

- Suitable for G.657 fibers
- Integrated, captive dust caps
- Suitable for splice and pre-termination
- Guaranteed bending radius of 15mm

## Technical Data

Criteria	Date / value
Capacity of adapters	2
Capacity of fibers	4
Suitable for connectors	LC duplex, SC simplex, E2000 simplex
Suitable for type of splice protection	4x heat shrink protection (2.4 – 2.6mm in shrunk condition) 4x mechanical crimp splice protection
Dimensions	L = 88mm / T= 88mm / H = 22mm
Color of housing / cover	White (RAL 9010)

## Mechanical characteristics

Criteria	Date / value
Material of housing / cover	Polycarbonate (PC-ABS) UL 94 listed
Material of Mounting plate	Aluminum tumble polish, flash-free

## Environmental characteristics

Criteria	Date / value	Standard
Operation temperature	-10°C to 60°C	IEC 61300-2-17 and /d-18
Damp heat	+40°C at 93% (96h)	IEC 61300-2-19
IP protection class	IP20 (protection against contact)	IEC 60529

## Dimensions
