claw. Screw-fixing via keyholes.

Busch-Radio DAB+, complete set [1]

Ready-to-install DAB+ radio alarm clock for mono operation (set packaged). With high-resolution colour display for showing additional information. Consisting of the Busch-Radio DAB+ 8215 U-101. Consisting of speaker insert 8223 U. Consisting of the cover plate for Busch-Radio 8252-84-101. Consisting of cover plate for speaker insert 8253-84. Consisting of 2gang future® linear cover frame 1722-184K.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 150 mm x 80 mm x 49 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
studio white	**8220 UJ-84-101-500**	2CKA008200A0234	1

[1] No claw. Screw-fixing via keyholes.

Busch-Radio BTconnect DAB+ [1] with Bluetooth interface for music replay.

DAB+ and RDS stereo radio alarm clock for flush-mounted installation. With high-resolution colour display for showing additional information.
With Bluetooth interface for music replay of mobile devices. Connection of external Bluetooth loudspeakers possible. Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible. For mono/stereo operation. 8 radio stations storable. With time and date display. With individual alarm and snooze function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated antenna. With additional connection for external antenna. Permitted speaker impedance: 4 - 8 Ohm. Can be installed as 1gang and in multiple combinations. Bluetooth specification: 4.2. Bluetooth profiles supported: A2DP.
Number of stored Bluetooth connections: max. 8
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm

[1] No claw. Screw-fixing via keyholes.

USB power adapter insert, flush-mounted [1] [2] With USB-A & USB-C interface

For supply and support of mobile devices via USB-cable.
With USB type A and USB type C female connector.
To support two devices at the same time.
Supports automatic negotiating of optimum charging parameters for the shortest charging times.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the additional quick-charge protocols: USB-PD and quick-charge 3.0 & 4.0.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Outputs: 2x USB charging interface
Suitable for: Only USB-A bus occupied:
Rated current: 3000 mA
Output voltage: 5 V-
Suitable for: Only USB-C bus occupied:
Rated power: 18 W

Suitable for: USB-A and USB-C bus occupied. Total:
Rated current: 3250 mA
Output voltage: 5 V-
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 43 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	6475 U-500	2CKA006400A0399	1

[1] No claw. Screw-fixing via keyholes.

65 W power adapter insert, flush-mounted [1] [2] with USB-C interface NEW

For power and charge of mobile devices via USB-C cable.
With USB type C female connector. Supports high power and automatic negotiating of optimum charging parameters for the shortest charging times.
Support of charging protocols: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the Qualcomm quick charge protocols: QC 2.0, 3.0, 4.0 and 5.
Support of USB PD (power delivery): 3.1 incl. PPS (programmable power supply).
Support of manufacturer specific protocolls: Samsung AFC and Huawei FCP (with 20 W).
With electronic short-circuit protection.
With electronic overload protection.
Fitting cover plate: 6479-...-500.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Power loss: < 75 mW
Outputs: 1x USB-C charging interface
Rated power: 65 W
Output voltage: 5 V, 9 V, 12 V, 15 V, 20.0 V DC
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 44 mm
Mounting depth: 32 mm

	6479 U-500	2CKA006400A0437	1

[1] No claw. Screw-fixing via keyholes.
[2] No data transfer.

HDMI connection unit [1] with screw-type terminals and strain relief

Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link high-definition digital audio and video data from e.g. SAT-receiver, DVD-/Blue-Ray-player to plasma-type, LCD- or-LED-TVs/screens.
HDMI-type A, 3D-compatible.
Fully HD ready (1920 x 1080 pixel).
For 20-wire HDMI-cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems.
For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended.
Without cover plate.
Without claws.
Protection class (Device): IP 20
Mounting depth: 34 mm

Colour	Type	Order code	Pack/Qty.

future® linear
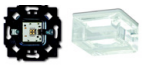
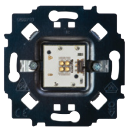
LED light



CoverPlates (partly incl. Insert) LED light Studio white

Complete set consists flush-mounted LED insert Night light (cold white) 2067/14 U.
Wall module with one lighting direction, design future® linear 2068/11-84.
Cover frame design future® linear 1721-184K.
With one lighting direction.
Not dimmable.
For low brightness (night light).
Colour temperature 6,500 K (cold white) System power consumption: 0.15 W Rated voltage: 230 V~, + 10% / - 10% Current consumption of LED: 40 mA (secondary)
Secondary: SELV

Colour	Type	Order code	Pack/Qty.
	2069/11-84	2CKA001510A0015	1/10

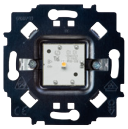


Flush Mounted Inserts LED light

Consisting of LED/FM insert, power module (neutral white) 2067/12 U.
Consisting of ceiling module, one light direction 2068/21.
For ambient lightning.
Light outlet downward.
Not dimmable.
Light intensity can be switched between 100% and 25% using front service switch.
Colour temperature: 4,000 K (neutral white)
System power consumption: 5 W
Rated voltage: 230 V~, + 10% / - 10% Current consumption of LED: 350 mA (secondary)
Secondary: SELV

Colour	Type	Order code	Pack/Qty.
	2069/21	2CKA001510A0018	1/10

Flush-mounted LED insert [1] [2]) Power module neutral white



For Busch-iceLight wall and ceiling module Type 2068/xx.
High brightness, e.g. for the display of information.
Colour temperature: 4,000 K (neutral white)
Not dimmable.
Light intensity can be switched between 100% and 25% using front service switch.
System power consumption: 5 W
Rated voltage: 230 V~, + 10% / - 10%
Current consumption of LED: 350 mA (secondary)
Secondary: SELV
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 40 °C
Dimensions: (L x W x D): -32 mm x 71 mmEN 62031/VDE 0715-5 of Jan. 2009

Notes

basic55®

One concept, numerous possibilities.

Those who design their living space wish to do it according to their own personal design concept. Which means that the colours must match the concept. And here basic55® convinces with two distinctive lines and several colour options. The available combinations of frames and rockers make it possible to adapt them harmoniously to all surroundings and individual style.

Dimmers

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
UP, LED, 2-400 W

Very small installation depth: < 20 mm.
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (leading edge control) Nominal power: 2 - 400 W/VA (trailing edge control)

Colour	Type	Order code	Pack/Qty.
	6523 UR-104-500	2CKA006512A0354	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
Flush-mounted, LED, 2-100 W

With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
Via mode switch adjustable between leading edge control and trailing edge control.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 250 W/VA (non-LED loads).
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

[1] Non-illuminable.
[2] Use cover plates 2115 J-.../2115-.../6540-... .
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Making-current limiters have to be provided in case of too high making currents.

Busch-rotary dimmer [1]
Flush-mounted, DALI, tunable white

For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116 U	2CKA006599A3025	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-rotary dimmer [1] Flush-mounted, DALI, with internal power supply, tunable white

For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

ABB flexTronics inserts

Relay insert flex, 1gang [1])

3 wire connection (neutral conductor required).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... .
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 2300 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 2300 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

With light-level memory and minimum brightness memory.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without control cover.
For control element flex, 1gang, 64711.
For control element flex, 2gang, 64721.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Rated power: 3-240 VA (LEDi).
Rated voltage: 230 V~, +10 % / -10 %.
Rated frequency: 50 Hz.
Inputs: 1.
Outputs: 1x dimming channel.
Suitable for: 230 V LEDi, typical (leading edge control).
Rated power: 3 - 100 VA.
Suitable for: 230 V LEDi, typical (trailing edge control).
Rated power: 3 - 240 W.
Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer.
Rated power: 10 - 240 VA.
Temperature range (Device): -5 °C to 45 °C.
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm.
Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Extension insert flex [1]

3 wire connection (neutral conductor required).
For the extension of the Busch-Comfort switch or presence detector installations.
For group control of flex inserts via extension unit communication.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Without control cover.
For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with all flex inserts.
Rated voltage: 230 V~, +10 % / -10 %.
Rated frequency: 50 Hz.
Control/Signal outputs: 1, electronic output, potential-bound.
Temperature range (Device): -5 °C to 45 °C.
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm.
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64891 U-500	2CKA006800A3051	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

basic55®

ABB flexTronics comfort switch sensor

Comfort switch flex sensor [1) 2)]

Movement detector push-button switch combination.
For switching lighting systems that depend on brightness and movement. With select lens, prevents detection of smaller animal.
Push switch function possible at all times.
With notice LED when manual operation is necessary.
Extension of the detection range by main unit/ extension unit combination.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Additional activation/deactivation option via push-button input on the flush-mounted insert.
Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off.
Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off.
Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off.
With continuous light/continuous Off function.
Adjusting elements on rear side.
Surveillance density: 9 sectors with 28 switching segments.
Switch off delay: 1 to 10 min., adjustable.
Compatible with all ABB flexTronics inserts.
For relay insert flex, 1gang, 64811 U-500.
For relay insert flex, 2gang, 64821 U-500.
For e-contact insert flex, 1gang, 64814 U-500.
For LED touch dimmer insert flex, 1gang, 64851 U-500.
For extension insert flex, 64891 U-500.
Display elements: LED for status display.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 5 m, lateral: 3 m, at mounting height: 1.1 m.
Detection angle: 170°.
Brightness limit value: 5 Lux - daytime operation
Operation mounting height: 0.8 m - 1.2 m.
Temperature range (Device): -5 °C to 45 °C.
Dimensions: (L x W x D): 63 mm x 63 mm x 28 mm.
Above the wall: 21 mm.

[1)] The range specifications refer only to an ambient temperature of 21°C.
[2)] Please order the respective flush-mounted insert separately.

Busch-Watchdog 180 flex, basic sensor [1) 2)] with select-lens

Movement detector sensor with with measurement of ambient light.
For automatic switching of devices dependent on motion and brightness.
Compatible with all free@home flex inserts.
Adjusting elements on rear side.
Extension of the detection range by means of master/ slave combination.
Additional activation/deactivation option via push-button input on the flush-mounted insert.
With detection display in test mode.
Surveillance density: 14 sectors with 56 switching segments.
Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable.
For relay insert flex, 1gang, 64811 U.
For e-contact insert flex, 1gang, 64814 U.
For series relay insert flex, 2gang, 64821 U.
For LED touch dimmer insert flex, 1gang, 64851 U.
For extension insert flex, 64891 U.
Mounting height: 22 mm.
Control element: 2 controllers for setting the brightness switching threshold and switch-off delay.
Detection range: frontal: 12 m, lateral: 12 m, Mounting height: 1.1 m.
Detection angle: 180 °.
Brightness limit value: 5 Lux - 500 Lux Up to daytime operation.
Mounting height: 0.8 m - 1.2 m.
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 56 mm x 56 mm x 35 mm

[1] Blind switches/push switches prevents fast change over between operating directions.
[2] Also suitable for DC drives.

basic55®

Blind control / timers

Blind compact timer

Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off.
Without extension unit input.
Running time: 3 min
N-busbar connection is required.
For manual and time-controlled switching of blinds and roller blinds.
Memory function for the simple storage of switching times.
The controlled devices can be manually operated at any time.
Simple setting via display with with segment display and background illumination.
Factory pre-set switching times, individual adaptations are possible.
2 switching times per day can be freely adjusted for each day of the week.
Automatic switchover from summer time to winter time (switch-off function).
Switching times and programs are safely stored in the event of a mains power failure.
Power reserve for time and date > 10 years.
Simple toggling between manual/automatic/vacation modes.
See the associated cover plates 6435-xx.
Programming possible only with control element attached and energized.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Outputs: 2x Normally open contact
Rated current: 3 A, cos ϕ 0.5
Rated power: 690 VA
Temperature range (Device): 0 °C to 45 °C

Control element, 1 gang, flex wireless

Tapping control element, 2gang For the manual and automatic control of roller blinds, blinds, awnings, lighting and electric loads.
Compatible with all free@home flex inserts. Remote operation via the Bluetooth and smartphone/tablet app.
Programming via Bluetooth with the ABB-free@home® app or via the web interface of the System Access Point.
Timer with Astro function.
For 2gang rocker 6230-2x-xxx, 6231-2x-xxx, 6232-2x-xxx, 6233-2x-xxx and 6234-2x-xxx.
For saving and calling up 2 scenes via the right rocker.
For relay insert flex, 1gang, 64811 U.
For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U.
For LED touch dimmer insert flex, 1gang, 64851 U.
For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.

Socket outlets

SCHUKO® USB socket outlet, 2gang [1] [2] [3] shuttered

For connecting electric loads.
DP (2 P + E)
With screwless terminals.
For supply and support of mobile devices via USB-cable.
With 1x USB type A and 1x USB type C outputs.
Simultaneous charging via USB connection and use of the SCHUKO® socket outlet.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of loading protocol on the USB-C connection: USB-PD till 3 A, Apple MFI till 2.4 A and BC 1.2 with 1.5 A.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 230 V AC
Rated frequency: 50 Hz / 60 Hz
Power dissipation: < 75 mW
Rated current: 16 A
Outputs: 2x USB charging interface
Output voltage: 5 V DC
Rated power: 15 W
Suitable for: In case one output is used:
USB-A port: Max. current 2.4 A.
USB-C port: Max. current 3 A*
*3 A requires approved charging cables.
Protection class (Device): IP 20, SELV
Temperature range (Device): 5 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 58 mm
Mounting depth: 39.5 mm

Data communication

Universal data connection unit, cat. 3 [1] 1gang

With down-leading outlet.
For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3.
Design according to IEC 60 603-7-2:2007.
Screw contacts
With claw.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0213-507	2CKA000230A0378	1/10

[1] Suitable for cover plate 1803-xxx.

