DELIVERY PROGRAM

Delivery program

Technical data

Design verification as per IEC/EN 61439

Technical data ETIM 7.0

Product range Control switches

Part group reference T0

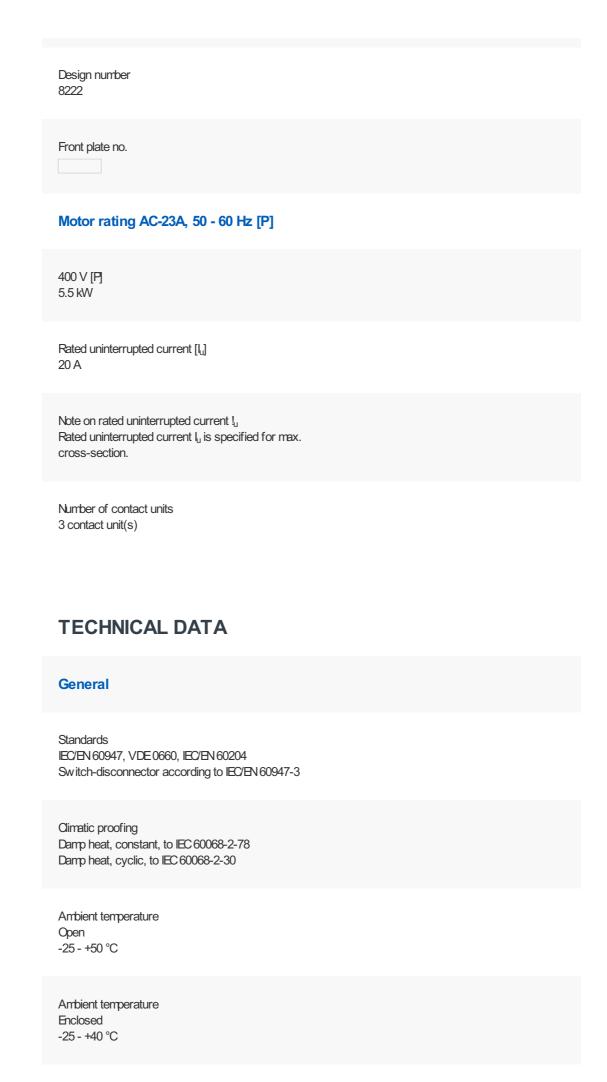

Basic function Changeoverswitches

Contacts

Design rear mounting Basic switch

Contact sequence

Switching angle 90 °

Overvoltage category/pollution degree

Rated impulse withstand voltage [U_{mp}] 6000 V AC

Mechanical shock resistance 15 g

Mounting position As required

Contacts

Bectrical characteristics Rated operational voltage [U_e] 690 V AC

Bectrical characteristics
Rated uninterrupted current [I,]
20 A

Bectrical characteristics Note on rated uninterrupted current l_u Rated uninterrupted current l_u is specified for max. cross-section.

Load rating with intermittent operation, class 12 AB 25 % DF $_{\rm 2\,X\,I_{\rm e}}$

Load rating with intermittent operation, class 12 AB 40 % DF 1.6 x $I_{\rm e}$

Load rating with intermittent operation, class 12 AB 60 % DF 1.3 x $I_{\rm e}$

Short-circuit rating Fuse 20 A gG/gL

Rated short-time withstand current (1 s current) $[l_{\rm cw}]$

320 A_{rms}

Note on rated short-time withstand current lcw Ourrent for a time of 1 second

Rated conditional short-circuit current $[I_q]$ 6 kA

Switching capacity

 $\cos \phi$ rated making capacity as per IEC 60947-3 130 A

Rated breaking capacity cos φ to IEC 60947-3 230 V 100 A

Rated breaking capacity cos φ to IEC 60947-3 400/415 V 110 A

Rated breaking capacity cos φ to IEC 60947-3 500 V 80~A

Rated breaking capacity cos φ to IEC 60947-3 690 V $\,$ 60 A $\,$

Safe isolation to EN 61140 between the contacts 440 V AC

Safe isolation to BN 61140 Current heat loss per contact at $\rm l_e$ 0.6 W

Safe isolation to EN 61140 Ourrent heat loss per auxiliary circuit at $\rm I_{\rm e}$ (AC-15/230 V) $\rm 0.6~CO$

