

DEMAND-DRIVEN AUTOMATION

If you want to improve quality of life and energy efficiency in buildings, you have to consider the building as a whole. Our intelligent automation solutions therefore ensure optimal ambience and demand-driven use for lighting and beyond – with digital networking if required...

INTELLIGENT LIGHTING

If you want the best lighting for people, first-class light quality must be combined with a demand-driven light management concept. Exactly the right task for ESYLUX:

We develop lighting solutions for any space and requirement – using a system, appropriate design and user-friendly concepts...

REFERENCE: HWK DÜSSELDORF MASTER MAKER LIGHT

During the modernisation of their crafts schools, the Handwerkskammer Düsseldorf (Düsseldorf Chamber of Crafts) opted for an easy-to-install ESYLUXELC lighting system. Today, the system offers presence- and daylight-dependent constant light control in the training rooms and workshop areas, providing flicker-free light for ideal learning and teaching conditions.

REFERENCE: VAHLE MOTIVATION SHINES FAR AND WIDE

With its solutions for demand-based energy and data transfer, VAHLE has developed into a global market leader. The offices in our company headquarters are also built on state-of-the-art technology. The light system of the NOVA Quadro set from ESYLUX provides biologically effective light – which is highly energy-efficient thanks to SymbiLogic!

HUMAN-CENTRIC LIGHTING WITH SYMBOLOGIC

Biologically effective light provides the best work lighting for people. Thanks to SymbiLogic technology and the use of intelligent sensors, our implementation of this form of lighting is not only effective, but also very energy efficient.

DISCOVER ESYLUX INNOVATIONS VIRTUALLY

Visit our virtual trade fair and discover innovations such as DEFENSOR as a 3D model and ESYLUX Light Control with additional functions. You can now visit us from the comfort of your own home thanks to the virtual ESYLUX trade fair ESYSHOW!
Now available 24/7 at esylux.com!