Universal data connection unit, RJ45, Cat. 6e, unshielded, with down-leading outlet [1] 1gang

With down-leading outlet and LSA self-cutting clamps.
Cat. 6 according to DIN EN 50173-1:2003-06, ISO/IEC 1180:2002, and TIA/EIA-568-B.2:2002.
Marking in accordance with EIA/TIA 568 A and B.
Design according to IEC 60 603-7-2:2007.
Up to 250 MHz on all pairs of wires.
Suitable for Gigabit Ethernet.
With claw.
Suitable for RJ 11, RJ 12 und RJ 45.

Colour	Type	Order code	Pack/Qty.
	0220-507-101	2CKA000230A0469	10

[1] Suitable for cover plate 1803-xxx.

Data-connection box, RJ 45, cat. 6a iso, shielded [1] 1gang

With down-leading outlet and LSA self-cutting clamps.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01.
Shielding according to DIN EN 55022, Class B.
Up to 500 MHz on all pairs of wires.
Suitable for 10-Gigabit Ethernet.
Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Flex cable entries from all sides without buckles.
Earthing of housing via 6,3 mm blade terminal at the back possible.
Re-embedded proofed.
Suitable for Mix-and-Match operation.
Suitable for RJ 11, RJ 12 und RJ 45.
For data cables with a diameter of 6 -10 mm.
For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Without claws.
Mounting depth: 31 mm.
Protection class (Device): IP 20

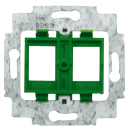
Modular-Jack insert 8-pole Cat. 3 (AMP-No. 216005-4)

For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in.
For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	0211	2CKA000225A0086	10

Universal module, RJ 45, cat. 6a iso, shielded [1] 1gang

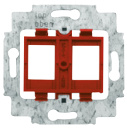


For installation in installation adapter 0219/12 or 0219/13.
Also suited for mounting into cover plate 2561-xxx, 2564-02-xxx and bases 1812, 1866 EB, and 1867 EB.
RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz).
Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06.
Cat. 6A according to ISO/IEC 11801: 2011-06.
Terminal marking A and B according to TIA/EIA-568-B.2.
Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability.
Bend-radius optimised cable feed (30°).
Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed.
Suitable for Mix-and-Match operation.
For 8-pole plug RJ 45 only. Housing made from diecast zinc. With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection. For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22.
For trunk systems, flush-mounted wall boxes and underfloor systems.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
metal clad	**0219-101-507**	2CKA000230A0414	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

Mounting plate [1] [2] with green insert

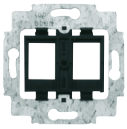


For 2 modular jack inserts.
For systems: CommScope (AVAYA / AT&T / Lucent Technologies), GigaSPEED, PowerSUM, 360 GS 10E bis MGS 600-BK, M1 BH-xx, MPS 100E-xx.
With R&M adapter R310694 suitable for R&M connection modules R305111, R305112, R305113 and R305114.
Pitch dimensions: (WxH) approx. 16.9 x 17.9 mm.
Without claws. Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	1810-500	2CKA001753A9974	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

Mounting plate [1] [2] with red insert

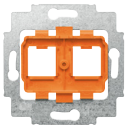


For 2 modular jack inserts.
Suitable for Art. Nos. 0210, 0211 and 0219-101.
For systems: AMP / tyco Electronics, BTR, EFB, Krone, Panduit, Quante, Radiall, Setec, Dr.-Ing. Sieger, Telena, Thomas & Betts
For Telegärtner AMJ/UMJ connection modules/ couplings.
For 2 fiber optic modules of the following types: 3M-Volition, Krone, mvk.
Pitch dimensions: (WxH) approx. 14.8 x 19.4 mm.
Without claws. Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	1812-500	2CKA001753A9972	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2] For further information, please refer on the Internet.

Mounting plate [1] [2] with black insert



For MTRJ or 2 modular jack inserts.
For systems: Ackermann, AMP / tyco Electronics (Slim Line (SL) -SM 2gang/switches: 110Connect Jacks, Toolless Jacks / Standard 110Connect Jacks), Brand-Rex, CombiNet, EFB Electronic, Telena.
For 2 fiber optic modules of the following types: AMP / tyco Electronics MTRJ.
Pitch dimensions: (WxH) approx. 14.8 x 20.4 mm.
Without claws.
Protection class (Device): IP 20

Colour	Type	Order code	Pack/Qty.
	1814-500	2CKA001753A9973	10/100

[1] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.

Multimedia communication adapter

Busch-Radio DAB+ [1])

DAB+ and RDS stereo radio alarm clock for flush-mounted installation.
With high-resolution colour display for showing additional information.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With individual alarm and snooze function.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Control/Signal outputs: 2, Loudspeaker output, impedance 4 Ohm
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	8215 U-101-500	2CKA008200A0276	1/10

[1]) No claw. Screw-fixing via keyholes.

basic55®

Multimedia communication adapter

Busch-Radio BTconnect DAB+ [1]
With Bluetooth interface for music replay

DAB+ and RDS stereo radio alarm clock for flush-mounted installation.
With high-resolution colour display for showing additional information.
With Bluetooth interface for music replay of mobile devices.
Connection of external Bluetooth loudspeakers possible.
Reception frequency: 87.50 MHz - 108.00 MHz.
Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With individual alarm and snooze function.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Bluetooth specification: 4.2.
Bluetooth profiles supported: A2DP
Number of stored Bluetooth connections: max. 8
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Bluetooth™

Colour	Type	Order code	Pack/Qty.
	8217 U-101-500	2CKA008200A0279	1/10

[1] No claw. Screw-fixing via keyholes.

Loudspeaker insert [1] 5 cm (2")

With flat plug connector.
With broadband characteristics.
Rated output: 2 W (RMS)
Incl. speaker connection cable.
Frequency response: 200 - 20,000 Hz
Impedance: 4 Ohm
Protection class (Device): IP 20, SELV
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	8223 U-500	2CKA008200A0183	1/10

[1] No claw. Screw-fixing via keyholes.

USB power adapter insert, flush-mounted [1] [2]
With USB-A & USB-C interface

For supply and support of mobile devices via USB-cable.
With USB type A and USB type C female connector.
To support two devices at the same time.
Supports automatic negotiating of optimum charging parameters for the shortest charging times.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the additional quick-charge protocols: USB-PD and quick-charge 3.0 & 4.0.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz
Outputs: 2x USB charging interface
Suitable for: Only USB-A bus occupied:
Rated current: 3000 mA
Output voltage: 5 V-
Suitable for: Only USB-C bus occupied:
Rated power: 18 W
Suitable for: USB-A and USB-C bus occupied. Total:
Rated current: 3250 mA
Output voltage: 5 V-
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 43 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	6475 U-500	2CKA006400A0399	1

[1] No claw. Screw-fixing via keyholes.
[2] No data transfer.

HDMI connection unit [1]
with screw-type terminals and strain relief

Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link high-definition digital audio and video data from e.g. SAT-receiver, DVD-/Blue-Ray-player to plasma-type, LCD- or-LED-TVs/screens.
HDMI-type A, 3D-compatible.
Fully HD ready (1920 x 1080 pixel).
For 20-wire HDMI-cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems.
For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended.
Without cover plate.
Without claws.
Protection class (Device): IP 20
Mounting depth: 34 mm

Colour	Type	Order code	Pack/Qty.
white	**0261/31-500**	2CKA000230A0430	1
grey	**0261/33-500**	2CKA000230A0432	1
alpine white	**0261/32-500**	2CKA000230A0431	1

[1] Please follow the recommendations of the cable and device producers for the max. HDMI cable lengths.

basic55®

Multimedia communication adapter

VGA connection unit [1] with screw-type terminals and strain relief

Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx.
To link analogue video data between PCs and laptops to monitors or digital projectors etc.
VGA-type: D-type, 15-pole.
Fully HD ready (1920 x 1080 pixel).
For 15-wire VGA-cables via srew-type terminals.
For trunk systems, flush-mounted wall boxes and underfloor systems.
For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended.
Without cover plate.
Without claws.
Protection class (Device): IP 20
Mounting depth: 34 mm

Light controls - Rotary dimmers

LED dimmer

LED dimmer With rotary control.
Two-way switch and soft-catch.
With N-terminal.
2- or 3-wire connection (neutral conductor not required).
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
Very low installation depth: < 20 mm Without claws.
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection. With electronic overload protection.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz.
Nominal power (L): 2 - 100 W/VA (leading-edge control).
Nominal power (R, C): 10 - 360 W/VA (trailing-edge control).
Nominal power (LEDi): 2 - 100 W/VA (leading-edge control).
Nominal power (LEDi): 2 - 200 W/VA (trailing-edge control).

Colour	Type	Order code	Pack/Qty.
	8160.7	2CKA006512A0354	1

Rotatory dimmer, 1-10Vdc

Rated voltage: 230 V~ ; ± 10% - 50/60 Hz. Rated power: 700 W / VA.
With rotatory control. For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control drivers. Without cover plate.
Not illuminable.
Making-current limiters have to be provided in case of too high making currents.
Included: fixing claws.
Cover plate code: 8560.2.

Colour	Type	Order code	Pack/Qty.
	8160.9	2CLA816090A1001	1

Alba

Light controls - Rotary dimmers

Rotary DALI dimmer Flush-mounted, tunable white.

For DALI broadcast service (via central telegram). For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. Fool proved. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Max.current consumption: 15 mA. Not suitable for combining with other DALI sensors or central units of other manufacturers. For the generation of the DALI voltage a power supply according to IEC 62386 is required. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Cover plate code: 8960.2

Colour	Type	Order code	Pack/Qty.
	8161.6	2CKA006599A3025	1

Rotary DALI dimmer Flush-mounted, DALI, with internal power supply, tunable White

For DALI broadcast service (via central telegram). With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. With electronic short-circuit protection. With electronic overload protection. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode. Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V= Rated current: max. 75 mA Power consumption: < 2,5 W Number of DALI-units: 37 in case of one active power-potentiometer in case of three active power-potentiometer in parallel connection: 111 Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices. Passive mode: the potentiometer is suitable as additional operation point. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Cover plate code: 8960.2

FM radio with alarm Hit by Niessen

FM-radio and alarm module - 2M

Rated voltage: 230 Vac ± 15%; 50-60 Hz.
Max. consumption: 100 mA.
Stand-by consuption: 0,2W.
Amplifier power: 2+2 W; <1% distorsion (16 Ω). Speaker impedance: 16 Ω (2+2 W audio).
FM radio digital tuner with RDS.
Alarm clock with buzzer, radio types and snooze.
Optional: auxilary module 9368.3 for I/O (1 minijack stereo input & 1 mini-jack stereo output), USB connection and Bluetooth receiver functions.
Mounting grid with the cover plate.
Cover plate code: 8568.

Motion sensor

Motion sensor

The motion detector is used to switch lighting systems depending on brightness and/or movement.
It is intended for indoor use only. Opening angel: 180°
Brightness value: 5 … 500 lux, daytime operation.
Disconnetion delay:
*10 seconds … 30 minutes.
*Short duration pulse 1 second
Mounting height: 0,8 m … 1,2 m
Protection: IP20
Temperature range: -5 °C … +45 °C
Storage temperature: -25 °C … +70 °C
Cover code: 8941.2

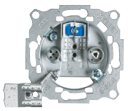
Isolation (FM / TV / SAT): >45 / >14 / >14.
Selectivity (TV-R / SAT): >15 / >15.
Return loss (VR / FM / TV / SAT): >25 / >25 / >14 / >10.
DC path (Vdc / mA / Tono):
24 max. / 500 max. / 22 KHz - DiSEqC.
Included: fixing claws.
Cover plate code: 8550.1.

Colour	Type	Order code	Pack/Qty.
	8151.3	2CLA815130A1001	10



TV-R/SAT final outlet

TV-R and SAT double outlet - Final.
Installation as a terminal outlet connected to a series with loop-through outlets.
Connection: screw terminal and clamp.
Output connectors (C1 / C2):
IEC male 9,52 mm. diam. / IEC female 9,52 mm. diam.
Frequency range (I/O / C1 / C2):
5 - 2.400 MHz / 5 - 2.400 MHz / 5 - 2.400 MHz.
Basic loss (FM / TV / SAT):
3,7±0,3 dB / 4,0±0,5 dB / 5,0±1,2 dB.
Isolation (FM / TV / SAT): >20 / >20 / >14.
Return loss (VR / FM / TV / SAT): >16 / >16 / >16 / >9.
DC path (Vdc / mA / Tono):
24 max. / 500 max. / 22 KHz - DiSEqC.
Included: fixing claws.
Cover plate code: 8550.1.

Colour	Type	Order code	Pack/Qty.
	8151.7	2CLA815170A1001	10

TV-R/SAT loop-through outlet

TV-R and SAT double outlet - Intermediate
Installation as an intermediate outlet in series connected to each other.
Output connectors (C1 / C2):
IEC male 9,52 mm. diam. / IEC female 9,52 mm. diam.
Frequency range (I/O / C1 / C2):
5 - 2.400 MHz / 5 - 2.400 MHz / 5 - 2.400 MHz.
Basic loss (FM / TV / SAT):
10,0±1,0 dB / 10,0±1,0 dB / 12,0±2,0 dB.
Through loss (FM / TV / SAT): 2,5±0,5 / 2,5±0,7 / 3,0±1,0.
Directivity (FM / TV / SAT): >20 / >12 / >5.
Isolation (FM / TV / SAT): >45 / >30 / >28.
Return loss (VR / FM / TV / SAT): >13 / >13 / >12 / >12.
DC path (Vdc / mA / Tono):
24 max. / 500 max. / 22 KHz - DiSEqC.
Included: fixing claws.
Cover plate code: 8550.1.