Lifespan, mechanical [Operations] > 0.4 x 10⁶

Maximum operating frequency [Operations/h] 1200

AC AC-3 Rating, motor load switch [P] 220 V 230 V [P] 3 kW

AC AC-3 Rating, motor load switch [P] 230 V Star-delta [P] 5.5 kW

AC AC-3 Rating, motor load switch [P] 400 V 415 V [P] 5.5 kW

AC AC-3 Rating, motor load switch [P] 400 V Star-delta [P] 7.5 kW

AC AC-3 Rating, motor load switch [P] 500 V [P] 5.5 kW

AC AC-3 Rating, motor load switch [P] 500 V Star-delta [P] 7.5 kW

DESIGN VERIFICATION AS PER IEC/EN 61439

Technical data for design verification Rated operational current for specified heat

dissipation [In] 20 A

Heat dissipation per pole, current-dependent [P_{id}] 0.6 W

Equipment heat dissipation, current-dependent $[P_{vid}]$ 0 W

Static heat dissipation, non-current-dependent [P_s] 0 W

Heat dissipation capacity [Pdiss] 0 W

Operating ambient temperature min. -25 °C

Operating ambient temperature max. +50 °C

IEC/EN 61439 design verification

10.2 Strength of materials and parts10.2.2 Corrosion resistanceWeets the product standard's requirements.

10.2 Strength of materials and parts 10.2.3.1 Verification of thermal stability of enclosures Meets the product standard's requirements.

10.2 Strength of materials and parts10.2.3.2 Verification of resistance of insulating materials to normal heatWeets the product standard's requirements.

10.2 Strength of materials and parts
10.2.3.3 Verification of resistance of insulating
materials to abnormal heat and fire due to internal
electric effects
Meets the product standard's requirements.

10.2 Strength of materials and parts
10.2.4 Resistance to ultra-violet (UV) radiation
UV resistance only in connection with protective shield.

10.2 Strength of materials and parts10.2.5 LiftingDoes not apply, since the entire switchgear needs to be evaluated.

10.2 Strength of materials and parts
10.2.6 Mechanical impact
Does not apply, since the entire switchgear needs
to be evaluated.

10.2 Strength of materials and parts10.2.7 InscriptionsMeets the product standard's requirements.

10.3 Degree of protection of ASSEVBLIES

Does not apply, since the entire switchgear needs
to be evaluated.

10.4 Clearances and creepage distances Meets the product standard's requirements.

10.5 Protection against electric shock Does not apply, since the entire switchgear needs to be evaluated. 10.6 Incorporation of switching devices and components

Does not apply, since the entire switchgear needs to be evaluated.

10.7 Internal electrical circuits and connections is the panel builder's responsibility.

10.8 Connections for external conductors Is the panel builder's responsibility.

10.9 Insulation properties 10.9.2 Power-frequency electric strength Is the panel builder's responsibility.

10.9 Insulation properties 10.9.3 Impulse withstand voltage Is the panel builder's responsibility.

10.9 Insulation properties10.9.4 Testing of enclosures made of insulating materialIs the panel builder's responsibility.

10.10 Temperature rise
The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.

10.11 Short-circuit rating Is the panel builder's responsibility. The specifications for the switchgear must be observed.

10.12 Electromagnetic compatibility Is the panel builder's responsibility. The specifications for the switchgear must be observed.

10.13 Mechanical function
The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.

Low-voltage industrial components (EG000017) / Off-load switch (EC001105)

Bectric engineering, automation, process control engineering / Low-voltage switch technology / Off-load switch, circuit breaker, control switch / Changeover switch (ecl@ss10.0.1-27-37-14-05 [AKF062013]) Model Reverser Number of poles With 0 (off) position No With retraction in 0-position No Rated permanent current lu 20 A Rated operation current le at AC-3, 400 V 11.5 A Rated operation power at AC-3, 400 V 4 kW Degree of protection (IP), front side IP65 Degree of protection (NEVA), front side Other Number of auxiliary contacts as normally closed contact 0 Number of auxiliary contacts as normally open contact 0

Number of auxiliary contacts as change-over

contact 0

Suitable Yes	e for ground mounting
Suitable No	e for front mounting 4-hole
Suitable No	e for distribution board installation
Suitable Yes	e for intermediate mounting
Complet No	te device in housing
Material Plastic	I housing
Type of Other	control element
	electrical connection of main circuit connection
