

Junction box B 9/T, with perforation membrane

The wet-room junction box comprises two halogen-free plastic components, 2 additional entries in base with push-through membrane (for cable diameter up to 15 mm)

with perforation membrane (for cable diameter up to 15 mm).

Where cable glands are used (giving additional strain relief) there is no need to remove the membrane (this saves time). Protection IP 67 with cable gland and for the perforation membrane.

Rated voltage 400 V; nominal cross-section 4 - 6 mm².

The lid is sealed with . The fastening holes are additionally moulded with a soft plastic component for bolt ø 5 mm (spacing 75 mm).

2 fastening bolt caps and 1 fastening bolt.

Clear internal dimensions: 98x98x40