Light controls - Rotatory dimmers

LED dimmer

LED dimmer With rotary control.
Two-way switch and soft-catch.
With N-terminal.
2- or 3-wire connection (neutral conductor not required).
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
Very low installation depth: < 20 mm Without claws.
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection. With electronic overload protection.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz.
Nominal power (L): 2 - 100 W/VA (leading-edge control).
Nominal power (R, C): 10 - 360 W/VA (trailing-edge control).
Nominal power (LEDi): 2 - 100 W/VA (leading-edge control).
Nominal power (LEDi): 2 - 200 W/VA (trailing-edge control).

Rotatory dimmer, 1-10Vdc

Rated voltage: 230 V~ ; ± 10% - 50/60 Hz.
Rated power: 700 W / VA.
With rotatory control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control drivers.
Without cover plate.
Not illuminable.
Making-current limiters have to be provided in case of too high making currents.
Included: fixing claws.
Cover plate code: 8560.2.

Colour	Type	Order code	Pack/Qty.
	8160.9	2CLA816090A1001	1

Cover plate with rotatory knob for dimmer

Cover plate with rotatory knob for dimmer code: 8160, 8160.7 & 8160.9.
Included: indicator neon lamp.

Light controls - DALI controlers

Rotary DALI dimmer Flush-mounted, tunable white.

For DALI broadcast service (via central telegram). For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. Fool proved. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Max. current consumption: 15 mA. Not suitable for combining with other DALI sensors or central units of other manufacturers. For the generation of the DALI voltage a power supply according to IEC 62386 is required. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate.

Colour	Type	Order code	Pack/Qty.
	8161.6	2CKA006599A3025	1

Rotary DALI dimmer Flush-mounted, DALI, with internal power supply, tunable White

For DALI broadcast service (via central telegram). With integrated DALI power adaptor. For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. With electronic short-circuit protection. With electronic overload protection. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Up to 3 potentiometers are connectable in parallel in active mode. Not suitable for combining with other DALI sensors or central units of other manufacturers. DALI-voltage: 15,5 V= Rated current: max. 75 mA Power consumption: < 2,5 W Number of DALI-units: 37 in case of one active power-potentiometer in case of three active power-potentiometer in parallel connection: 111 Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices. Passive mode: the potentiometer is suitable as additional operation point. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate..3

Light controls - Timer switches

Time delayed switch with triac

Rated voltage: 230 Vac - 50 Hz.
Power:
- Incandescent: 40 - 500 W.
- Halogen with transformer: 40 - 400 VA.
- Motors: 40 - 100 VA.
2 wire connection.
Delay setup: 10 sec. to 10 min.
Overcurrent protection: with fuse.
Indicator LED lamp included.
Without fixing claws.
Operating temperature: 0 - 40 ºC.
Cover plate code: 8562.

Light controls - Motion sensors

180° motion sensor

For automatic switching of devices dependent on motion and brightness.
For relay inserts 8161.
With integrated selector switch for ON-AUTOMATIC-OFF (lockable).
Surveillance density: 18 sectors with 72 switching segments.
Switch-off delay: 10 sec to 30 min or short-time pulse 1 sec adjustable.
Temperature range device: 0 °C to 35 °C.
Detection range: frontal: 12 m, lateral: 8 m.
Brightness limit value: from 5 lux up to daytime operation.
Detection angle: 180 °.
Mounting height: 0.8 m - 1.2 m.

Light controls - Programmable switches

Relay switch

Rated voltage: 230 V~ ; ± 10% - 50/60 Hz.
3 wire connection (neutral conductor required).
For timer control element 8165.31. Operation also possible via conventional push buttons 8104.X.
Outputs: 1 Normally open contact, potential-bound.
Suitable for: 230 V incandescent lamps, 230 V halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are operated via transformers.
Rated current: 10 AX. Rated power: 2300 W / VA.
Temperature range device: -25 °C to 55 °C.
Included: fixing claws.

Colour	Type	Order code	Pack/Qty.
	8161	2CLA816100A1001	1

Relay switch for blinds

Rated voltage: 230 V~ ; ± 10% - 50 Hz.
Suitable for blind, roller blind and awning drives with mechanical or electronic limit switch shut-off.
Two 230 V multi-way input terminals (Up/Down) for group control. Operating mode switch for the following modes: normal, louvre, base station, position.
Wind alarm, cleaning functions can be accommodated via extension input. For comfort timer control element 8165.31. Remote control with blind controls code: 8144.X.
Running time: 3 min.
Outputs: 2 Normally open contact.
Rated current: 3 A, cos φ0.5. Rated power: 690 VA.
Control/Signal outputs: 2.
Temperature range device: 0 °C to 35 °C.
Included: fixing claws.

Colour	Type	Order code	Pack/Qty.
	8161.2	2CLA816120A1001	1

Timer control element

For manual and time-controlled switching of blinds, roller blinds, awnings, lighting and other electrical devices.
With dusk to dawn program including (Astro-program).
Individual Astro adjustment and Astro blocking time.
The controlled devices can be manually operated at any time.
Simple setting via high-resolution display with background illumination. With preset switching times/date/time.
Factory-set switching times can be individually adjusted.
Automatic switchover from summer time to winter time (switch-off function). Switching times/programme are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes.
Freely adjustable temperature and brightness-dependent sun protection function. Freely adjustable twilight function.
User-adjustable running times for blinds and air conditioning.
Programming possible only with control element attached and energized. 6 switching times per day can be user-defined for each day of the week. Astro switching times and switching times can be combined.
For universal relay switch insert 8161.
For blind control insert 8161.2.
Temperature range device: 0 °C to 35 °C.
Cover plate code: 8565.3.

Light controls - Wireless control

Wireless switch transmitter - 1 channel

1-gang wall-mounted transmitter independent of mains power supply. 1 radio channel for switching, dimming, controlling blinds or 2 light scenes can be called up. For wireless actuators: 8130.4, 8130.5, 8130.7 & 8130.6. MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery type CR2032.
Battery service life: typically 5 years, therefore practically maintenance-free. Rated voltage: 3 Vdc. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Control element: switch contacts top/bottom. Display elements: LED to indicate the transmission. Temperature range device: -5 °C to 45 °C. Battery included in delivery.

Wireless switch actuator

Rated voltage: 230 Vac ; ± 10% - 50/60 Hz.
For wireless switching of electrical loads.
2 functions: ON/OFF switch or time delayed switch.
For wall mounted transmitter code: 8531.1 &8531.2.
Switch-off delay: 3 sec. / 1 min. / 5 min. / 15 min.
Repeater function can be activated for extended range.
For universal attachment or installation.
3 wire connection (neutral conductor required).
With auxiliary input for push-buttons code: 8104.X.
Send/receive frequency: 868 MHz. Free-field range: approx. 100 m. Control element: adjustable potentiometer. Display elements: status indication of output via LED. Outputs: 1x Normally Open or Normally Closed contact, 230 Vac.
Rated power:
- Incandescent, halogen, electronic transformer and ferromagnetic transformers: 2.300 W / VA.
- Fluorescent load: 1.000 VA.
Temperature range (device): -5 °C to 45 °C.
Dimensions: (L x W x D): 47 mm. x 48 mm. x 22 mm.

Colour	Type	Order code	Pack/Qty.
	8130.4	2CLA813040A1001	1

Wireless dimming actuator

Rated voltage: 230 Vac ; ± 10% - 50/60 Hz
For wireless switching and dimming of electrical loads.
For functions ON/OFF switch and dimming.
For wall mounted transmitter code: 8531.1 & 8531.2.
Repeater function can be activated for extended range.
For universal attachment or installation.
2-wire connection (neutral conductor not required)
3-wire connection system (neutral conductor is required) is preferred when using electronic transformers, electromagnetic transformers and energy saving lamps.
With auxiliary input for push-buttons code: 8104.X.
Send/receive frequency: 868 MHz.
Free-field range: approx. 100 m.
Control element: adjustable potentiometer
Display elements: status indication of output via LED.
Outputs: 1 dimming channel, 230Vac
Rated power:
- Incandescent lamps: 35 - 300 W
- Low voltage halogen lamps, which are operated by electronic transformers: 35 - 200 VA
- Low voltage halogen lamps with conventional transformers: 35 - 175 VA
Temperature range device: -5 °C to 45 °C
Dimensions: (L x W x D): 47 mm x 48 mm x 33 mm

Light controls - Wireless control

Wireless blind actuator

Rated voltage: 230 Vac ; ±10 % - 50/60 Hz.
For wireless switching of electrical loads or controlling blinds/shutters.
2 functions: 2-gang switch or blind control.
Operation also possible via conventional blind controls code 8144.X or push-buttons 8104.X.
For wall mounted transmitter code: 8531.1 & 8531.2.
With blind switch function: 3 minutes run time.
Repeater function can be activated for extended range.
For universal attachment or installation.
3 wire connection (neutral conductor required).
Send/receive frequency: 868 MHz.
Free-field range: approx. 100 m.
Control element: adjustable potentiometer.
Display elements: status indication of output via LED.
Inputs: 2.
Polling voltage: 230 V~, Sensing pulse, L-wire.
Outputs: 2 Normally Open contact, 230 Vac.
Rated power:
- Blind motors: 3 A, cos φ0.5.
- Incandescent/halogen lamps: 3 A.
- Fluorescent lamps: 3 AX.
Temperature range device: -5 °C to 45 °C.
Dimensions: (L x W x D): 47 mm. x 48 mm. x 22 mm.

Sky Niessen

Multiroom Bluetooth system

Multiroom sound module

Rated voltage: 127-230 Vac ± 15%; 50-60 Hz.
Max. consumption: 200 mA.
Stand-by consuption: 0,3W.
Amplifier power: 6+6 W; <1% distorsion (4 Ω).
Speaker impedance: 4 Ω (2+2 W audio).
FM radio digital tuner with RDS.
Alarm clock with buzzer, radio types and snooze function.
Bluetooth receiver: Bluetooth® v2.1 2.4GHz IEEE 802.15.1.
Multiroom function available (1 master device and up to 14 slave devices).
Remote control using code 9368.2 (ZigBee 2.4GHz IEEE 802.15.4).
Optional: auxilary module 9368.3 for I/O (1 mini-jack stereo input & 1 mini-jack stereo output) and USB connection functions.

Colour	Type	Order code	Pack/Qty.
	9368.1	2CLA936810A1001	1

Remote control for multiroom sound module - 2M

Rated voltage: 127-230 Vac ± 15%; 50-60 Hz.
Max. consumption: 15 mA.
Stand-by consuption: 0,5W.
To control 9368.1 module (1 remote control for each module).
Wireless connection between moles 9368.1 and 9368.2 (ZigBee 2.4GHz IEEE 802.15.4).
Optional: auxilary module 9368.3 for I/O (1 mini-jack stereo input & 1 mini-jack stereo output) and USB connection functions. In case of using 9368.3 module, the connection between modules 9368.1 and 9368.2 must be wired (3 wires).
Mounting grid delivered with the cover plate (without fixing claws).
Cover plate code: 8568.

Colour	Type	Order code	Pack/Qty.
	9368.2	2CLA936820A1001	1

FM radio with alarm

FM-radio and alarm module - 2M

Rated voltage: 230 Vac ± 15%; 50-60 Hz.
Max. consumption: 100 mA.
Stand-by consuption: 0,2W.
Amplifier power: 2+2 W; <1% distorsion (16 Ω).
Speaker impedance: 16 Ω (2+2 W audio).
FM radio digital tuner with RDS.
Alarm clock with buzzer, radio types and snooze function.
Optional: auxilary module 9368.3 for I/O (1 mini-jack stereo input & 1 mini-jack stereo output), USB connection and Bluetooth receiver functions.
Mounting grid delivered with the cover plate (without fixing claws).
Cover plate code: 8568.

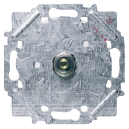
Auxiliary amplifier

Auxiliary 20W amplifier



Rated voltage: 230 Vac ± 10 % / 50-60 Hz.
Power consumption: 3,5 VA (max. 36 VA).
Output voltage: 15 V- (max. 1,5 A).
Output power:
- 10 + 10 W (2 Ω).
- 20 W (4 Ω).
Speaker impedance:
- 2 - 16 Ω (10 + 10 W).
- 4 - 16 Ω (20 W).
Can be operated in booster mode with FM radio modules 9368 and 9368.7 and multiroom modules 9368.1.
Can be operated in “”standalone”” mode with one audio input.
Can be used in bridge operation.
For extending the number of speakers at one amplifier insert.
For max. 16 speakers code 9329 or 9329.1.
DIN-rail installation. Module width: 7.

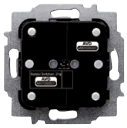
Sensor & switch actuators



free@home Sensor/Switch actuator - 1/1-gang

For switching 230 V~ devices. With 1 integrated switch actuator. Switching function is available pre-configured.
Outputs: 1× normally open contact, potential free.
Suitable for: resistive.
Rated current: 10 A.
Rated power: 2300 W.
Suitable for: capacitive.
Rated current: 10 AX.
Mounting depth: 32 mm.
To be installed with SR-1-85, SRL-1-85, SRD-1-85, SRB-1-85 and SRS-1-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	SSA-F-1.1.1	2CKA006220A0123	1

free@home Sensor/Switch actuator - 2/1-gang

For switching 230 V~ devices. With 1 integrated switch actuator. Switching function is available pre-configured.
Outputs: 1× normally open contact, potential free.
Suitable for: resistive.
Rated current: 10 A.
Rated power: 2300 W.
Suitable for: capacitive.
Rated current: 10 AX.
Mounting depth: 32 mm.
To be installed with SR-2-85, SRL-2-L-85 SRL-2-R-85, SRD-2-L-85, SRD-2-R-85, SRB-2-85 SRS-2-L-85 and SRS-2-R-85 cover plates.

