

HEADLAMP BATTERY PACK

USB rechargeable 3.3Ah (7.4V Li Ion) hard case

PRODUCT DESCRIPTION

The **nimble and lightweight** USB rechargeable battery (3.3 Ah) can be attached to the neck plate, belt or bike frame. The battery meets IPX5 standard: Water resistant; withstands heavy rain and water from any direction. The LED battery indicator ensures that you can keep track of how much power that remains in the battery. The battery is easily charged via a micro USB cable and has a charging time of 4 hours.

SILVA BATTERIES

Our battery line-up gives you the opportunity to find the right balance between burn time and weight. The power range covers a wide span of activities, from a small head-mounted battery for a fast run to a powerful pack for a long hike. All rechargeable batteries are equipped with USB charging.

The **SILVA Connection System** enables you to use SILVA Li-Ion battery from 2008 and onwards. If the cable fits, it works.

The colder it gets the less battery capacity.

The battery capacity could depend on your body heat as well as the outside temperature. The long extension cord from SILVA gives you the option to carry the battery close to your body. This could be crucial in many ways. Keeping the battery as warm as possible in cold weather extends its burn time.

HEADLAMP BATTERY PACK

USB rechargeable 3.3Ah (7.4V Li Ion) hard case

SPECIFICATION

Battery type	Li-Ion 7.4V 3.3Ah / hard case
Compatible with	Exceed Series, Trail Speed Series, Cross Trail Series
Connection plug	SILVA connector
Charging type / time	Micro USB / 4h
Water resistance	IPX5 - water resistant
Battery indication	Yes
Attachment	Multi attachment Velcro strap: Headband, belt, bike frame
Durability	Withstand 2M drop into wooden floor TBC
Temperature operating range	20°C - +60°C TBC
Storage temperature	-20°C - +35°C TBC
Material	TBA
Dimensions	TBA
Weight excl. batteries	-
Weight	157 g

INCLUDED

Velcro strap

DEALER INFORMATION
