Product description:

With the Smart IP camera indoor you can monitor sensitive areas of your home and use the build-in sensors to control other Smart devices with the ELKO SmartHUB.
You can install the camera in all directions, e.g on the wall, at the ceiling or on a table.
You can insert a micro-SD card for local storage.

To set up the camera, it needs to be connected to Wi-Fi through the ELKO Smart-app. You do not need an ELKO SmartHUB to set up or use the camera through the app.