Sensor & dimmer actuators

free@home sensor/Dimmer actuator - 1/1-gang

For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. The dimming function is available pre-configured.
Outputs: 1× dimming channel.
Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Rated power: 10–180 W / VA.
Suitable for: LEDi and energy-saving bulbs.
Rated power: 2–80 W / VA.
Mounting depth: 32 mm.
To be installed with SR-1-85, SRL-1-85, SRD-1-85, SRB-1-85 and SRS-1-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	SDA-F-1.1.1	2CKA006220A0126	1

free@home Sensor/Dimmer actuator - 2/1-gang

For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. The dimming function is available pre-configured
Outputs: 1× dimming channel.
Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Rated power: 10–180 W / VA.
Suitable for: LEDi and energy-saving bulbs.
Rated power: 2–80 W / VA.
Mounting depth: 32 mm.
To be installed with SR-2-85, SRL-2-L-85 SRL-2-R-85, SRD-2-L-85, SRD-2-R-85, SRB-2-85 SRS-2-L-85 and SRS-2-R-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	SDA-F-2.1.1	2CKA006220A0127	1

Sensor & blind actuators

free@home Sensor/Blind actuator - 1/1-gang

For controlling blind and awning motors. With integrated blind actuator. Blind function is available pre-configured.
Outputs: 1× Change-over contacts/normally open contact, potential-bound.
Rated power: 920 VA.
Rated current: 4 A.
Suitable for: Operating mode blind.
Mounting depth: 32 mm.
To be installed with SR-1-85, SRL-1-85, SRD-1-85, SRB-1-85 and SRS-1-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	SBA-F-1.1.1	2CKA006220A0128	1

free@home Sensor/Blind actuator - 2/1-gang

For controlling blind and awning motors. With integrated blind actuator. Blind function is available pre-configured.
Outputs: 1× Change-over contacts/normally open contact, potential-bound.
Rated power: 920 VA.
Rated current: 4 A.
Suitable for: Operating mode blind.
Mounting depth: 32 mm.
To be installed with SR-2-85, SRL-2-L-85 SRL-2-R-85, SRD-2-L-85, SRD-2-R-85, SRB-2-85 SRS-2-L-85 and SRS-2-R-85 cover plates.

Room temperature controller

free@home Room temperature controller

Control element with room temperature control function for controlling commercially available actuating drives or analogue actuating drives (continuous controllers), as well as fan coils. With display of setvalue temperature.
Display elements: LCD Display showing operation modes.
Mounting depth: 14 mm.
To be installed with CP-RTC-85 cover plates for RTC or CP-RTC-FC-85 cover plates for fan coil control.

Colour	Type	Order code	Pack/Qty.
	RTC-F-1	2CKA006220A0122	1

Motion sensor & actuators

free@home 180° motion sensor

With select lens for detection with animal access. For automatic switching of ABB-free@home® actuators dependent on movement and brightness.
To be used with.
Detection range: frontal 6 m, lateral 3 m.
Detection angle: 180°.
Brightness limit value: 1 – 500 lux.
Protection class of device: IP 20.
Mounting depth: 14.1 mm.
To be installed with CP-MD-85 cover plates (mounting grid without claws included).

Colour	Type	Order code	Pack/Qty.
	MD-F-1.0.PB.1	2CKA006220A0229	1

free@home 180° motion sensor/actuator

With select lens for detection with animal access.
Including an integrated actuator for switching 230 V~ devices.
Outputs: 1× normally open contact, potential free.
Suitable for: resistive.
Rated current: 10 A.
Rated power: 2300 W.
Suitable for: capacitive.
Rated current: 10 AX.
Detection range: frontal 6 m, lateral 3 m.
Detection angle: 180°.
Brightness limit value: 1 – 500 lux.
Protection class of device: IP 20.
Mounting depth: 31.5 mm.
To be installed with CP-MD-85 cover plates (mounting grid without claws included).

Colour	Type	Order code	Pack/Qty.
	MSA-F.1.1.PB.1	2CKA006220A0231	1

Wireless sensors

free@home Sensor unit - 1-gang - Wireless

Rated voltage: 230 Vac - 50/60Hz.
For transmitting switching, push-button, dimming and blind commands to an ABB-free@home® actuator.
Wireless communication with the free@home system.
With fixing claws.
Control element: switch contacts top/bottom.
Display elements: LED as light for orientation or display of the switching state.
Temperature range device: -5 °C to 45 °C.
Mounting depth: 32 mm.
To be installed with SR-1-85 cover plates.

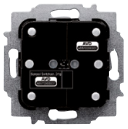
Colour	Type	Order code	Pack/Qty.
	SU-F-1.0.1-WL	2CKA006200A0072	1

free@home Sensor unit - 2-gang - Wireless

Rated voltage: 230 Vac - 50/60Hz.
For transmitting switching, push-button, dimming and blind commands to an ABB-free@home® actuator.
Wireless communication with the free@home system.
With fixing claws.
Control element: switch contacts top/bottom.
Display elements: LED as light for orientation or display of the switching state.
Temperature range device: -5 °C to 45 °C.
Mounting depth: 32 mm.
To be installed with SR-2-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	SU-F-2.0.1-WL	2CKA006200A0073	1

free@home Sensor/Switch actuator - 1/1-gang - Wireless



Rated voltage: 230 Vac - 50/60Hz.
For switching 230 V~ consumers.
Wireless communication with the free@home system.
With integrated switch actuator. Switching function is available also without prior programming (pre-configured).
Configuration can be changed later via the web interface (groups, scenes, etc.).
3 wire connection (neutral conductor required).
With 230 V extension unit input (On/Off).
With fixing claws.
Control element: switch contacts top/bottom.
Display elements: LED as light for orientation or display of the switching state.
Outputs: 1 Normally Open contact, potential-bound (output voltage: 230 Vac)
Suitable for: ohmic.
Rated current / power: 10 A / 2300 W.
Suitable for: capacitive.
Rated current / power: 10 AX / 2300 VA.
Suitable for: inductive.
Rated current / power: 10 A / 2300 VA.
Temperature range device: -5 °C to 45 °C.
Mounting depth: 32 mm.
To be installed with SR-1-85 cover plates.

Colour	Type	Order code	Pack/Qty.

Sky Niessen - Free@home - Home automation

Wireless sensor & switch actuators

free@home Sensor/Switch actuator - 2/1-gang - Wireless

Rated voltage: 230 Vac - 50/60Hz.
For switching 230 V~ consumers.
Wireless communication with the free@home system.
With integrated switch actuator. Switching function is available also without prior programming (pre-configured).
Configuration can be changed later via the web interface (groups, scenes, etc.). The right sensor channel for programming additional functions (groups, scenes, etc.).
3 wire connection (neutral conductor required).
With 230 V extension unit input (On/Off).
With fixing claws.
Control element: switch contacts top/bottom.
Display elements: LED as light for orientation or display of the switching state.
Outputs: 1 Normally Open contact, potential-bound (output voltage: 230 Vac).
Suitable for: ohmic.
Rated current / power: 10 A / 2300 W.
Suitable for: capacitive.
Rated current / power: 10 AX / 2300 VA.
Suitable for: inductive.
Rated current / power: 10 A / 2300 VA.
Temperature range device: -5 °C to 45 °C.
Mounting depth: 32 mm.
To be installed with SR-2-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	SSA-F-2.1.1-WL	2CKA006200A0075	1

free@home Sensor/Switch actuator - 2/2-gang - Wireless

Rated voltage: 230 Vac - 50/60Hz.
For switching 230 V~ consumers.
Wireless communication with the free@home system.
With integrated 2-gang switch actuator. Switching function is available also without prior programming (pre-configured).
Configuration can be changed later via the web interface (groups, scenes, etc.). The right sensor channel for programming additional functions (groups, scenes, etc.).
3 wire connection (neutral conductor required).
With two 230 V extension unit inputs (On/Off).
With fixing claws.
Control element: switch contacts top/bottom
Display elements: LED as light for orientation or display of the switching state.
Outputs: 2 Normally Open contacts, potential-bound (output voltage: 230 Vac).
Suitable for: ohmic.
Rated current / power: 5 A / 1200 W.
Suitable for: capacitive.
Rated power: 920 VA.
Suitable for: inductive.
Rated power: 800 VA.
Temperature range device: -5 °C to 45 °C.
Mounting depth: 32 mm.
To be installed with SR-2-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	SSA-F-2.2.1-WL	2CKA006200A0076	1

Wireless sensor & dimmer actuators

free@home Sensor/Dimmer actuator - 1/1-gang - Wireless

Rated voltage: 230 Vac - 50/60Hz.
For dimming 230 V~ loads.
Wireless communication with the free@home system.
With integrated universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, lowvoltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps. For dimmable Retrofit-LEDs (LEDi).
Dimming function is available also without prior programming (pre-configured). Configuration can be changed later via the web interface (groups, scenes, etc.).
2-wire connection (neutral conductor not required)
3-wire connection technology is possible as an option for improved load behaviour (for details see the manual).
With 230 V extension unit input (dimming brighter/darker, switching).
With fixing claws.
Control element: switch contacts top/bottom.
Display elements: LED as light for orientation or display of the switching state.
Outputs: 1 dimming channel.
Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer.
Rated power: 20 - 180 W / VA.
Suitable for: LEDi and energy-saving bulbs; typical.
Rated power: 2 - 80 W / VA.
Temperature range device: -5 °C to 45 °C.
Mounting depth: 32 mm.
To be installed with SR-1-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	SDA-F-1.1.1-WL	2CKA006200A0077	1

free@home Sensor/Dimmer actuator - 2/1-gang - Wireless

Rated voltage: 230 Vac - 50/60Hz.
For dimming 230 V~ loads.
Wireless communication with the free@home system.
With integrated universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, lowvoltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps. For dimmable Retrofit-LEDs (LEDi). Dimming function is available also without prior programming (left sensor channel is pre-configured). Configuration can be changed later via the web interface (groups, scenes, etc.). The right sensor channel for programming additional functions (groups, scenes, etc.).
2-wire connection (neutral conductor not required)
3-wire connection technology is possible as an option for improved load behaviour (for details see the manual).
With 230 V extension unit input (dimming brighter/darker, switching).
With fixing claws.
Control element: switch contacts top/bottom
Display elements: LED as light for orientation or display of the switching state.
Outputs: 1 dimming channel.
Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer.
Rated power: 20 - 180 W / VA.
Suitable for: LEDi and energy-saving bulbs; typical.
Rated power: 2 - 80 W / VA.
Temperature range device: -5 °C to 45 °C.
Mounting depth: 32 mm.
To be installed with SR-2-85 cover plates.

Wireless sensor & blind actuators

free@home Sensor/Blind actuator - 1/1-gang - Wireless

Rated voltage: 230 Vac - 50/60Hz.
For controlling blind or awning motors.
Wireless communication with the free@home system.
With integrated blind actuator. Blind function is available also without prior programming (pre-configured).
Configuration can be changed later via the web interface (groups, scenes, etc.).
3 wire connection (neutral conductor required).
With two 230 V extension unit inputs (Up/Down).
With fixing claws.
Control element: switch contacts top/bottom.
Display elements: LED as light for orientation or display of the switching state.
Outputs: 2 Normally Open contact, potential-bound (output voltage: 230 Vac).
Suitable for: blind motors.
Rated current / power: 4 A / 920 VA.
Temperature range device: -5 °C to 45 °C.
Mounting depth: 32 mm.
To be installed with SR-1-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	SBA-F-1.1.1-WL	2CKA006200A0079	1

free@home Sensor/Blind actuator - 2/1-gang - Wireless

Rated voltage: 230 Vac - 50/60Hz.
For controlling blind or awning motors.
Wireless communication with the free@home system.
With integrated blind actuator. Blind function is available also without prior programming (pre-configured).
Configuration can be changed later via the web interface (groups, scenes, etc.). The right sensor channel for programming additional functions (groups, scenes, etc.).
3 wire connection (neutral conductor required).
With two 230 V extension unit inputs (Up/Down).
With fixing claws.
Control element: switch contacts top/bottom.
Display elements: LED as light for orientation or display of the switching state.
Outputs: 2 Normally Open contacts, potential-bound (output voltage: 230 Vac).
Suitable for: blind motors.
Rated current / power: 4 A / 920 VA.
Temperature range device: -5 °C to 45 °C.
Mounting depth: 32 mm.
To be installed with SR-2-85 cover plates.

Wireless temperature controller

free@home Room thermostat - Wireless

Rated voltage: 230 Vac - 50/60Hz.
Heating/cooling operation.
Wireless communication with the free@home system.
Control element with room temperature controller function. With display of set-value temperature. In connection with temperature sensor 6226/T the integrated room temperature controller can be fitted with a remote sensor.
With fixing claws.
Control element: floating rocker for the selection of set values and operating modes.
Display elements: LCD showing operation modes.
Temperature range device: -5 °C to 45 °C.
Mounting depth: 32 mm.
To be installed with CP-RTC-85 cover plates for RTC or CP-RTC-FC-85 for fan coil control.

