Feature	Value	Answer EN	Comment
Indication	Analogue	No	
Indication	Digital	No	
Indication	Graphic	Yes	
Limit value indication		Yes	
Isolation resistance measurement		Yes	
Isolation resistance measurement with		No	
Resistances of isolating floors and walls		Yes	
Overvoltage protector testing		No	
Low resistance measurement		Yes	
Low resistance measurement with ramp		No	
Earthing measurement		Yes	
Selective earthing measurement		Yes	
Earth loop measurement		Yes	
Specific earthing measurement		Yes	
Loop resistance/impedance		Yes	
Loop measurement without RCD/FI release		Yes	
Mains internal resistance measurement		Yes	
Detection short-circuit		Yes	
RCD/FI testing		Yes	
Curve shape at RCD/FI testing	For earth leakage switch type A, F	Yes	
Curve shape at RCD/FI testing	For earth leakage switch type A, F and type B, B+	Yes	also AC and RDC-DD (EVSE RCD)
RCD/FI testing with rising residual		Yes	RCD tripping current ramp
RCD/FI analysis function		Yes	AUTO-RCD test with results being displayed in a table, also included in the Auto-Testsequence.
PRCD testing type S, type K		No	
Testing of IMDs and RCMs		No	
Measuring of leakage currents with		No	
Testing of charging devices E-Mobility, simulation of vehicle status		Yes	
Field rotation test		Yes	
Structured measured value memory		Yes	no internal memory - Sparkify only
Measured value memory		Yes	
Interface		Yes	
Printer connection		No	
Printer integrated		No	
Remote control for testing device		Yes	test probe with test button