Colour	Type	Order code	Pack/Qty.
	RTC-F-1-WL	2CKA006200A0081	1

free@home Room thermostat/actuator - Wireless

Rated voltage: 230 Vac - 50/60Hz.
Rated frequency: 50 Hz / 60 Hz.
Heating/cooling operation.
Wireless communication with the free@home system.
Control element with room temperature controller function. With display of set-value temperature. With integrated switch actuator, e.g. for controlling thermoelectric actuating drives in heating/cooling systems or electric floor heating systems. RTC function is available also without prior programming (pre-configured). In connection with temperature sensor 6226/T the integrated room temperature controller can be fitted with a remote sensor.
3 wire connection (neutral conductor required).
With fixing claws.
Control element: floating rocker for the selection of set values and operating modes.
Display elements: LCD showing operation modes.
Outputs: 1 Normally Open contact, potential-bound (output voltage: 230 Vac).
Suitable for: ohmic.
Rated current / power: 16 A / 3680 W.
Temperature range device: -5 °C to 45 °C.
Mounting depth: 32 mm.
To be installed with CP-RTC-85 cover plates.

Touch displays

ABB-free@homeTouch 7"

For the central control of up to 16 configurable ABB-free@home® functions of type: switching, dimming, blind, RTC, scene, Philips HUE.
Display of the video image of the outdoor station of ABB-Welcome door entry system.
Suitable as room temperature controller extension unit (up to 8).
Surface mounting.
The bus can be connected via enclosed terminal block.
Display size / resolution: 17.8 cm (7") / 800 x 480
Consumer units: 11
Display elements: TFT Touch Display
Dimensions: (L x W x D): 155 mm x 218 mm x 29 mm
Programming only with bus voltage applied via the web interface of the System Access Point.
The power is supplied by the ABB-Welcome system controller or when using the ABB-free@home panel without an ABB-Welcome system, a separate ABB 24 V- power supply is required.
Protection class (device): IP30
Temperature range (device): -5 °C to 40 °C

Colour	Type	Order code	Pack/Qty.
White	**DP7-S-611**	2CKA008300A0356	1
Black	**DP7-S-625**	2CKA008300A0357	1

ABB-free@homeTouch 4.3"

For the central control of up to 16 configurable ABB-free@home® functions.
For the display of configurable system messages.
A configurable primary function can be triggered with a multi-touch gesture.
Capacitive touch screen with closed glass surface.
With integrated room temperature controller and temperature sensor.
In connection with temperature sensor 6226/T the integrated room temperature controller can be fitted with a remote sensor.
Suitable as room temperature controller extension unit (up to 8).
Requires additional ABB power supply 24 VDC.
Display size / resolution: 10.9 cm (4.3") / 480 x 854.
Mounting height: 8 mm
Control element: freely programmable touch surfaces.
Display elements: LCD display
Bus voltage: 24 V-
Dimensions: (L x W x D): 104 mm x 143 mm x 53 mm
Programming only with bus voltage applied via the web interface of the System Access Point.
Protection class (device): IP20
Temperature range (device): -5 °C to 40 °C

Colour	Type	Order code	Pack/Qty.
White	**DP4-1-611**	2CKA006220A0119	1
Black	**DP4-1-625**	2CKA006220A0120	1

Flush mounting installation box

For flush-mounted in hollow-wall installation of the ABB-free@homeTouch 4.3".
Windproof.
Installation dimensions (H x W x D):
82 mm x 123 mm x 50 mm
Mounting depth: 50 mm
Halogen free.

Colour	Type	Order code	Pack/Qty.
	DP4-F	2CKA006220A0389	1

Temperature sensor

For use as remote sensor with ABB- free@homeTouch 4.3".
Line type: H03 VV-F
Cable length: 4 m
Type: NTC 10 kohm.

Colour	Type	Order code	Pack/Qty.
	DP4-T-1	2CKA006220A0721	1

System Access Point

System Access Point - Wireless

For commissioning and remote control of the ABB-free@home® system.
With integrated free@home wireless antenna.
With integrated free@home bus connection.
Allows the execution of astro and time programs.
Commissioning and remote control is executed via the web interface or app.
No additional commissioning software is required.
Easy commissioning with WLAN ad-hoc mode.
WLAN modes switchable via local operation.
Connection to the home network via WLAN client mode or via CAT cable.
The bus connection is provided via the enclosed bus terminal.
Display elements: LED for status display.
Rated voltage: 230 V~; 50/60 Hz.
Bus voltage: 24 V.
Dimensions: (L x W x D): 110 mm x 170 mm x 31 mm
Programming via the web interface of the System Access Point.
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C

Colour	Type	Order code	Pack/Qty.
	SAP-S-2	2CKA006200A0105	1

External antenna - Wireless

For use with System Access Point SAP-S-2 and SAP-S-127.2.
Feed the free@home wireless signal to the outside when the internal antenna of the System Access Point is shielded due to structural conditions.
With magnetic base.
Cable length: 1.5 m

Colour	Type	Order code	Pack/Qty.
	SAP-1-WL	2CKA006200A0100	1

Weather station

Weather station

For recording and transmitting of brightness, temperature, wind speed and rain.
Weather data can be linked with actuators to automatically control functions.
Weather data can be visualized in the free@home web interface and the free@home app.
Wind speed measuring range 2 - 30 m/s
The bus can be connected via enclosed terminal block.
Rated voltage: 110 V~ - 230 V~; 50/60 Hz.
Bus voltage: 24 V-
Inputs: 4
Temperature range (sensor):
Brightness limit value: 1 lux - 100000 lux
Dimensions: (L x W x D): 108 mm x 121 mm x 227 mm
Protection class (device): IP44
Temperature range (device): -20 °C to 55 °C

Colour	Type	Order code	Pack/Qty.
	WS-1	2CKA006220A0390	1

Power supply

Power supply

Power supply with integrated choke.
Fast diagnosis due to LED display for operational readiness and errors.
The bus can be connected via enclosed terminal block.
Display elements: operational load/overload LED
Rated voltage: 127 V~ - 230 V~, +10 % / -15 %; 50/60Hz
Secondary: 30 V, +2 V / --2 V
Outputs: 1
Rated current: 640 mA
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm
Module width (DIN-rail): 4 MW

Colour	Type	Order code	Pack/Qty.
	PS-M-64.1.1	2CDG510001R0011	1

Sky Niessen

Binary inputs

Binary input 2-gang

Conventional push-buttons or auxiliary contacts can be connected to 2 channels. The information of the contact scanning can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available from the binary input itself. Extension of the connecting cables possible by a maximum of 10 m.
Flush-mounted device for installation in a 60 mm device box or distribution box.
The bus can be connected via enclosed terminal block.
Programming only with bus voltage applied via the web interface of the System Access Point.
Bus voltage: 24 V
Inputs: 2
Polling voltage: 20 V-
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 39 mm x 40 mm x 12 mm.

Colour	Type	Order code	Pack/Qty.
	BI-F-2.0.1	2CDG510002R0011	1

Binary input 4-gang

Conventional push-buttons or auxiliary contacts can be connected to 4 channels. The information of the contact scanning can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available from the binary input itself. Extension of the connecting cables possible by a maximum of 10 m.
Flush-mounted device for installation in a 60 mm device box or distribution box.
The bus can be connected via enclosed terminal block.
Programming only with bus voltage applied via the web interface of the System Access Point.
Bus voltage: 24 V
Inputs: 4
Polling voltage: 20 V-
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 39 mm x 40 mm x 12 mm

Colour	Type	Order code	Pack/Qty.
	BI-F-4.0.1	2CDG510003R0011	1

Binary input 4-gang

The device detects AC/DC signals of 10 - 230 V via 4 channels. The information of the signal evaluation can be used for controlling ABB-free@home® actuators or for recording status information.
The bus can be connected via enclosed terminal block.
Programming only with bus voltage applied via the web interface of the System Access Point.
Bus voltage: 24 V
Inputs: 4
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 90 mm x 36 mm x 64 mm
Module width DIN-rail): 2 MW

Colour	Type	Order code	Pack/Qty.
	BI-M-4.0.1	2CDG510004R0011	1

Switch actuators

Binary input 8-gang / switch actuator 8-gang

Combination device with 8 binary inputs and 8 switch actuators.
Conventional push-buttons or auxiliary contacts can be connected to 8 channels. The information of the contact scanning can be used for activating ABB-free@home® actuators or for recording status information.
The contact polling voltage is made available by the device itself.
Maximum cable length at a cable cross-section of 1.5 mm^2 < 100 m
For switching 8 independent 230 V~ loads.
No additional commissioning software is required.
Programming only with bus voltage applied via the web interface of the System Access Point.
Bus voltage: 24 V
Inputs: 8
Polling voltage: 35 V-
Outputs: 8 Normally Open contact, potential free
Suitable for: AC1 (Output voltage: 230 V~)
Rated current: 6 A, cos φ 0.8
Suitable for: AC3 (Output voltage: 230 V~)
Rated current: 6 A, cos φ 0.45
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 90 mm x 144 mm x 64.5 mm
Module width (DIN-rail): 8 MW.

Colour	Type	Order code	Pack/Qty.
	SA-M-8.8.1	2CDG510007R0011	1

Switch actuator 4-gang

For switching 4 independent 127 V~/230 V~ loads.
Each contact has a manual operation function independent of auxiliary voltage for additionally displaying the contact setting.
The bus can be connected via enclosed terminal block.
Control element: relay control element.
Display elements: relay control element.
Programming only with bus voltage applied via the web interface of the System Access Point.
Power dissipation: 4 W
Bus voltage: 24 V
Outputs: 4
Suitable for: AC1 (Output voltage: 230 V~)
Rated current: 16 A, cos φ 0.8
Suitable for: AC3
Rated current: 8 A, cos φ 0.45
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm
Module width (DIN-rail): 4 MW.

Colour	Type	Order code	Pack/Qty.
	SA-M-0.4.1	2CDG510006R0011	1

Sky Niessen

Dimmer actuator

Dimming actuator 4-gang

Multi-channel universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, low-voltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps. For dimmable Retrofit-LEDs (LEDi).
Increasing the max. load via channel bridging possible.
The outputs can be switched parallel in any combination.
Outputs automatically recognize the connected load.
In addition, the operating mode can be selected manually.
Status indication of the channels via LED.
The bus can be connected via enclosed terminal block.
Display elements: outputs status indication via LED.
Programming only with bus voltage applied via the web interface of the System Access Point.
Rated voltage: 230 V~; 50/60 Hz
Bus voltage: 24 V
Outputs: 4 dimming channel
Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer.
Rated power: 10 - 315 W/VA
Suitable for: LEDi and energy-saving bulbs; typical
Rated power: 2 - 80 W/VA
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 90 mm x 144 mm x 64 mm
Module width (DIN-rail): 8 MW.

Colour	Type	Order code	Pack/Qty.
	DA-M-0.4.2	2CKA006220A0395	1

Blind actuator

Blind actuator 4-gang

For controlling 4 independent blind or roller shutter drives.
The outputs are inversely blocked.
The bus can be connected via enclosed terminal block.
Programming only with bus voltage applied via the web interface of the System Access Point.
Power dissipation: 2 W
Bus voltage: 24 V
Outputs: 4
Suitable for: AC3 (Output voltage: 230 V~)
Rated current: 6 A, cos ϕ0.45
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm
Module width (DIN-rail): 4 MW.

Colour	Type	Order code	Pack/Qty.
	BA-M-0.4.1	2CDG510011R0011	1

Heating & fan coil actuators

Heating actuator 6-gang

For controlling thermoelectric actuating drives in heating/cooling systems.
The outputs are protected against short-circuit and overload.
The bus can be connected via enclosed terminal block.
Programming only with bus voltage applied via the web interface of the System Access Point.
Power dissipation: 2 W
Bus voltage: 24 V. Outputs: 6
Suitable for: resistive. Rated current: 160 mA
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C.
Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm.
Module width (DIN-rail): 4 MW.

Colour	Type	Order code	Pack/Qty.
	HA-M-0.6.1	2CDG510008R0011	1

Heating actuator 12-gang

For controlling thermoelectric actuating drives in heating/cooling systems.
The outputs are protected against short-circuit and overload.
The bus can be connected via enclosed terminal block.
Programming only with bus voltage applied via the web interface of the System Access Point.
Power dissipation: 4 W
Bus voltage: 24 V. Outputs: 12
Suitable for: ohmic. Rated current: 160 mA
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 90 mm x 144 mm x 64 mm.
Module width: 8 MW.

Colour	Type	Order code	Pack/Qty.
	HA-M-0.12.1	2CDG510009R0011	1

Fan coil actuator

For controlling blower convectors. Supports 2-pipe and 4-pipe system for heating and cooling. The fan speed levels can be switched using a changeover or step switch function.
Three contacts for switching a three-stage fan.
Two contacts for activating the heating and cooling valves.
Supports 24V and 230V valves.
With two binary inputs for connecting dew-point and condensation contacts.
The scanning voltage is provided by the device.
The bus connection is provided via the enclosed bus terminal.
Programming only with bus voltage applied via the web interface of the System Access Point.
Bus voltage: 24 V. Inputs: 2
Polling voltage: 10 V-
Outputs: 3 Normally Open contact, potential free
Suitable for: AC3 (Output voltage: 230 V~)
Rated current: 6 A. Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C.
Dimensions: (L x W x D): 90 mm x 108 mm x 64.5 mm.
Module width (DIN-rail): 6 MW.

Colour	Type	Order code	Pack/Qty.
	FCA-M-2.3.1	2CDG510010R0011	1

Sky Niessen - KNX - Building automation

Push-button coupler

KNX Push-button coupler - 1/2-gang

For contacting conventional 1-gang rocker switches.
With middle position.
The bus can be connected via enclosed terminal block.
To be installed with 8501 rockers.

Colour	Type	Order code	Pack/Qty.
	6108/01-509	2CKA006133A0214	1

KNX Push-button coupler - 2/4-gang

For contacting conventional 2-gang rocker switches.
With middle position.
The bus can be connected via enclosed terminal block.
To be installed with 8511 rockers.

Colour	Type	Order code	Pack/Qty.
	6108/02-509	2CKA006133A0215	1

Rockers

Rocker for switch, 1-gang

Rocker for 6108/01-509 KNX Push-button coupler.

Sky Niessen - KNX - Building automation

Sensor

KNX Push-button coupler - 2-gang with bus coupler

With integrated temperature sensor.
Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green.
With middle position.
The bus can be connected via enclosed terminal block.
Control element: switch contacts top/bottom.
Display elements: 2 LED per rocker via separate communication object for status (Red/ Green/ OFF) or orientation light.
Connections: KNX-line - bus connection terminal.
Rated voltage: 24 V-, +5 V / -5 V.
Temperature range device: -5 °C to 45 °C.
To be installed with SR-1-85, SRL-1-85, SRD-1-85, SRB-1-85 and SRS-1-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	6108/06-500	2CKA006133A0221	1

KNX Push-button coupler - 4-gang with bus coupler

With integrated temperature sensor.
Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green.
With middle position.
The bus can be connected via enclosed terminal block.
Control element: switch contacts top/bottom.
Display elements: 2 LED per rocker via separate communication object for status (Red/ Green/ OFF) or orientation light.
Connections: KNX-line - bus connection terminal.
Rated voltage: 24 V-, +5 V / -5 V.
Temperature range device: -5 °C to 45 °C.
To be installed with SR-2-85, SRL-2-L-85 SRL-2-R-85, SRD-2-L-85, SRD-2-R-85, SRB-2-85 SRS-2-L-85 and SRS-2-R-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	6108/07-500	2CKA006133A0223	1

KNX Room thermostat with display

Control element with room thermostat function for triggering the heating, ventilation and fan-coil actuators.
For controlling commercially available valve drives.
With display of set-value temperature.
Master/slave configuration.
With base-load operation.
The bus can be connected via enclosed terminal block.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Control element: switch contacts.
Display elements: LCD showing operation mode and temperature.
Connections: KNX-line - bus connection terminal.
Rated voltage / current: 24 V- / 5 mA.
Temperature range device: -5 °C to 45 °C.
To be installed with CP-RTC-85 cover plates for RTC or CP-RTC-FC-85 cover plates for fan coil control.

Colour	Type	Order code	Pack/Qty.
	6108/18-500	2CKA006134A0319	1

KNX RTC with 5-gang universal input

Control element with room thermostat function for triggering the heating, ventilation and fan-coil actuators.
With universal input with:
- max. of 5 binary inputs.
- 4 binary inputs and 1 analogue input for activating sensors with external power supply 1-10 V/0-10 V
- 2 binary inputs and 1 analogue input for activating sensors with external power supply 1-10 V/0-10 V and an external temperature sensor PT1000 / T6226.
With display of set-value temperature.
Master/slave configuration. With base-load operation.
The bus can be connected via enclosed terminal block.
Class of temperature controller 1. Contribution to space heating energy efficiency 1,0%. Control element: switch contacts. Display elements: LCD showing operation mode and temperature. Connections: KNX-line - bus connection terminal. Rated voltage / current: 24 V- / 5 mA.
Inputs: 5. Polling voltage: binary inputs, presence and/ or window contact. Control/Signal outputs: 1, 0-10 V (passive). Temperature range device: -5 °C to 45 °C.
Tobe installed with CP-CO-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	6109/18-500	2CKA006134A0315	1

KNX RTC with CO_2/moisture sensor

Control element with room temperature controller function and CO_2/moisture/air pressure sensor.
For activating heating, ventilation and fan coil actuators.
With universal input with:
- max. of 5 binary inputs.
- 4 binary inputs and 1 analogue input for activating sensors with external power supply 1-10 V/0-10 V.
- 2 binary inputs and 1 analogue input for activating sensors with external power supply 1-10 V/0-10 V and an external temperature sensor PT1000 / T6226.
With display of set-value temperature.
Master/slave configuration. With base-load operation.
The bus can be connected via enclosed terminal block.
Class of temperature controller 1. Contribution to space heating energy efficiency 1,0%. Control element: switch contacts. Display elements: LCD showing operation mode and temperature. Connections: KNX-line - bus connection terminal. Rated voltage / current: 24 V- / 5 mA.
Inputs: 5. Polling voltage: binary inputs, presence and/ or window contact. Control/Signal outputs: 1, 0-10 V (passive). Temperature range device: -5 °C to 45 °C.

Colour	Type	Order code	Pack/Qty.
	6109/28-500	2CKA006134A0317	1

KNX 180° motion sensor

Movement detector with up to 4 channels.
Detection range: frontal: 6 m, lateral: 6 m.
Brightness limit value: 5 lux - 150 lux.
Detection angle: 180°.
Position for installation: vertical.
Mounting height: 1.1 m.
Temperature range (device): -5 °C to 45 °C.
To be installed with CP-MD-85 cover plates (mounting grid without claws included).

Colour	Type	Order code	Pack/Qty.
	6122/98-509	2CKA006132A0307	1

Friends of Hue smart switch complete set. Wall transmitter, 2/4 channels.

Consitsting of Friends of Hue smart switch insert 6716 U-500. Comprising 2gang rocker 6736 FoH-8xx for Friends of Hue smart switch. Consisting of 1gang future® linear cover frames. Comprising fixing plate and intermediate ring. Smarter light switches for wireless remote control of Philips Hue lamps For switching and dimming of Philips Hue lamps. For saving, calling up and dimming of a maximum of 2 individual light scenes. Without battery and maintenance-free due to >Energy harvesting<. Can be mounted freely in the room with the enclosed adhesive tape and fixing plate. Requires Philips Hue Bridge (2nd generation square construction type) and Philips Hue app (Version 3.2 or higher). Maximum safety of function by means of Zigbee-Mesh technology. Combinable with the Busch-Jaeger switch ranges: carat®,carat® flat, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent®, Busch-axcent® pur and future® linear.
Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.
Including fixing plate for mounting on smooth walls or on switch boxes.

Bluetooth Low Energy (BLE) smart switch complete set. Wall transmitter, 2/4 channels.

Consisting of BLE smart switch insert 6716 UBT, 2gang rocker 6736 FoH-8xx for smart switches, 1gang future® linear cover frame, fixing plate and intermediate ring. Smarter light switch for wireless remote control of BLE radio devices. Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.

- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

Bluetooth Low Energy (BLE) smart switch insert. Wall transmitter, 2 / 4 channel.

For smart switch rockers 6735 BT-8xx and 6736 FoH-8xx.

- Smart switch for wireless remote control of radio components.
- Compatible with Bluetooth ecosystems of following companies: aruba, Casambi, enlighted, Fulham, Helvar, Hytronik, Lumobi, Qeedji, SILVAIR, Blu2Light (Vossloh Schwabe), WISILICIA, XICATO Controls.
- For saving, calling up and dimming individual light scenes.
- Battery-free switch, no connection to mains voltage (230 V~) required.
- Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generated when switching (energy harvesting).
- Maximum functional reliability through Bluetooth mesh technology.
- Depending on the ecosystem, the wireless range is automatically extended via mains-powered BT mesh devices (repeater function).
- Encrypted transmission with AES-128 (CBC mode) and sequence counter.
- Contains NFC configuration interface according to NFC Forum Type 2 Tag (ISO/IEC 14443 Part 2 + 3).
- Therefore particularly simple commissioning of BLE radio components from Casambi.
- Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.
- Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.

Including fixing plate for mounting on smooth walls or on switch boxes.

Flat LED-dimmer, with rotary control

LED dimmer With rotary control. Two-way switch and soft-catch. With N-terminal. 2- or 3-wire connection (neutral conductor not required). Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Without claws. Very low installation depth: < 20 mm Without claws. Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum/maximum brightness. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With Impressivo cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz.
Nominal power (L): 2 - 100 W/VA (leading-edge control).
Nominal power (R, C): 10 - 360 W/VA (trailing-edge control).
Nominal power (LEDi): 2 - 100 W/VA (leading-edge control).
Nominal power (LEDi): 2 - 200 W/VA (trailing-edge control).

Rocker switches / push switches

Busch-rotary dimmer [1]. Flush-mounted, DALI, with internal power supply, tunable white

For DALI broadcast service (via central telegram). With integrated DALI power adaptor. For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. For changing the colour temperature of "tunable white" lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. With electronic short-circuit protection. With electronic overload protection. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=. Rated current: max. 75 mA. Power consumption: < 2,5 W. Number of DALI-units: 37 in case of one active power-potentiometer in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Rocker switches / push switches

Smart Switch, WL — NEW

Smarter light-/blind switch for wireless control of Busch-flexTronics® wireless and Busch-free@home® devices. Wall-mounted transmitter, 2/4 channels.
Operation in ABB-flexTronics® wireless with up to 32 devices (room control). Integration in ABB-free@home® wireless with System Access Point up to 150 devices.
At least one ABB-flexTronics® wireless device or an ABB-free@home® wireless device which serves as proxy device is required. Programming with the ABB-free@home® Next App. Smartphone with NFC required.
Particularly environmentally friendly, sustainable and maintenance-free; Transmission energy is generat-ed when switching (energy harvesting).
Can be mounted freely in the room with the enclosed adhesive tape and fixing plate.
Including fixing plate for mounting on smooth walls or on switch boxes.
Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear.

Dimmers

Relay insert flex, 2gang [1])

3 wire connection (neutral conductor required).
For switching lighting systems.
For switching two independent load circuits.
For controlling light and ventilation systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... .
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 2
Outputs: 2x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 1840 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 1150 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64821 U-500	2CKA006800A3045	1

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Movement detectors

e-contact insert flex, 1gang [1] [2]

2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 3 - 240 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 10 - 240 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 3 - 240 VA
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

[1] Use only dimmable high-voltage LEDs.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6] FM, LED, 3-240 VA

2-wire connection (neutral conductor not required).Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Touch dimmer for switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum brightness. With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Rated power: 3-240 VA (LEDi). Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Inputs: 1. Outputs: 1x dimming channel. Suitable for: 230 V LEDi, typical (leading edge control). Rated power: 3 - 100 VA. Suitable for: 230 V LEDi, typical (trailing edge control). Rated power: 3 - 240 W. Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA.Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Comfort switch flex sensor

Movement detector push-button switch combination. Movement detector push-button switch combination. For switching lighting systems that depend on brightness and movement. Push switch function possible at all times. Extension of the detection range by means of master/slave combination. Additional activation/deactivation option via push-button input on the flush-mounted insert. Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off. Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off. Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off. With continuous light/continuous Off function. Adjusting elements on rear side. Surveillance density: 9 sectors with 28 switching segments. Switch-off delay: 1 to 10 min., adjustable. Compatible with all free@home flexTronics inserts. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Please order the respective flush-mounted insert separately. The range specifications refer only to an ambient temperature of 21°C.

ABB flexTronics inserts

Movement detector sensor with with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Push switch function possible at all times. For detection down to the floor. For detection in stairwells. With 4 detection levels. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flexTronics inserts. Adjusting elements on rear side. Multi-lens: suitable also for mounting heights of 2.20 m. Extension of the detection range by means of master/slave combination. With continuous light/continuous Off function. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode. Surveillance density: 54 sectors with 224 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. For relay insert flex, 1gang, 64811 U. For e-contact insert flex, 1gang, 64814 U. For series relay insert flex, 2gang, 64821 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Mounting height: 31 mm. Please order the respective flush-mounted insert separately. The range specifications refer only to an ambient temperature of 21°C.

SCHUKO® USB socket outlet, 2gang [1] [2] [3] [4] shuttered

For connecting electric loads.
DP (2 P + E)
With screwless terminals.
For supply and support of mobile devices via USB-cable.
With two USB type A outputs.
Simultaneous charging via USB connection and use of the SCHUKO® socket outlet.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 230 V~, +10 % / --10 %
Secondary: 5 V-, +5 % / -5 %
Rated frequency: 50 Hz - 60 Hz
Outputs: 2x USB charging interface
Suitable for: SCHUKO® socket outlet
Rated current: 16 A
Suitable for: In case one output is used:
Rated current: 2.4 A
Output voltage: 5 V-
Suitable for: In case two output are used:
Rated current: 1.2 A
Output voltage: 5 V-
Rated power: 12 W
Protection class (Device): IP 20, SELV
Temperature range (Device): 5 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 58 mm
Mounting depth: 39.5 mm

USB power adapter insert, flush-mounted [1] [2] [3]
With USB-A & USB-C interface

For supply and support of mobile devices via USB-cable. With USB type A and USB type C female connector. To support two devices at the same time. Supports automatic negotiating of optimum charging parameters for the shortest charging times. Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A. Support of the additional quick-charge protocols: USB-PD and quick-charge 3.0 & 4.0. With electronic short-circuit protection. With electronic overload protection. Rated voltage: 220 - 230 V AC
Rated frequency: 50 Hz - 60 Hz. Outputs: 2x USB charging interface. Suitable for: Only USB-A bus occupied: Rated current: 3000 mA
Output voltage: 5 V-. Suitable for: Only USB-C bus occupied: Rated power: 18 W. Suitable for: USB-A and USB-C bus occupied. Total: Rated current: 3250 mA
Output voltage: 5 V-
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 43 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	6475 U-500	2CKA006400A0399	1

[1] No claw. Screw-fixing via keyholes.
[2] No data transfer.
[3] When cleaning the device, use dust cover 2098 for the USB-A connection.

Tele outlet USB

Tele outlet with USB A-type connector. Compatible up to USB 2.0 versions. Internal connections with screw type terminals.

Button / Buzzer

A device including a push button as well as a buzzer. The LED of the push button and the buzzer operates in parallel. The buzzer can be cancelled with the push button. In alarm position the LED flickers. When cancelled it lits constantly till the alarm goes off. Good marking possibilities on the push button and the name plate. Operating voltage 9,5 - 28 Vac / 9,5 - 35 Vdc. Current consumption: 45 mA ac / 35 mA dc. Load capacity of the switch: 42 Vac / 60 Vdc, 250 mA ac/dc, 6 VA / 4 W.

Jussi, includes insert and center plate

Screw-mounted rocker frames, IP44

Screw-mounted rocker frame is used with the seals 2463 or 2464 to reach IP44 protection class on switches and push switches. Furthermore, it can be used to connect the switch frame to the insert with screws for improved security.

Modular

Colour	Type	Order code	Pack/Qty.
	Supporting frame for 1/3-gang rocker, screw fastening		
	2474	2TKA000004G1	20/200
	Supporting frame for 2-gang rocker, screw fastening		
	2475	2TKA000005G1	20/200

Seal 85mm for 1-gang socket outlet, IP44

1-gang socket outlet inserts installed with the seal and a center plate with hinged lid are IP44. Switches and push buttons installed with the seal and with the screwmounted rocker frames are IP44.

Colour	Type	Order code	Pack/Qty.
	2463	2TKA000002G1	20/200

Seal 100mm for 2-gang socket outlet, IP44

2-gang socket outlet inserts installed with the seal and a center plate with hinged lids are IP44. Switches, push buttons and 1-gang socket outlets with a hinged lid are also IP44, when using the seal with adaptor 2519-xx. Screw mounted rocker frame must be used to reach IP44 protection class.

Colour	Type	Order code	Pack/Qty.
	2464	2TKA000003G1	20/200

Blind center plate, 85mm

85mm blind center plate can be used to cover an empty box. It can be used together with 85mm flush- and surface mounting frames. Flush mounting: On a smooth surface IP21, on a rough surface IP20 (seal can't be used). When installed on surface with 2456.26 and 172xS85-xx, protection class is IP44.

Colour	Type	Order code	Pack/Qty.

IR remote control

Infrared hand-held transmitter. Network-independent remote control for infrared receiver and KNX flushmounted infrared interface (10 consumers switchable in 2 groups, 1 – 5/6 – 10, programming and selection of 2 MEMO memories per address group). Supply: 4 alkaline manganese batteries, IEC LR03 (not included in scope of supply) Range: frontal, approx. 15 m.

Colour	Type	Order code	Pack/Qty.
	6010-25	2TKA001017G1	1

Control element, 2/4gang, with RTC multi-function/colour concept

For ABB i-bus® KNX bus coupler 6120/12-101-500, 6120/13-500. Support of KNX functions through innovative colour concept (yellow = lighting, blue = blind, orange = RTC, magenta = scene and white = neutral/no function assigned) or standard illumination red/green.
Rocker switch left/right (switching/dimming/blind/ value sender/light scenes/fan function). Master/slave configuration. With base-load operation. The controller is a constant room temperature controller for ventilator convectors (fan coils) in 2-pipe and 4-pipe systems and conventional heating or cooling systems. The fan stage can be switched manually or in auto- matic mode. Transparent labelling sheet with standard symbols included in delivery. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts left/right, also for selecting setpoint and mode of operation. Display elements: LCD showing operation mode and temperature. Protection class (Device): IP20. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 63 mm x 63 mm.

Dimming actuator 4gang

Multi-channel universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, low-voltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps. For dimmable retrofit LED lamps (LEDi). Increasing the maximum load via channel bridging possible. The outputs can be switched parallel in any combination. Outputs automatically recognise the connected load. In addition, the operating mode can be selected manually. Status indication of the channels via LED.

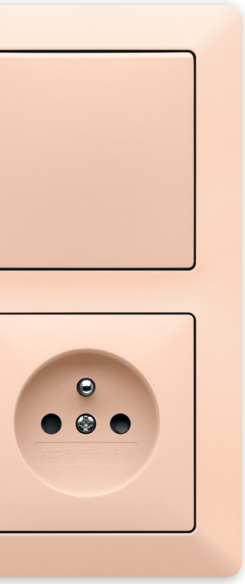
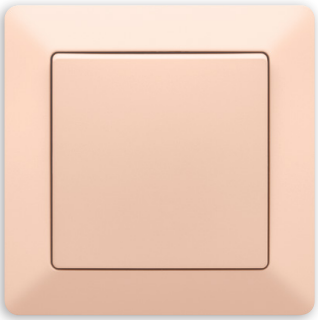
Play the game of lights and shadows

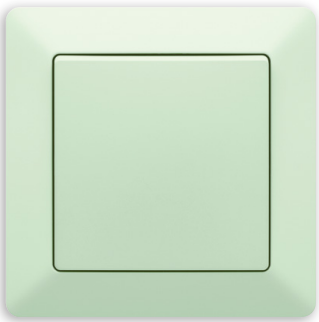
If you like contrast,
you can freely combine.
Not just black and white in form
of two-layer frames, but
even glossy and matte surfaces.



Matt colour is universal, just
like black and white.
It looks the same regardless
of lighting conditions,
no fingerprints remain on the surface



Zoni®
Trendy colours



Soft earthy colours inspired by nature allow switches and sockets to blend in wall shades, tone in tone, or to stand out on clean white walls as a striking addition to the interior.

USB power adapter insert, flush-mounted [1] [2] [3] with USB-A & USB-C interface

For supply and support of mobile devices via USB-cable.
With USB type A and USB type C female connector.
To support two devices at the same time. Supports automatic negotiating of optimum charging parameters for the shortest charging times. Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A. Support of the additional quick-charge protocols: USB-PD and quick-charge 3.0 & 4.0.
With electronic short-circuit protection.
With electronic overload protection. Rated voltage: 220 - 230 V AC Rated frequency: 50 Hz - 60 Hz. Outputs: 2x USB charging interface. Suitable for: Only USB-A bus occupied: Rated current: 3000 mA. Output voltage: 5 V-
Suitable for: Only USB-C bus occupied: Rated power: 18 W
Suitable for: USB-A and USB-C bus occupied. Total: Rated current: 3250 mA. Output voltage: 5 V-
Protection class (Device): IP 20, SELV
Temperature range (Device): 0 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 43 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	6475 U-500	2CKA006400A0399	1

[1] No claw. Screw-fixing via keyholes.
[2] No data transfer.
[3] When cleaning the device, use dust cover 2098 for the USB-A connection.

High power adapter USB C, 65 W

		2CKA006400A0437	1

Zoni®

Telecommunications systems / multimedia

Power supply insert USB charging station with USB C black

For power and charge of mobile devices via USB-C cable.
With USB type C female connector.
Supports high power and automatic negotiating of optimum charging parameters for the shortest charging times.
Support of charging protocols: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the Qualcomm quick charge protocols: QC 2.0, 3.0, 4.0 and 5.
Support of USB PD (power delivery): 3.1 incl. PPS (programmable power supply).
Support of manufacturer specific protocolls: Samsung AFC and Huawei FCP (with 20 W).
With electronic short-circuit protection.
With electronic overload protection.
No claws. Screw fastening via keyholes.

Busch-Radio DAB+ [1])

DAB+ and RDS stereo radio alarm clock for flush-mounted installation. With high-resolution colour display for showing additional information. Reception frequency: 87.50 MHz - 108.00 MHz. Receive frequency (DAB+): 174 MHz – 240 MHz. With external AUX input/output, reversible. For mono/stereo operation. 8 radio stations storable. With time and date display.
With individual alarm and snooze function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Control/Signal outputs: 2, Loudspeaker output, impedance 4 Ohm
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm
Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.

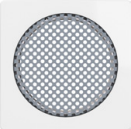
[1]) No claw. Screw-fixing via keyholes.

Busch-Radio BTconnect DAB+ [1])
With Bluetooth interface for music replay.



DAB+ and RDS stereo radio alarm clock for flush-mounted installation. With high-resolution colour display for showing additional information. With Bluetooth interface for music replay of mobile devices. Connection of external Bluetooth loudspeakers possible. Reception frequency: 87.50 MHz - 108.00 MHz. Receive frequency (DAB+): 174 MHz – 240 MHz.
With external AUX input/output, reversible.
For mono/stereo operation. 8 radio stations storable.
With time and date display.
With individual alarm and snooze function. With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches. With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Bluetooth specification: 4.2.
Bluetooth profiles supported: A2DP
Number of stored Bluetooth connections: max. 8
Control element: 4-button operation via floating rocker
Display elements: ICU graphic display with 280 DPI.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 2 W (RMS)
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9] Flush-mounted, LED, 2-100 W

With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
Via mode switch adjustable between leading edge control and trailing edge control.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 250 W/VA (non-LED loads).
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	6523 U-102-500	2CKA006512A0335	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Busch-rotary dimmer [1] [2] [3] [4] flush mounted, 1-10V

With rotary control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control gears
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 700 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	2112 U-101-500	2CKA006599A2873	1/10

[1] Non-illuminable.
[2] Use cover plates 2115 J-.../2115-.../6540-... .
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Making-current limiters have to be provided in case of too high making currents.

Zoni®
Dimmers

Busch-rotary dimmer [1])
Flush-mounted, DALI, tunable white

For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Colour	Type	Order code	Pack/Qty.
	2116 U	2CKA006599A3025	1

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-rotary dimmer [1]) Flush-mounted, DALI, with internal power supply, tunable white

For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Room thermostat insert with Setpoint display

Room temperature controller with integrated actuator output wireless connection and operating via free@home Next App
Use as a stand-alone controller or within the eco system with Busch-free@home®
Heating/cooling operation.
16A Switch-actuator output
Control element with room temperature controller function.
6-button touch-operation for on-site operation
Additional functions such as temperature adjustment and timer can be set via app.
With temperature display target value.
With integrated switching actuator, e.g. for controlling thermoelectric actuators in heating/cooling systems or electric underfloor heating.
RTR function is also available without prior programming (preconfigured).
The integrated RTR can optionally be equipped with a remote sensor in conjunction with temperature sensor 6226/T.
3-wire connection technology (neutral conductor required).
Programming/settings via the Busch-free@home® app next
Device access via app is via Bluetooth or wireless
Communication with the free@home system is wireless.
Matching central plate: 1794 MDRT-xx

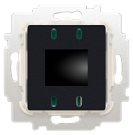
62841 U-WL-500	2CKA006800A3115	



Room thermostat insert with Setpoint display

Sensor Unit with integrated RTR
Usable within the free@home® eco system
Heating/cooling mode.
Control element with room temperature controller function.
6-button touch control for on-site operation
Additional functions such as temperature adjustment and timer can be set via app.
With temperature display of set-point temperature
RTR function is also available without prior programming (preconfigured).
The integrated RTR can optionally be equipped with a remote sensor in conjunction with temperature sensor 6226/T.
3-wire connection technology (neutral conductor required).
Programming/settings via the Busch-free@home® app next
Device access via app is via Bluetooth or wireless
Communication with the free@home system is wireless.
Matching central plate: 1794 MDRT-xxx

Type	Order code	Pack/Qty.
62842 U-WL-500	2CKA006800A3117	

Room thermostat insert with Setpoint display

Room temperature controller with integrated actuator output wireless connection and operating via free@home Next App
Use as a stand-alone controller or within the eco system with Busch-free@home®
Heating/cooling operation.
electronic-actuator output
Control element with room temperature controller function.
6-button touch-operation for on-site operation
Additional functions such as temperature adjustment and timer can be set via app.
With temperature display target value.
With integrated switching actuator, e.g. for controlling thermoelectric actuators in heating/cooling systems or electric underfloor heating.
RTR function is also available without prior programming (preconfigured).
3-wire connection technology (neutral conductor required).
Programming/settings via the Busch-free@home® app next
Device access via app is via Bluetooth or wireless
Communication with the free@home system is wireless.
Matching central plate: 1794 MDRT-xxx

Zoni®

ABB flexTronics inserts

Relay insert flex, 1gang [1]

3 wire connection (neutral conductor required).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... .
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz. Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical. Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps. Rated power: 2300 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 2300 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64811 U-500	2CKA006800A3042	1/10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Relay insert flex, 2gang [1]

3 wire connection (neutral conductor required).
For switching lighting systems.
For switching two independent load circuits.
For controlling light and ventilation systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... . For Busch-Watchdog 180 flex sensors 6476x-...
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz. Inputs: 2
Outputs: 2x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical. Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps. Rated power: 1840 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 1150 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64821 U-500	2CKA006800A3045	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

e-contact insert flex, 1gang [1] [2]

2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 3 - 240 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 10 - 240 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 3 - 240 VA
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.
	64814 U-500	2CKA006800A3048	1

[1] Use only dimmable high-voltage LEDs.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Zoni®

ABB flexTronics inserts

LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6]
FM, LED, 3-240 VA

2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
Touch dimmer for switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum brightness.
With light-level memory and minimum brightness memory.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without control cover.
For control element flex, 1gang, 64711.
For control element flex, 2gang, 64721.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Rated power: 3-240 VA (LEDi)
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x dimming channel
Suitable for: 230 V LEDi, typical (leading edge control)
Rated power: 3 - 100 VA
Suitable for:230 V LEDi, typical (trailing edge control)
Rated power: 3 - 240 W
Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer.
Rated power: 10 - 240 VA
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1

Colour	Type	Order code	Pack/Qty.
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Extension insert flex [1]

3 wire connection (neutral conductor required).
For the extension of the Busch-Comfort switch or presence detector installations. For group control of flex inserts via extension unit communication.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with all flex inserts.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz. Control/Signal outputs: 1, electronic output, potential-bound. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mm

Colour	Type	Order code	Pack/Qty.

Zoni®

ABB flexTronics movement detector sensors

Movement sensor, 180 flex, Basic Sensor with selected lens

Movement detector sensor with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Compatible with all free@home flex inserts. Adjusting elements on rear side. Extension of the detection range by means of master/slave combination. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode. Surveillance density: 14 sectors with 56 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. Mounting height: 22 mm

Movement sensor, 180 flex, with selected-lens, wireless

Movement detector sensor with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Push switch function possible at all times. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With time-controlled basic illumination function. With time-controlled night anti-glare function. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flex inserts. Works with free@home. Remote operation via the Bluetooth and smartphone/tablet app. Programming via Bluetooth with the ABB-free@home® app or via the web interface of the System Access Point. Extension of the detection range by means of master/slave combination. Timer with Astro function. Automatic switchover from summer time to winter time (switch-off function). With continuous light/continuous Off function. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode. Surveillance density: 14 sectors with 56 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable.

Movement sensor, 180 flex, with multi-lens

Movement detector sensor with measurement of ambient light. For automatic switching of devices dependent on motion and brightness. Push switch function possible at all times. For detection down to the floor. For detection in stairwells. With 4 detection levels. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flex inserts. Adjusting elements on rear side. Multi-lens: suitable also for mounting heights of 2.20 m. Extension of the detection range by means of master/slave combination. With continuous light/continuous Off function. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode. Surveillance density: 54 sectors with 224 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. Mounting height: 31 mm

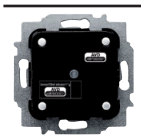
ABB Free@home - inserts

free@home sensor/Dimmer actuator - 1/1-gang

For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. The dimming function is available pre-configured.
Outputs: 1× dimming channel.
Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Rated power: 10–180 W / VA.
Suitable for: LEDi and energy-saving bulbs.
Rated power: 2–80 W / VA.
Mounting depth: 32 mm.
To be installed with SR-1-85, SRL-1-85, SRD-1-85, SRB-1-85 and SRS-1-85 cover plates.

Colour	Type	Order code	Pack/Qty.
	SDA-F-1.1.1	2CKA006220A0126	1



free@home Sensor/Dimmer actuator - 2/1-gang

For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. The dimming function is available pre-configured
Outputs: 1× dimming channel.
Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Rated power: 10–180 W / VA.
Suitable for: LEDi and energy-saving bulbs.
Rated power: 2–80 W / VA.
Mounting depth: 32 mm.
To be installed with SR-2-85, SRL-2-L-85 SRL-2-R-85, SRD-2-L-85, SRD-2-R-85, SRB-2-85 SRS-2-L-85 and SRS-2-R-85 cover plates.

free@home Sensor/Blind actuator - 1/1-gang

For controlling blind and awning motors. With integrated blind actuator. Blind function is available pre-configured.
Outputs: 1× Change-over contacts/normally open contact, potential-bound.
Rated power: 920 VA.
Rated current: 4 A.
Suitable for: Operating mode blind.
Mounting depth: 32 mm.
To be installed with SR-1-85, SRL-1-85, SRD-1-85, SRB-1-85 and SRS-1-85 cover plates.

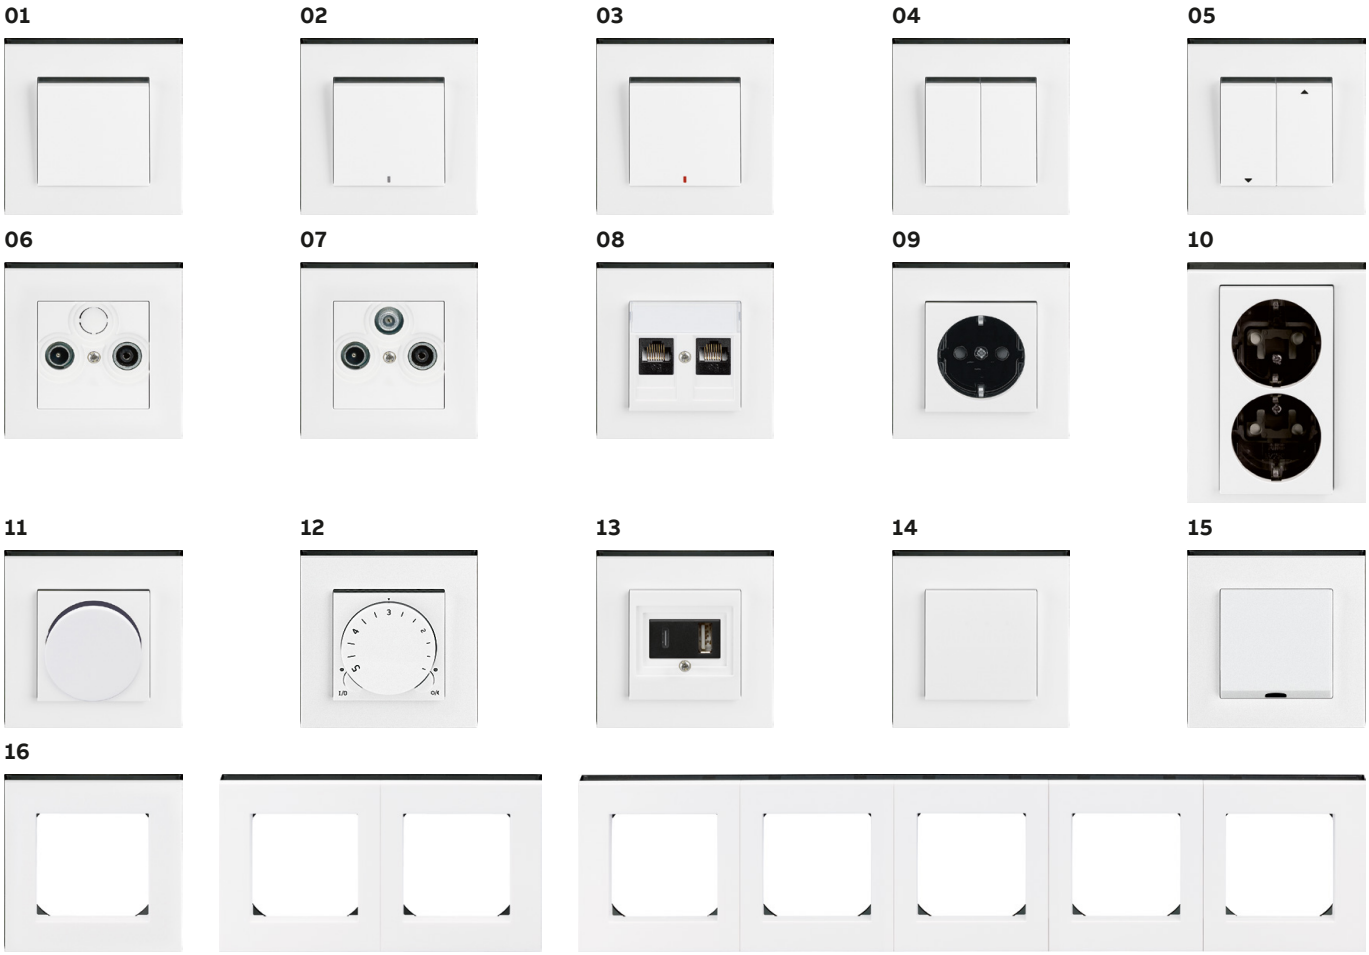
Notes

Levit®
Go bright



The Levit® collection will perfectly fit into any modern home. Clear straight lines, the timeless shape of the square, the ideal proportions of the button and frame, and the striking contrast of the two-piece base. Levit®M extendends the range with cool metalic shades, which reflect the current trends in world design.

Socket outlet with pin, USB A+C, shuttered

For connecting electric loads. DP (2 P + E)
With screwless terminals.
For supply and support of mobile devices via USB-cable. With 1x USB type A and 1x USB type C outputs.
Simultaneous charging via USB connection and use of the socket outlet.
Support of loading protocol on the USB-A connection: Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of loading protocol on the USB-C connection: USB-PD till 3 A, Apple MFI till 2.4 A and BC 1.2 with 1.5 A.
With electronic short-circuit protection.
With electronic overload protection.
Rated voltage: 230 V AC
Rated frequency: 50 Hz / 60 Hz
Power dissipation: < 75 mW
Rated current: 16 A
Outputs: 2x USB charging interface
Output voltage: 5 V DC
Rated power: 15 W
Suitable for: In case one output is used:
USB-A port: Max. current 2.4 A.
USB-C port: Max. current 3 A*
*3 A requires approved charging cables.
Protection class (Device): IP 20, SELV
Temperature range (Device): 5 °C to 35 °C
Mounting depth: 39.5 mm

Levit®
Socket outlets

Socket outlet 55×55 with earthing pin, shuttered

Nominal voltage: 250 V ~
Nominal current: 16 A
Screwless terminals

If installing into a separate 1gang frame, please use the specialized frames with a 55×55 internal window (Art. No. 3901H-A05510 ..)
If installing into a multigang frame, use standard frames with the corresponding number of gangs (Art. No. 3901H-A050..) along with specialized cover plates with internal window 55×55 (Art. No. 3901H-A00..55..): external or internal depending on the position of the insert in the frame.
Also available: 2gang frames with a 55×55 internal window (Art. No. 3901H-A05520 ..)

Socket outlet with earthing pin, shuttered with overcurrent protection

Nominal voltage: 250 V ~
Nominal current: 16 A
Screwless terminals

Residual working current IΔn: 30 mA
Type A, AC and pulse current sensitivity
Rated current In: 16 A
Rated frequency: 45 - 60 Hz
Charging time at 5× IΔn: max. 30 ms
Rated short-circuit current: 3,000 A
Impulse current resistance: 3,000 A, 8/20 µs
Ambient temperature: –25 °C to +40 °C
Degree of protection: IP 20
Climatic resistance: in accordance with EN 61008-1
Connection cross-section: 1.5 to 2.5 mm^2
Mounting depth: 32 mm

If installing into a separate 1gang frame, please use the specialized frames with a 55×55 internal window (Art. No. 3901H-A05510 ..)
If installing into a multigang frame, use standard frames with the corresponding number of gangs (Art. No. 3901H-A050..) along with specialized cover plates with internal window 55×55 (Art. No. 3901H-A00..55..): external or internal depending on the position of the insert in the frame.
Also available: 2gang frames with a 55×55 internal window (Art. No. 3901H-A05520 ..)

Levit®
Socket outlets

Socket outlet for centralized dust collector

Socket outlet with cover and base is designed for centralized dust collection systems
to be used with 51 mm pipes
(with 32 to 36 mm tapered end
and 37.5 / 37.0 to 38.5 / 38 mm diameter)
For vacuums of pressure 10–45 kPa.
The frame is integral to the socket outlet
The socket outlet cannot be
mounted in multi-gang frames
The horizontal axis of the socket outlet
is the horizontal axis of the pipe opening

USB power adapter insert, flush-mounted [1] [2] [3] With USB-A & USB-C interface

For supply and support of mobile devices via USB-cable. With USB type A and USB type C female connector. To support two devices at the same time. Supports automatic negotiating of optimum charging parameters for the shortest charging times. Support of loading protocol on the USB-A connection:
Apple MFI with 2.4 A and BC 1.2 with 1.5 A.
Support of the additional quick-charge protocols: USB-PD and quick-charge 3.0 & 4.0. With electronic short-circuit protection. With electronic overload protection. Rated voltage: 230 - 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz. Outputs: 2x USB charging interface
Suitable for: Only USB-A bus occupied:
Rated current: 3000 mA. Output voltage: 5 V-
Suitable for: Only USB-C bus occupied:
Rated power: 18 W
Suitable for: USB-A and USB-C bus occupied. Total:
Rated current: 3250 mA. Output voltage: 5 V-
Protection class (Device): IP 20, SELV. Temperature range (Device): 0 °C to 35 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 43 mm. Mounting depth: 32 mm

Colour	Type	Order code	Pack/Qty.
	6475 U-500	2CKA006400A0399	1

[1] No claw. Screw-fixing via keyholes.
[2] No data transfer.
[3] When cleaning the device, use dust cover 2098 for the USB-A connection.

Busch Btconnect Radio

Busch-Jaeger insert
Compatible with Levit cover plates
Art. No. 3299H-A40200 ..
RDS stereo radio with display,
for flush-mounted installation.
With Bluetooth interface to play from mobile devices.
Receive frequency: 87.50 - 108.00 MHz.
With external AUX input.
For mono/stereo operation, 8 radio stations storable.
With time and date display.
With alarm clock and snooze function.
With short-time timer.
With automatic switch-off function.
With extension input to remote-controlled
ON/OFF switches.
With integrated antenna.
With additional connection for external antenna.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed into standard installation
box. Bluetooth specification: 2.1
Bluetooth profiles supported: A2DP
Number of stored Bluetooth connections: max. 8
Nominal voltage: 110 - 230 V~, +10%/-10%
Rated frequency: 50 Hz - 60 Hz
Protection class: IP 20
Operating temperature: 5°C to 40°C
Dimensions (Height × Width × Depth):
71 mm × 71 mm × 47 mm
Built-in depth: 32 mm
